The Teaching Profession Present And Future Springerbriefs In Education:

The Teaching Profession A. Reis Monteiro, 2014-11-03 This volume contributes to debates about the teaching profession by reviewing international and national reports on its status as well as on reforms of various education systems It proposes a global approach to the quality of the teaching profession as a decisive ingredient of education quality including a conception of its identity and a vision of its future Moreover it is suggested that professional self regulation may be the best way to achieve higher professional and social status for teachers since it allows educators collectively to assume the culture of the values that comprise the uniqueness and fullness of the teaching profession

Educational Research and Innovation Pedagogical Knowledge and the Changing Nature of the Teaching Profession OECD, 2017-02-21 Highly qualified and competent teachers are fundamental for equitable and effective education systems Teachers today are facing higher and more complex expectations to help students reach their full potential and become valuable members of 21st century society The nature and variety of these

Teaching Abroad During Initial Teacher Education Benjamin Luke Moorhouse, 2022-07-20 This book explores teaching abroad during initial teacher education an increasingly common practice in the initial preparation of teachers Teaching abroad involves pre service teachers spending a defined period teaching in a foreign country or in an alternative and preferably a distinctly different education system from the one in which they are receiving their initial teacher education The book drawing on relevant literature and the author's first hand experience of developing and leading a teaching abroad project is a concise but comprehensive introduction to the field Important aspects of the initiative such as rationale project designs benefits criticisms and limitations community considerations and future possibilities are included The book is an important starting point for teacher educators interested in developing teaching abroad projects as well as academics and scholars interested in the principles practices and debates around teaching abroad in initial teacher education

Music Education, Ecopolitical Professionalism, and Public Pedagogy Margaret S. Barrett, Heidi M. Westerlund, 2024-01-01 This book challenges the dominant expertise professionalism rationale for music education by responding to the call to develop ecological awareness at a time when all professions have a moral obligation to place sustainable and interdependent life at the center The book aims to expand music education's professional horizons to acknowledge the responsibility of the music field to contribute to the demands of complex questions of sustainability and identify the ways in which sustainable music education may be strengthened through an activist relational ecological stance It suggests a radical moral turn by asking What if music education is recognised as part of the problem of sustaining unsustainability and What if music teacher education was developed in and through dialogue with a futures perspective These questions are interrogated through a critical analysis of the historical positioning of music in education and an interdisciplinary application of theories of ecology and professionalism

Creating the Future? The 1960s New English Universities Ourania Filippakou, Ted Tapper, 2019-01-08 This book examines the developments of the UK Higher Education

system from a time of donnish dominion progressive decline and the increasing role of the market via the introduction of tuition fees It offers a protracted empirical analysis of the seven new English universities of the 1960s the Universities of East Anglia Essex Kent Lancaster Sussex Warwick and York It explores the creation of these universities and investigates how they each responded to a number of centrally imposed initiatives for change in UK higher education that have emerged since their foundation It discusses changes in system governance and how the Higher Education policies it generated have impacted upon a particular segment of the English university model Divided into three parts the book first deals with such topics as the control the University Grants Committee exercised in its heyday and how they initiated the launch of new universities It then examines policy initiatives on governmentcuts on grants research assessment exercises quality assurance procedures and student tuition fees The last part takes a broader approach to change by studying the significance and demise of Mission Groups a changing system of Higher Education and more general changes regarding the state the market and governance

Identity and Teacher Professional Development Maria Antonietta Impedovo, 2021-03-27 This book addressed teachers necessity to be able to respond to the new needs and demands caused by an ever evolving educational system as recognized in the national and international policy and research literature The book proposes an analysis of the features that shape the journey of the teacher profession and professionalism a journey which needs to be collaborative agentive and dialogical Collaborative in changing the personal and professional teacher development from an individual and solitude process toward a joint discovery with mutual enrichment and shared directionality Agentive in the ability to activate internal and external resources for an individual productive and communicative transformation Dialogical in the ability to enrich the personal narrative with the voices of others and opening spaces for dialogue and listening The seven chapters are structured in a way that gives flow and pace to the unfolding story of the developing teacher identity and is informed by a whole range of research and literature This book serves as a reference point for teacher students in service teachers and teacher educators who are interested in their professional development and looking for new perspectives It also offers some helpful insights for administrators who need to make ICT decisions on course development in teacher education

Teachers' Participation in Professional Development Claudia Krille, 2020-01-14 This book presents a systematic literature review focusing on studies examining teachers participation in professional development PD within Germany Austria and Switzerland since 1990 It has identified 81 relevant studies and summarizes the results while answering the following research questions What are teachers self reported reasons participate in formal PD What barriers do teachers report that prevent them to participate in formal PD What individual and context characteristics are associated with teachers PD behavior Teachers PD is considered to be an important part of the teaching profession It is seen as a tool for constant further development for teachers to adapt to changing standards in schools and classrooms requirements for students and personal challenges associated with the daily work in school However it is repeatedly claimed that there is no sufficient research with

regard to teachers participation in formal PD as well as of aspects that may influence their PD behavior In spite of a large number of studies that contribute to this question within Germany Austria and Switzerland only a few of them are cited regularly Since much of this research is published in German the results are not accessible for international researchers and comparisons between different countries This comprehensive review makes these result accessible **Perspectives on the Knowledge Problem in New Zealand Education** Megan Lourie,Graham McPhail,2021-08-06 This book offers new ideas for thinking about how more equitable outcomes might be achieved in New Zealand so that all students are well equipped to live and work in contemporary society It addresses a social justice concern about access to the unique affordances of subject knowledge which comprises two forms of knowledge propositional knowledge that and applied knowledge know how to The book provides perspectives on curriculum design by grounding arguments in a theory of knowledge It describes the different knowledge forms of the theory and argues that understanding these differences is significant for curriculum design and enactment It explains why the current imbalance between knowledge forms is a problem and offers suggestions for change Understanding about knowledge itself enables more just and equitable outcomes for all students This book illustrates how different knowledge types and forms can be used together productively to help students develop adaptive expertise for the 21st century making it a valuable contribution to the field of education Introducing Multidisciplinary Micro-credentialing Chamila Subasinghe,Beena Giridharan,2023-11-10 Introducing Multidisciplinary Micro credentialing establishes a HE industry framework to augment a re skilling and upskilling process where courses could generate adaptable multidisciplinary links and intersections toward self sufficiency **Art History in the Age of Artificial Intelligence** James Hutson,2025-10-11 This book examines how artificial intelligence is transforming museums and art historical research by enhancing visitor inclusivity scholarly innovation and pedagogical practices Chapters explore practical implementations of intelligent technologies addressing accessibility data driven research ethical frameworks administrative leadership and immersive digital learning Combining theoretical insights with case studies and practical guidelines it offers a comprehensive roadmap for responsibly integrating AI across art museums scholarship and education Teaching and Learning with Research Cognitive Theory Noora J.
