On Directing Gabriella

Giannachi, Mary Luckhurst, 1999-09-11 The profession of directing is barely a century old On Directing considers the position of the director in theater and performance today What is a director How do they begin work on a play or performance What methods are used in rehearsal Is the director an enabler a collaborator or dictator As we enter the new millennium is the very concept of directing under increasing threat from changes in thinking and practice The full diversity of today's approaches to directing are explored through a series of interviews with leading contemporary practitioners On Directing is a landmark book about the director's craft

Becoming Earth Anne Reinertsen, 2016-03-22 Becoming earth is about how we can write and tell stories in a way that allows us to collaborate and be stewards and partners of the natural world our earth rather than dominators of it That is what this assemblage is about about trying to take seriously the minor politics of sensing experimenting with questions of attending and attuning to difference contestation nomadism relationality and permeability in sensing cultivating muchness newness communities of acceptance and decision making Going beyond the binaries dualisms instrumentalist criteria etc and supplying third space conceptions of agency not tied to human action alone but rather examining human and more than human relational assemblages of affecting and being affected The tasks for educators becoming not merely people who pass on traditions institutions systems and or structures but prepare for future contingent events ultimately creates vital pedagogies of many prospects in our classrooms and exceeds forms of contracts between generations These are embodied ecologies and or enacting ecologies in practice showing the practical and political strength of new materialisms and presenting its potential and usefulness to simultaneously work and analyse local and global political strategies and sustainability Making virtuality productive as a form of life our wonderings are thus always stronger than our assertions The sometimes fierce stories in this book might light some paths

On the Subject of Drama David

Hornbrook, 2002-01-04 Although much has been written on how the drama elements of the English curriculum might be taught in schools there is less guidance available for teachers who regard drama not as an adjunct of English but as an arts subject in its own right In this volume David Hornbrook and a team of experienced drama specialists show how the subject of drama may be defined and taught Drawing on literature visual art music and dance as well as the rich and varied traditions of drama itself they map out an eclectic subject curriculum for students of all ages Opening up the field in new and exciting ways the book embraces the widest possible range of dramatic knowledge and skills from the Natyashastra of ancient India to contemporary classroom improvisation The book is divided into three sections The teaching and learning of drama ideas about interculturalism creativity and craft key concepts informing the drama curriculum are interrogated and re theorised for the classroom Making and performing drama in school the fundamental processes of reading and writing plays for performance are explored along with the potential of dance to enhance and extend students experience of dramatic performance Watching and understanding drama ensuring the curriculum is appropriately balanced between the production

and reception of drama this last section emphasises the role of students as audience for both live and electronic performances and the development of a dramatic vocabulary *Liveness on Stage* Claudia Georgi, 2014-08-27 Theatre is traditionally considered a live medium but its liveness can no longer simply be taken for granted in view of the increasing mediatisation of the stage Drawing on theories of intermediality *Liveness on Stage* explores how performances that incorporate film or video self reflexively stage and challenge their own liveness by contrasting or approximating live and mediated action To illustrate this the monograph investigates key aspects such as ephemerality co presence unpredictability interaction and realistic representation and highlights their significance for re evaluating received notions of liveness The analysis is based on productions by Gob Squad Forkbeard Fantasy Station House Opera Proto type Theater Tim Etchells and Mary Oliver In their playful approaches these practitioners predominantly present such media combination as a means of cross fertilisation rather than as an antagonism between liveness and mediatisation Combining an original theoretical approach with an in depth analysis of the selected productions this study will appeal to scholars and practitioners of theatre and performance as well as to those researching intermedial phenomena
