Astronomers as Diplomats Thierry Montmerle, Danielle Fauque, 2022-07-08 This book illuminates a few highly significant events in history in which astronomers have helped keep contacts between astronomers of different states in moments of international political tensions or even crises The chapters written by 20 international authors focus on four periods where astronomers were particularly active in international relations 1 The WWI period the epoch of the creation of the IAU in the context of the simultaneous creation of other scientific unions The book also singles out the important role of A S Eddington and his network across forbidden borders 2 The Cold war period and its consequences when several countries were divided between opposite blocs The China crisis is told here from different viewpoints by Chinese astronomers both from the mainland and from Taiwan in parallel with the evolution of astronomy in South and North Korea Germany's twisted path in its membership of the IAU from its admission in 1951 to its reunification in 1991 is shown as another example 3 The book then highlights a third period when radio astronomers in particular were very active in building bridges between East and West It also tells the history of how the apparently innocuous issue of the lunar nomenclature became extremely sensitive The part ends on two chapters on Russian robotic missions and lunar surface features as well on the Russian participation in the International Virtual Observatory project 4 The fourth part reports for the first time on the hidden story of the relations between the IAU and the United Nations after the Moon race when the United Nations decided to challenge the IAU's authority on extraterrestrial names The final chapter reviews how twenty years later UNESCO and the IAU had become strong partners in the difficult but highly successful organization of the International Year of Astronomy 2002 2009 and of the Astronomy and World Heritage initiative 2008

An Early Self Susanne Zepp, 2014-11-19 What role has Jewish intellectual culture played in the development of modern Romance literature Susanne Zepp seeks to answer this question through an examination of five influential early modern texts written between 1499 and 1627 Fernando de Rojas's *La Celestina* Leone Ebreo's *Dialoghi d'amore* the anonymous tale *Lazarillo de Tormes* the first picaresque novel Montaigne's *Essais* and the poetical renditions of the Bible by Jo o Pinto Delgado Forced to straddle two cultures and religions these Iberian conversos Jews who converted to Catholicism prefigured the subjectivity which would come to characterize modernity As New Christians in an intolerant world these thinkers worked within the tensions of their historical context to question norms and dogmas In the past scholars have focused on the Jewish origins of such major figures in literature and philosophy Through close readings of these texts Zepp moves the debate away from the narrow question of the authors' origins to focus on the innovative ways these authors subverted and transcended traditional genres She interprets the changes that took place in various literary genres and works of the period within the broader historical context of the sixteenth and seventeenth centuries demonstrating the extent to which the development of early modern subjective

consciousness and its expression in literary works can be explained in part as a universalization of originally Jewish experiences **The Life and the Art** Keith Carabine, 2022-05-20 The Life and the Art A Study of Conrad's Under Western Eyes has a twofold origin Over the past ten years as an associate editor of the prospective Cambridge Edition of Under Western Eyes the author Keith Carabine has worked on the genesis and composition of the novel in its several versions and on its literary ideological social and historical contexts At the same time during these years he has taught seminar courses on Conrad for undergraduates and on Conrad and Dostoevsky for postgraduates This interpenetration of teaching and research constantly reminded the author that his many hours devoted to textual minutiae and manuscript variations or to a study of Conrad's Polish background should result not only in a scholarly edition of the novel in a book that will demonstrate the ways in which Conrad's life and his protracted uncertain composition of the Under Western Eyes enrich his art and the title of this book deliberately invokes Conrad's belief in the inseparability of the art and the life This study's six chapters concentrate in different ways and with differing emphases on the complex inter relations between the art and the life on the intersections between Conrad's personal preoccupations fictional aesthetic and working practices with regard to what he described as without doubt the most deeply meditated novel that came from under my pen **The Canada Medical Record** ,
