Knowledge Beyond Colour Lines Monwabisi K. Ralarala, Salochana Lorraine Hassan, Rajani Naidoo, 2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western

Cape Founder of the Centre for Advanced Studies of African Society **The Guide to COIL Virtual Exchange** Jon Rubin, Sarah Guth, 2023-07-03 This is the authoritative guide to implementing COIL Virtual Exchange conceived and co edited by one of the originators of this innovative approach to internationalization Jon Rubin COIL the acronym for Collaborative Online International Learning is a central modality of what has come to be known as virtual exchange Since its first iteration in 2002 it has gradually established itself as a mature pedagogy that is being increasingly implemented across the world and is validated by a growing body of research COIL Virtual Exchange at its most essential is a bi lateral online exchange involving the integration of existing courses across two or sometimes more institutions that are geographically and or culturally distinct To launch a COIL VE course the instructor of a class at a higher education institution in one location links online with a professor and his or her class in another region or country Together their students engage and develop joint projects usually over a continuous five to eight week period Compared to the limited number of students worldwide who can engage in study abroad COIL VE potentially opens up more equitable and inclusive participation in international education and intercultural experiences to all students involves them in rigorous disciplinary and interdisciplinary studies and promotes close and constructive engagement with students with different cultural perspectives While many COIL courses are launched by individual instructors based on their research connections and online outreach they are being increasingly supported and led by dedicated COIL Coordinators who facilitate virtual exchanges and provide professional development This comprehensive guide covers COIL VE pedagogy provides examples of what takes place in the COIL classroom and explores what instructors and staff need to know to facilitate and support a variety of COIL courses across the curriculum It addresses how institutional stakeholders especially those in leadership positions can develop and embed a successful COIL initiative at their institution It offers varied perspectives of COIL viewed from different institutional and cultural vantage points from research universities community and technical colleges and university systems and describes how COIL VE is developing in five different world regions presenting eleven case studies The book concludes with a guide to thirteen global organizations that support COIL and other forms of VE Additionally the book provides links to the COIL Connect for Virtual Exchange website <https://coilconnect.org> which includes an updated directory of organizations an expanding database of faculty and institutions participating in COIL and looking for partners course templates survey data and case studies This book offers faculty and administrators across the world whether formally involved in international education in service learning and community engagement or wanting to incorporate a cross cultural perspective in their disciplinary courses theoretical foundations guidance on effective collaboration and the strategic and pedagogical considerations to develop robust COIL VE courses and programs **Reconfiguring Racial Capitalism** Mingwei Huang, 2024-10-18 In Reconfiguring Racial Capitalism Mingwei Huang traces the development of new forms of racial capitalism in the twenty first century Through fieldwork in one of the China malls that has emerged along Johannesburg s former mining belt Huang identifies everyday

relations of power and difference between Chinese entrepreneurs and African migrant workers in these wholesale shops. These relations, Huang contends, replicate and perpetuate global structures of white supremacy, anti-Blackness, capitalism, and colonialism, even when whiteness is not present. Huang argues that this dynamic reflects the sedimented legacies and continued operation of white supremacy and colonialism, which have been transformed in the shift of capitalism's center of gravity toward China and the Global South. These new forms of racial capitalism and empire layer onto and extend histories of exploitation and racialization in South Africa. Taking a palimpsestic approach, Huang offers tools for understanding this shift and decentering contemporary Western conceptions of race, empire, and racial capitalism in the Chinese Century.

Transformation of the University Søren S.E. Bengtson, Ryan Evely Gildersleeve, 2022-04-25. *Transformation of the University* imagines preferable futures for the university, building hope for the institution's necessary transformation. It transcends old criticisms and presents fresh ideas on how the institution might be conceived, organized, and put into practice while safeguarding that which makes it a university: the pursuit of knowledge. This book is divided into three main parts. Part One, Knowledge, assumes the role of the university in generating knowledge for the benefit of society. Part Two, Cultural Growth, expands on how the university might contribute to and benefit from the cultural growth of society, with both explicit and implicit connections to social and epistemic justice. Part Three, Institutions, focuses on imaginative processes for enacting the university as an institution that meets the unforeseen future challenges facing societies around the world. With contributions from scholars across the world, *Transformation of the University* is an essential read for all academics, practitioners, institutional leaders, and broad social thinkers who are concerned with the future of the university and its contributions to society.

Language Policy and Planning in Universities Anthony J. Liddicoat, 2018-10-18. In a world where higher education is increasingly internationalized, questions of language use and multilingualism are central to the ways in which universities function in teaching, research, and administration. Contemporary universities find themselves in complex linguistic environments that may include national-level language policies, local linguistic diversity, an internationalized student body, increasing international collaboration in research, and increased demand for the use and learning of international languages, especially English. The book presents a critical analysis of how universities are responding to these complexities in different contexts around the world. The contributions show that language issues in universities are complex and often contested as universities try to negotiate the national and the international in their work. In some contexts, universities' language policies and the ways in which they are implemented may have a negative impact on their ways of working. In other contexts, however, universities have embraced multilingualism in ways that have opened up new academic possibilities for staff and students. Collectively, the chapters show that universities' language policy and planning are a work in progress and that much further work is needed for universities to achieve their language goals. This book was originally published as a special issue of *Current Issues in Language Planning*.

Hope for a Good Life Andreas M. Krafft, Pasqualina

Perrig-Chiello, Andreas M. Walker, 2018-05-02 This volume addresses the convincing belief that hope is an existential need and resource for living a good life not only when all is going well but especially in difficult times The findings reported in this volume result from the annual survey of the Hope Barometer Research Program collected during 7 years and conducted in several countries Structured in three parts the first one provides the reader with a general introduction into the topic of hope the theoretical and methodological foundations and major general results of the Hope Barometer Part two presents specific topics related to the levels and variations of hope across different population groups and the relationship of hope with several measures of well being Further part three focuses on comparisons of elements and levels of hope across cultures discussing methods and techniques to improve hope and thus increase overall well being
