South African Defence Force 2016application:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Papers, 1924 **SADC Gender Protocol 2017 Barometer** Morna, Colleen Lowe, Makamure, Lucia, 2017-10-04 The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, its updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable Development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017, the Ministers adopted a Monitoring, Evaluation and Reporting Framework (MERF) that will be the basis of future reporting. Now in its ninth edition, the 2017 Barometer is the first assessment of the Post-2015 SADC Gender Protocol. Moving with the times, the Alliance has expanded the two key main yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice, choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data, insights and analysis awaits all readers of the Barometer that will also be made available online and in multi-media formats. The SADC we want is one in which citizens engage, step it up for gender equality and make sure we achieve Planet 50/50 by 2030.
