Spaces of Madness Eunice Rojas, 2014-12-17 *Spaces of Madness* examines the role of the insane asylum in Argentine prose works published between 1889 and 2011. From a place of existential exile at the turn of the twentieth century to a symbolic representation of Argentine society during and immediately subsequent to the Dirty War, the figure of the asylum in Argentine literature has evolved along with the institution itself. The authors studied in *Spaces of Madness* include Manuel T. Podest, Roberto Arlt, Leopoldo Marechal, Julio Cortázar, Adolfo Bioy Casares, Juan José Saer, Abelardo Castillo, Ricardo Piglia, and Luisa Valenzuela.

Pandemic and Narration: Covid-19 Narratives in Latin America Andrea Espinoza Carvajal, Luis A. Medina Cordova, 2024-07-02 *Pandemic and Narration: Covid-19 Narratives in Latin America* sheds light on how, as Covid-19 spread, infecting and killing millions across the world, life not only continued to be experienced but also continued to be narrated. By putting together this volume, we help understand what happened in the region from a perspective in which, unlike most of what we saw during the health emergency, numbers, statistics, and percentages are not at the centre of the analysis. The essays gathered here foreground something else: the manifold ways Covid-19 was subjectively and collectively narrated in the news, government reports, political speeches, NGO communications, social media, literature, songs, and many other media. From a wide range of disciplinary approaches, the contributors to this edition pay attention to how fictional and non-fictional stories, official discourses, as well as personal and political accounts, documented, represented, and shaped the health crisis, laying bare how in Latin American countries the spread of the virus intersected with corruption, gender-based violence, inequality, and exclusion, as with community solidarity and hope. Readers will find that the focus on narrative provides an alternative source of knowledge on Latin America's Covid-19 experience. Our perspective contrasts with the usual emphasis on death tolls, infection rates, weekly cases, vaccination counts, and the plethora of statistics that illustrated the gravity of the situation in the build-up to, during, and after the peak of the crisis. While extremely important to understand the situation, numbers do not tell the whole story. A comprehensive picture of the pandemic can only be achieved when the stories of the virus are accounted for. Health, after all, is no stranger to narrative. And neither is Latin America.

Literary Landscapes of Time Jobst Welge, Juliane Tauchnitz, 2022-11-07 The volume asks how the literatures of the Americas and the Caribbean present multiple or internally differentiated spaces and how these are distinguished or traversed by different temporalities. The historical and post-colonial experiences of these areas turn them into especially fertile ground

for the exploration of the connections between landscape geography and historical temporal palimpsests as well as the specificities of literary form The contributions are dedicated to individual yet conceptually interconnected studies of staggered multiple non simultaneous temporalities in modern and contemporary literature The volume adopts a comparative perspective throughout and intends to foster the dialogue between the study of Latin American and Caribbean literatures in Spanish Portuguese French and English Therefore the individual essays are not grouped according to geographical or linguistic areas but follow a trajectory from spatiotemporal constellations of the 19th century to ruined catastrophic landscapes and the geopoetic inscriptions of time in regions The essays should appeal to all readers interested in World Literature Hemispheric Studies as well as temporal approaches to space and geography *Red Reckoning* Mark

Boulton,Tobias T. Gibson,2023-11-15 Though it ended more than thirty years ago the Cold War still casts a long shadow over American society *Red Reckoning* examines how the great ideological conflict of the twentieth century transformed the nation and forced Americans to reconsider almost every aspect of their society culture and identity Using an interdisciplinary approach the volume s contributors examine a broad array of topics including the Cold War s impact on national security race relations gun culture and masculinity law college football advertising music film free speech religion and even board games Above all *Red Reckoning* brings a vitally important era back to life for those who lived through it and for students and scholars wishing to understand it **You Shook Me All Campaign Long** Eric T. Kasper,Benjamin S. Schoening,2018-11-15

Madness in Buenos Aires Jonathan Ablard, 2008 Madness in Buenos Aires examines the interactions between psychiatrists patients and their families and the national state in modern Argentina This book offers a fresh interpretation of the Argentine state's relationship to modernity and social change during the twentieth century while also examining the often contentious place of psychiatry in modern Argentina Drawing on a number of previously untapped archival sources author Jonathan Ablard uses the experience of psychiatric patients as a case study of how the Argentine state developed and functioned over the last century and of how Argentines interacted with it Ablard argues that the capacity of the state to provide social services and professional opportunities and to control the populace was often constrained to an extent not previously recognized in scholarly literature These limitations including a shortage of hospitals insufficient budgets and political and economic instability shaped the experiences of patients their families and doctors and also influenced medical and lay ideas about the nature and significance of mental illness Furthermore these experiences and the institutional framework in which they were imbedded had a profound impact on how Argentine psychiatrists discussed not only mental illness but also a host of related themes including immigration poverty and the role of the state in mitigating social problems
