Teske, Mary Ann Tétreault, 2003 Partial Truths and the Politics of Community considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making The contributors explore feminisms as dreams of human rights as a cluster of ideologies and as a bounty of social practices set within frameworks for tackling problems in nation building and global governance In essays that illustrate the impact of feminist concerns with the quality of education the contributors offer studies of homeschooling of the education of impoverished girls in rural Mexico of sororities and their relation to female autonomy and of the teaching of prisoners by volunteers in county jails Other contributors call for a greater attention to the ecology of social life viewing society as a

complex of individuals bound to one another through webs of transactions and obligations These contributors recount examples from Northern Ireland Poland and the United States in which such webs sometimes support and sometimes strangle efforts to achieve human dignity and autonomy Evaluating progress made in the legal realm other contributors chart the opportunities and limitations of international and domestic law as tools to advance and protect human rights They consider gender discrimination in universities and colleges the United Nations and its mixed record on women s issues and the effects of adding rape to the list of prosecutable war crimes The volume concludes with two works on how feminism supports democratic constructions of science and religion with results that destabilize dominant institutions in both realms

Black Greek-letter Organizations in the

Twenty-First Century Gregory S. Parks, 2008-06-13 During the twentieth century black Greek Letter organizations BGLOs united college students dedicated to excellence fostered kinship and uplifted African Americans Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr Congresswoman Barbara Jordan novelist Toni Morrison and Wall Street pioneer Reginald F Lewis Despite the profound influence of these groups many now question the continuing relevance of BGLOs arguing that their golden age has passed Partly because of their perceived link to hip hop culture black fraternities and sororities have been unfairly reduced to a media stereotype a world of hazing without any real substance The general public knows very little about BGLOs and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations To foster a greater engagement with the history and contributions of BGLOs Black Greek Letter Organizations in the Twenty first Century Our Fight Has Just Begun brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members Editor Gregory S Parks and the contributing authors provide historical context for the development of BGLOs exploring their service activities as well as their relationships with other prominent African American institutions The book examines BGLOs responses to a number of contemporary issues including non black membership homosexuality within BGLOs and the perception of BGLOs as educated gangs As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena Louisiana these organizations still have a vital mission Both internally and externally BGLOs struggle to forge a relevant identity for the new century Internally these groups wrestle with many issues including hazing homophobia petty intergroup competition and the difficulty of bridging the divide between college and alumni members Externally BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism sexism and other types of fear driven behavior By embracing the history of these organizations and exploring their continuing viability and relevance Black Greek Letter Organizations in the Twenty first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead
