The Confidence Effect Grace Killelea, 2016-01-06 In the twenty first century workplace women are encouraged to step up lean in take charge go for it yet how much has actually changed regarding the makeup of leadership when it comes to adding women's voices While it's easy to still blame a corporate culture that favors men seasoned executive Grace Killelea identifies another culprit a surprising disparity in confidence with men typically prone to overestimate their abilities and women too often selling themselves short For real change to take place within the workforce when it comes to adding more women's voices within leadership we must get beyond knowing that we simply have the ability as women to speak out take risks and fill leadership positions we must become more confident that we can do those things with excellence The Confidence Effect moves beyond research statistics and cheerleading and focuses on what's really important how women can become more confident one step at a time While developing the four Rs of Success relationships reputation results and resilience women will learn how best to Build circles of influence Seize opportunities they normally avoid Leverage and promote their skills Cultivate executive presence Bounce back from setbacks And more You've been encouraged to get in the game your entire life yet you remain on the sidelines Why Become more confident in who
