Reckless Fellows Edward Bujak,2015-09-25 The Royal Flying Corps later the Royal Air Force was formed in 1912 and went to war in 1914 where it played a vital role in reconnaissance supporting the British Expeditionary Force as air cavalry and also in combat establishing air superiority over the Imperial German Air Force Edward Bujak here combines the history of the air war including details of strategy tactics technical issues and combat with a social and cultural history The RFC was originally dominated by the landed elite in Lloyd George s phrase from the stateliest houses in England and its pilots were regarded as knights of the air Harlaxton Manor in Lincolnshire seat of landed gentry became their major training base Bujak shows how within the circle of the RFC the class divide and unconscious superiority of Edwardian Britain disappeared absorbed by common purpose technical expertise and by an influx of pilots from Canada Australia New Zealand and South Africa He thus provides an original and unusual take on the air war in World War I combining military social and cultural history

America's Sailors in the Great War Lisle A. Rose,2016-12-31 Honorable Mention 2016 Lyman Awards presented by the North American Society for Oceanic History This book is a thrillingly written story of naval planes boats and submarines during World War I When the U S entered World War I in April

1917 America's sailors were immediately forced to engage in the utterly new realm of anti submarine warfare waged on below and above the seas by a variety of small ships and the new technology of airpower The U S Navy substantially contributed to the safe trans Atlantic passage of a two million man Army that decisively turned the tide of battle on the Western Front even as its battleship division helped the Royal Navy dominate the North Sea Thoroughly professionalized the Navy of 1917 18 laid the foundations for victory at sea twenty five years later *The Lafayette Escadrille* Steven A. Dusch

Jr.,2025-02-04 In 1927 when aviator Charles A Lindbergh flew his famous monoplane in a triumphant tour of the United States the Spirit of St Louis touched down in Wheeling West Virginia for his visit to the Linsly School There Lindbergh laid a wreath at the foot of the Aviator a statue erected by Sallie Maxwell Bennett bearing the likeness of her son Louis Bennett Jr West Virginia s only First World War flying ace Though largely unknown today Bennett was an airpower innovator whose tragically short combat career would have an enduring impact on American flight and on war memorials both at home and abroad In *Balloon Ace The Life of an Early Airpower Visionary* historian Charles Dusch reconstructs Louis Bennett Jr s lost legacy Advocating for a national aviation reserve years before the writings of Billy Mitchell Bennett created a state aerial militia in 1917 complete with supporting airbases and an airplane factory When the US Army refused to accept his unit a frustrated Bennett joined the Royal Air Force to fight on the Western Front destroying nine German balloons and three aircraft in a matter of days before he himself was shot down In the second act of Bennett s story Dusch traces Sallie Bennett s quest to clandestinely recover her son s body Posing as a journalist Sallie traveled to Europe searching the cemeteries on the Western Front and later commissioned twelve memorials to Bennett including a chapel in France the RAF window in Westminster Abbey and the Aviator at Linsly Moved by the vast destruction of the continent she would eventually cross political boundaries to bring much needed publicity to other mothers demands for the US government to repatriate their own fallen loved ones From West Virginia to the Western Front and back again *Balloon Ace* is more than a multifaceted and insightful account of the pioneer aviators who prepared the United States for combat in the first air war it is also a remarkable look at the commemoration culture that spanned the American Civil War to war torn Europe in the early

twentieth century **Airpower in Literature** Kimberly K. Dougherty, 2022-08-08 The first century of airpower has ended yet few critics have addressed the literature that chronicles its human toll *Airpower in Literature Interrogating the Clean War 1915 2015* offers fresh insight into this airpower century by placing literature of five major wars in conversation with the clean war discourse Kimberly Dougherty examines the paradoxical representation of aerial warfare that has allowed extensive airstrikes on cities and civilians while promising a cleaner method of waging war First suggested by early military theorists the notion of a clean air war one that would save lives through its speed and precision proved seductive in the twentieth century and continues to shape the rhetoric of airpower today The air war is perceived as clean the author argues when we see neither the aviator nor the targeted populations in the bombing dynamic Through analysis of fiction poetry drama and journalism from the ruins of World War I to the technologies of post modern war the author identifies counternarratives that make visible both aviators and bombed societies and present aerial warfare that is not clean but messy prolonged and imprecise This exploration encourages readers and writers to approach the next century of airpower with greater wisdom and empathy *History's Greatest Pilots Close Up* David Curnock, 2015-07-15 From the Red Baron in World War I to a U S medevac pilot in Afghanistan in 2012 this volume honors the brave men and women who served as aviators in defense of their countries Each pilot s dramatic biographical profile is accompanied by a fact box that provides the aviator s dates of birth and death country of nationality allegiance and his or her branch or service rank unit important military engagements and service awards Pilot narratives are enhanced with historical photos of the aviators and their aircraft *Eagles Overhead* Matt Dietz, 2023-02-15 US Air Force Forward Air Controllers FACs bridge the gap between air and land power They operate in the grey area of the battlefield serving as an aircrew who flies above the battlefield spots the enemy and relays targeting information to control close air support attacks by other faster aircraft When done well Air Force FACs are the fulcrum for successful employment of air power in support of ground forces Unfortunately FACs in recent times have been shunned by both ground and air forces their mission complicated by inherent difficulty and danger as well as by the vicissitudes of defense budgets technology leadership bureaucracy and doctrine *Eagles Overhead* is the first complete historical survey of the US Air Force FAC program from its origins in World War I to the modern battlefield Matt Dietz examines their role status and performance in every US Air Force air campaign from the Marne in 1918 World War II Korea Vietnam Desert Storm and finally Mosul in 2017 With the remaking of the post Vietnam US military and the impact of those changes on FAC the Air Force began a steady neglect of the FAC mission from Operation Desert Storm through the force reductions after the Soviet Union s collapse and into the post 9 11 wars in Iraq and Afghanistan *Eagles Overhead* asks why FACs have not been heavily used on US battlefields since 2001 despite their warfighting importance Dietz examines the Air Force FAC s theoretical doctrinal institutional and historical frameworks to assess if the nature of air warfare has changed so significantly that the concept and utility of the FAC has been left behind From these examinations *Eagles Overhead* draws

conclusions about the potential future of Air Force FACs **Camera Aloft** Von Hardesty,2015-12-02 Edward Steichen 1879-1973 played a key role in the development of photography in the twentieth century He is well known for his varied career as an artist a celebrated photographer and a museum curator However Steichen is less known for his pivotal role in shaping America's first experiments in aerial photography as a tool for intelligence gathering in what may be called his lost years In **Camera Aloft** Von Hardesty tells how Steichen volunteered in 1917 to serve in the American Expeditionary Forces AEF He rose rapidly in the ranks of the Air Service emerging as Chief of Air Photography during the dramatic final offensives of the war His photo sections were responsible for the rapid processing of aerial images gained through the daily and hazardous sorties over the front and in the enemy rear areas What emerged in the eighteen months of his active service was a new template for modern aerial reconnaissance The aerial camera as with new weapons such as the machine gun the tank and the airplane profoundly transformed modern warfare 1916 Keith Jeffery,2016-01-26 So much of the literature on the First World War centers on the trench warfare of the Western Front and these were essential battlegrounds But the war was in fact truly a global conflict and by focusing on a sequence of events in 1916 across many continents historian Keith Jeffery's magisterial work casts new light on the Great War Starting in January with the end of the catastrophic Gallipoli campaign Jeffery recounts the massive struggle for Verdun over February and March the Easter Rising in Ireland in April dramatic events in Russia in June on the eastern front the familiar story of the war in East Africa where some 200 000 Africans may have died and the November U S presidential race in which Woodrow Wilson was re-elected on a platform of keeping the United States out of the war a position he reversed within five months Incorporating the stories of civilians in all countries both participants in and victims of the war 1916 A Global History is a major addition to the literature and the Great War by a historian at the height of his powers **Faulkner, Aviation, and Modern War** Michael Zeitlin,2021-12-02 Faulkner Aviation and Modern War frames William Faulkner's airplane narratives against major scenes of the early 20th century the Great War the rise of European fascism in the 1920s and 30s the Second World War and the aviation arms race extending from the Wright Flyer in 1903 into the Cold War era Placing biographical accounts of Faulkner's time in the Royal Air Force Canada against analysis of such works as *Soldiers Pay* 1926 *All the Dead Pilots* 1931 *Pylon* 1935 and *A Fable* 1954 this book situates Faulkner's aviation writing within transatlantic historical contexts that have not been sufficiently appreciated in Faulkner's work Michael Zeitlin unpacks a broad selection of Faulkner's novels stories film treatments essays book reviews and letters to outline Faulkner's complex and ambivalent relationship to the ideologies of masculine performance and martial heroism in an age dominated by industrialism and military technology On War and Writing Samuel Hynes,2018-02-27 In our imaginations war is the name we give to the extremes of violence in our lives the dark dividing opposite of the connecting myth which we call love War enacts the great antagonisms of history the agonies of nations but it also offers metaphors for those other antagonisms the private battles of our private lives our conflicts with one another and with the world and with

ourselves Samuel Hynes knows war personally he served as a Marine Corps pilot in the Pacific Theater during World War II receiving the Distinguished Flying Cross He has spent his life balancing two careers pilot and professor of literature Hynes has written a number of major works of literary criticism as well as a war memoir *Flights of Passage* and several books about the World Wars His writing is sharp lucid and has provided some of the most expert detailed and empathetic accounts of a disappearing generation of fighters and writers *On War and Writing* offers for the first time a selection of Hynes's essays and introductions that explore the traditions of war writing from the twentieth century to the present Hynes takes as a given that war itself the battlefield uproar of actual combat is unimaginable for those who weren't there yet we have never been able to turn away from it We want to know what war is really like for a soldier on the Somme a submariner in the Pacific a bomber pilot over Germany a tank commander in the Libyan desert To learn we turn again and again to the memories of those who were there and to the imaginations of those who weren't but are poets or filmmakers or painters who give us a sense of these experiences that we can't possibly know The essays in this book range from the personal Hynes's experience working with documentary master Ken Burns his recollections of his own days as a combat pilot to the critical explorations of the works of writers and artists such as Thomas Hardy E E Cummings and Cecil Day Lewis What we ultimately see in *On War and Writing* is not military history not the plans of generals but the feelings of war as young men expressed them in journals and poems and old men remembered them in later years men like Samuel Hynes
