Stepping Up to the Plate Graham Maddox,2016-10-17 Americans call themselves a democracy but they are not America has redefined democracy to make it conform to the capitalist economy and rule by wealth elites When American leaders say they wish to make the world safe for democracy they really mean that they want the world including Australia to subsume itself into this US project Any process resulting in Australia absorbing more of the United States corporatist political culture will result in the serious erosion of our own democratic ideals Australia should resist this especially at a time when such corporatist politics is losing its legitimation We are better served by our own robust system of democracy

Households Jean-Luc Houle, 2024-10-01 Mobile pastoralist activities occur at different scales across the landscape, including local, regional, and supra-regional scales. Most archaeological studies of mobile pastoralist social organization have focused on the latter two scales via the extant monumental and herding landscapes. Household levels of analysis figure much less in these studies. This volume brings together the work of archaeologists currently engaged in mobile pastoralist household research in different regions of the world to highlight the importance of household studies and the utility of both archaeological and ethnoarchaeological approaches in understanding mobile pastoralist household formation, continuity, and adaptation to environmental, social, economic, and political change. **The Summer Party** Rebecca Heath, 2023-01-05 SIGN
