The Wizard S Son Volume I Illustrated:

The Viking Age Vol.2 (of 2) (Illustrations) Paul B. Du Chaillu, While studying the progress made in the colonisation of different parts of the world by European nations I have often asked myself the following questions How is it that over every region of the globe the spread of the English speaking people and of their language far exceeds that of all the other European nations combined Why is it that wherever the English speaking people have settled or are at this day found even in small numbers they are far more energetic daring adventurous and prosperous and understand the art of self government and of ruling alien peoples far better than other colonising nations Whence do the English speaking communities derive the remarkable energy they possess for the people of Britain when invaded by the Romans did not show any such quality What are the causes which have made the English such a pre eminently seafaring people for without such a characteristic they could not have been the founders of so many states and colonies speaking the English tongue In studying the history of the world we find that all the nations which have risen to high power and widespread dominion have been founded by men endowed with great I may say terrible energy extreme bravery and the love of conquest being the most prominent traits of their character The mighty sword with all its evils has thus far always proved a great engine of civilisation To get a satisfactory answer to the above questions we must go far back and study the history of the race who settled in Britain during and after the Roman occupation We shall thus find why their descendants are to day so brave successful energetic and prosperous in the lands which they have colonised and why they are so pre eminently skilled in the art of self government We find that a long stretch of coast is not sufficient though necessary to make the population of a country a seafaring nation When the Romans invaded Britain the Brits had no fleet to oppose them We do not until a later period meet with that love of the sea which is so characteristically English not before the gradual absorption of the earlier inhabitants by a blue eyed and yellow haired seafaring people who succeeded in planting themselves and their language in the country To the numerous warlike and ocean loving tribes of the North the ancestors of the English speaking people we must look for the transformation that took place in Britain In their descendants we recognise to this day many of the very same traits of character which these old Northmen possessed as will be seen on the perusal of this work Britain after a continuous immigration which lasted several hundred years became the most powerful colony of the Northern tribes several of the chiefs of the latter claiming to own a great part of England in the seventh and eighth centuries At last the time came when the land of the emigrants waxed more powerful more populous than the mother country and asserted her independence and to day the people of England as they look over the broad Atlantic may discern a similar process which is taking place in the New World The impartial mind which rises above the prejudice of nationality must acknowledge that no country will leave a more glorious impress upon the history of the world than England Her work cannot be undone should she to day sink beneath the seas which bathe her shores her record will for ever stand brilliantly illuminated on the page of history The great states

which she has founded which have inherited her tongue and which are destined to play a most important part in the future of civilisation will be witnesses of the mighty work she has accomplished They will look back with pride to the progenitors of their race who lived in the glorious and never to be forgotten countries of the North the birthplace of a new epoch in the history of mankind To be continue in this ebook *The Viking Age Vol.1 (of 2) (Illustrations)* Paul B. Du Chaillu, Example in this ebook CHAPTER I CIVILISATION AND ANTIQUITIES OF THE NORTH A study of the ancient literature and abundant arch ology of the North gives us a true picture of the character and life of the Norse ancestors of the English speaking peoples We can form a satisfactory idea of their religious social political and warlike life We can follow them from their birth to their grave We see the infant exposed to die or water sprinkled and a name bestowed upon it follow the child in his education in his sports the young man in his practice of arms the maiden in her domestic duties and embroidery the adult in his warlike expeditions hear the clash of swords and the songs of the Scald looking on and inciting the warriors to greater deeds of daring or it may be recounting afterwards the glorious death of the hero We listen to the old man giving his advice at the Thing We learn about their dress ornaments implements weapons their expressive names and complicated relationships their dwellings and convivial halls with their primitive or magnificent furniture their temples sacrifices gods and sacred ceremonies their personal appearance even to the hair eyes face and limbs Their festivals betrothal and marriage feasts are open to us We are present at their athletic games preparatory to the stern realities of the life of that period where honour and renown were won on the battle field at the revel and drunken bout behold the dead warrior on his burning ship or on the pyre and surrounded by his weapons horses slaves or fallen companions who are to enter with him into Valhalla look into the death chamber see the mounding and the Arvel or inheritance feast These Norsemen had carriages or chariots as well as horses and the numerous skeletons of this animal in graves or bogs prove it to have been in common use at a very early period Their dress and the splendour of their riding equipment for war the richness of the ornamentation of their weapons of offence and defence are often carefully described Everywhere we see that gold was in the greatest abundance The descriptions of such wealth might seem to be very much exaggerated but as will be seen in the course of this work the antiquities treasured in the museums of the North bear witness to the truthfulness of the records The spade has developed the history of Scandinavia as it has done that of Assyria and Etruria but in addition the Northmen had the Saga and Edda literature to perpetuate their deeds We are the more astonished as we peruse the Eddas and Sagas giving the history of the North and examine the antiquities found in the country for we hear hardly anything about the customs of the people from the Roman writers and our ideas regarding them have been thoroughly vitiated by the earlier Frankish and English chronicles and other monkish writings or by the historians who have taken these records as a trustworthy authority Some writers in order to give more weight to these chronicles and to show the great difference that existed between the invaders and invaded and how superior the latter were to the former paint in a graphic manner without a shadow of authority the contrast

between the two peoples England is described as being at that time a most beautiful country a panegyric which does not apply to fifteen or twenty centuries ago while the country of the aggressor is depicted as one of swamp and forest inhabited by wild and savage men It is forgotten that after a while the people of the country attacked were the same people as those of the North or their descendants who in intelligence civilisation and manly virtues were far superior to the original and effete inhabitants of the shores they invaded To be continue in this ebook The English illustrated magazine [ed. by J. Rudyard Kipling, 2017-08-07 The Jungle Book is a collection of stories. The tales in the book are fables using animals in an anthropomorphic manner to give moral lessons. The verses of The Law of the Jungle for example lay down rules for the safety of individuals, families and communities. Kipling put in them nearly everything he knew or heard or dreamed about the Indian jungle. The best known of them are the three stories revolving around the adventures of an abandoned man cub Mowgli who is raised by wolves in the Indian jungle. The most famous of the other four stories are probably Rikki Tikki Tavi the story of a heroic mongoose and Toomai of the Elephants the tale of a young elephant handler. As with much of Kipling's work each of the stories is preceded by a piece of verse and succeeded by another. Joseph Rudyard Kipling 1865-1936 was an English short story writer, poet and novelist. He wrote tales and poems of British soldiers in India and stories for children. He is regarded as a major innovator in the art of the short story; his children's books are classics of children's literature and one critic described his work as exhibiting a versatile and luminous narrative gift.

Harper's New Monthly Magazine , The Jungle Book - With Illustrations by John Lockwood Kipling & Others Rudyard Kipling, 2018-02-07 The Jungle Book Rudyard Kipling's 1894 collection of short stories first published in magazines between 1893 and 1894.
