The Unclassed English Edition:

The Unclassed George R. Gissing, 2018-07-11 *The Unclassed* by George Gissing There was strange disorder in Miss Rutherford's schoolroom wont to be the abode of decorum True it was the gathering time after the dinner hour and Miss Rutherford herself was as yet out of sight but things seemed to be going forward of a somewhat more serious kind than a game of romps among the children There were screams and sobbings hysterical cries for help some of the little girls were crowding round an object in one corner of the room others appeared to be getting as far away from it as possible hiding their pale faces in their hands or looking at one another with terrified eyes At length one more thoughtful than the rest sped away out of the room and stood at the bottom of the stairs calling out her teacher's name as loud as she could A moment and Miss Rutherford came hastening down with alarmed aspect begging to be told what was the matter But the summoner had turned and fled at the first sight of the lady's garments Miss Rutherford darted into the schoolroom and at once there was quietness save for half choked sobs here and there and a more ominous kind of moaning from the crowded corner We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

the context of modern spatial studies The book challenges previously biographical and London centric accounts of Gissing's representation of space and place by re-examining seemingly innate contemporaneous geographical demarcations such as the north and the south the city suburb and country Europe and the world and re-reading Gissing's places in the contexts of industrialism ruralism the city in literature and travel writing Through sustained attention to the ambiguities and contradictions rooted in the form and content of his writing the book concludes that ultimately Gissing's novels undermine spatial dichotomies by emphasising and celebrating the incongruity of seeming certainties
