Resources in Education ,1999-04 **Managing the Paralympics** Simon Darcy,Stephen Frawley,Daryl Adair,2017-02-08 This book critically examines the planning management and operations of the world s premier event for Para sport athletes Noting a lack of research into how these games are planned and managed the authors of this contributed volume discuss how the Paralympics are essentially different to the Olympics and what this means for their management Managing the Paralympics explores how the organizers and connected stakeholders effectively organize and deliver the Paralympics taking into account what has been learned from previous events Including emergent models of best practice from event management project management and sport management literature the book gives an insight into the planning of one of the world s biggest sporting events that encompasses ten impairment types and multiple sport classes within sports

Bowker's Complete Video Directory ,2000 **Interdisciplinarity in World History** Ahmed Abushouk,Mahjoob Zweiri,2016-06-22 This book represents selected papers of an international conference convened by the Department of Humanities at Qatar University Doha in March 2013 Its theme was Interdisciplinarity in History An Old Method in New World Context Twelve out of the fifty papers presented at the conference have been thoroughly reviewed revised and compiled in this volume Their contributions emphasize that interdisciplinary in history has become a key term for professional historians who reject the professional identity of history based on its claimed autonomy and the distinctiveness of its research methods and argue that this claim has seriously narrowed the intellectual horizons of the discipline in terms of both teaching and research The chapters also stress that historical research should not be confined to political events as it was by ancient historians but rather be open to other complex issues which require thorough investigation and collaboration between history and other disciplines In this sense interdisciplinarity in history is a process of answering questions solving problems or examining topics that are too broad or multifaceted to be tackled adequately by history as a discipline on its own Therefore history should not be regarded as a stationary subject as Robinson wrote but as a discipline that would transcend the limitations formerly imposed upon the study of the past and integrate with other social science disciplines to widen its methodological scope and investigate many issues that had previously ignored or marginalized **Research in Education**
