Economies of Representation, 1790?2000 Leigh Dale,2017-11-30 Although postcolonialism has emerged as one of the most significant theoretical movements in literary and cultural studies it has paid scant attention to the importance of trade and trade relations to debates about culture Focusing on the past two centuries this volume investigates the links among trade colonialism and forms of representation posing the question What is the historical or modern relationship between economic inequality and imperial patterns of representation and reading Rather than dealing exclusively with a particular industry or type of industry the contributors take up the issue of how various economies have been represented in Aboriginal art in literature by North American Caribbean Portuguese South African First Nations Australian British and Aboriginal authors and in a diverse range of writings that includes travel diaries missionary texts the findings of the Leprosy Investigation Commission early medical accounts and media representations of HIV AIDS Examining trade in commodities as various as illicit drugs liquor bananas tourism adventure fiction and modern Aboriginal art as well as cultural exchanges in politics medicine and literature the essays reflect the widespread origins of the contributors themselves who are based throughout the English speaking world Taken as a whole this book contests the commonplace view promoted by some modern economists that trade in and of itself has a leveling effect equalising cultures places and peoples demonstrating instead the ways in which commerce has created and exacerbated differences in power **International Economics** Thomas Pugel,2006-04-19 This classic text covers all the conventional areas of international economics in an easy to understand manner The 13th edition continues to provide the best blend of events and analysis so that readers can build their abilities to understand global economic developments and to evaluate proposals for changes in economic policies The book is informed by current events and by the latest in applied international research Like earlier editions it also places international economics events within a historical framework The overall treatment continues to be intuitive rather than

mathematical and is strongly oriented towards policy **The Economic Consequences of the Dutch** Christiaan van Bochove, 2008 Between 1550 and 1800 the Northern Netherlands went through a period of intense economic development This did not leave the surrounding regions untouched International trade blossomed tens of thousands of foreign workers found employment in the Netherlands and many millions of guilders were channelled abroad to finance foreign commercial undertakings and government policies This book offers the first systematic analysis of the international impact of Dutch economic development and investigates the economic consequences of Dutch dominance in the areas bordering the North Sea By using a wide variety of sources and literature Christiaan van Bochove describes the international flows of goods people and money focussing attention on the effects on the prices of everyday goods the wages of labourers and interest rates This book shows how by the end of the eighteenth century the development of the Dutch economy had turned the North Sea region into an integrated spatial economy that operated at the frontier of what was technologically and institutionally possible Study Guide to Accompany Krugman/Obstfeld International Economics, Theory and Policy, 8th Edition Linda S. Reflections on the Debate Between Trade and Environment Dr. Yvonne Nana Afua Idun, 2014-01-08 REFLECTIONS ON THE DEBATE BETWEEN TRADE AND ENVIRONMENT A STUDY GUIDE FOR LAW STUDENTS RESEARCHERS AND ACADEMICS This book is intended to provide information for students researchers and academics in the field of international environmental law and the law of international trade It could serve as a simple guide in this regard It discusses the trade and environment debate with relevant case studies and legislation from WTO and EU jurisprudential perspectives The book also pays attention to the relevance of this debate regarding African countries in their implementation of trade and environmental policies within the context of a green economy and how these relate to pertinent environmental issues such as climate change pollution and waste trade The Michigan Journal , 2007 **The Economics Anti-Textbook** Rod Hill, Tony Myatt, 2010-03-11 Mainstream textbooks present economics as an objective science free from value judgements that settles disputes by testing hypotheses that applies a pre determined body of principles and contains policy prescriptions supported by a consensus of professional opinion The Economics Anti Textbook argues that this is a myth one which is not only dangerously misleading but also bland and boring It challenges the mainstream textbooks assumptions arguments models and evidence It puts the controversy and excitement back into economics to reveal a fascinating and a vibrant field of study one which is more an art of persuasion than it is a science The Economics Anti Textbook s chapters parallel the major topics in the typical text beginning with a boiled down account of them before presenting an analysis and critique Drawing on the

work of leading economists the Anti Textbook lays bare the blind spots in the texts and their sins of omission and commission It shows where hidden value judgements are made and when contrary evidence is ignored It shows the claims made without any evidence and the alternative theories that aren't mentioned It shows the importance of power social context and legal framework The Economics Anti Textbook is the students guide to decoding the textbooks and shows how real economics is much more interesting than most economists are willing to let on *International Economics* Thomas A. Lindert, 2000 This text covers all the conventional areas of international economics in an easy to understand manner and this thoroughly revised edition continues to be accessible flexible and interesting to economics and business students alike
