Essentially the coffee table book from Hell. The Compendium Veribellum will grab your brain like a sopping wet sponge and ruthlessly twist until everything you know has been squeezed out onto the cold hard ground. But in a good way. Being and Ambiguity Brook Ziporyn, 2015-10-28 Being and Ambiguity is a brilliant work of philosophy filled with insights, jokes and topical examples. Professor Ziporyn draws on the works of such Western thinkers as Wittgenstein, Nietzsche, Freud, Sartre and Hegel but develops his main argument from Tiantai school of Chinese Buddhism. This important work introduces Tiantai Buddhism to the reader and demonstrates its relevance to profound philosophical issues. Ziporyn argues that we can make both of the claims below simultaneously. This book is about everything. It contains the answers to all philosophical problems which ever shall exist. This book is all claptrap. It is completely devoid of objective validity of any kind. These claims are not contradictory. Rather they state the same thing in two different ways. To be objective

truth is to be subjective claptrap and vice versa All interchanges of any kind conversations daydreams sensations are not only about something but also about everything Thus this book concerns itself with no less than the nature of what is and what it means for something to be what it is It provides a new approach to the basic Western philosophical and psychological issues of identity determinacy being desire boredom addiction love and truth *Christian Patience, the Strength & Discipline of the Soul* William Bernard Ullathorne,1886 *Christian Patience* abp.
