Rineck, Marilee Strong, 2018-07-17 The voice that narrates In the Name of the Children An F B I Agent's Relentless Pursuit of the Nation's Worst Predators which Rineck wrote with the journalist Marilee Strong sounds warm and humane qualities missing from much crime writing Their book is a professional job filled with illuminating details about the day to day operations of the bureau New York Times Book Review FBI Special Agent Jeff Rineck had a gift for getting child predators to confess All he had to do was share a piece of his soul In the Name of the Children gives an unflinching look at what it's like to

fight a never ending battle against an enemy far more insidious than terrorists the predators lurking amongst us who seek to harm our children During his 30 year career with the FBI Jeff Rinek worked hundreds of investigations involving crimes against children from stranger abduction to serial homicide to ritualized sexual abuse Those who do this kind of work are required to plumb the depths of human depravity to see things no one should ever have to see and once seen can never forget There is no more important or more brutal job in law enforcement and few have been more successful than Rinek at solving these sort of cases Most famously Rinek got Cary Stayner to confess to all four of the killings known as the Yosemite Park Murders an accomplishment made more extraordinary by the fact that the FBI nearly pinned the crimes on the wrong suspects Rinek s recounting of the confession and what he learned about Stayner provides perhaps the most revelatory look ever inside the psyche of a serial killer and a privileged glimpse into the art of interrogation In the Name of the Children takes readers into the trenches of real time investigations where every second counts and any wrong decision or overlooked fact can have tragic repercussions Rinek offers an insider s perspective of the actual case agents and street detectives who are the boots on the ground in this war at home By placing us inside the heart and mind of a rigorously honest and remarkably self reflective investigator we will see with our own eyes what it takes and what it costs to try to keep our children safe and to bring to justice those who prey on society s most vulnerable victims With each chapter dedicated to a real case he worked In the Name of the Children also explores the evolution of Rinek as a Special Agent whose unorthodox empathy based approach to interviewing suspects made him extraordinarily successful in obtaining confessions and the toll it took to have such intimate contact with child molesters and murderers Beyond exploring the devastating impact of these unthinkable crimes on the victims and their families this book offers an unprecedented look at how investigators and their loved ones cope while living in the specter of so much suffering

Kalman Stefansson is the winner of the Icelandic Prize for Literature and has been nominated three times for the Nordic Council Prize for Literature Heaven and Hell is a perfectly formed vivid and timeless story lyrical in style and as intense a reading experience as the forces of the Icelandic landscape themselves Der Spiegel said it was like an oyster a glinting treasure in a rough shell In a remote part of Iceland a boy and his friend Barour join a boat to fish for cod A winter storm surprises them out at sea and Barour absorbed in Paradise Lost succumbs to the ferocious cold and dies Distraught from the murky circumstances of Barour s death the boy leaves the village intending to return the book to its original owner The extreme hardship and danger of the journey is of little consequence to him he has already resolved to join his friend in death But once in the town he immerses himself in the stories and lives of its inhabitants and decides that he cannot be with his friend just yet

Rituals of Resistance Jason R. Young,2011-02-11 In Rituals of Resistance Jason R Young explores the religious and ritual practices that linked West Central Africa with the Lowcountry region of Georgia and South Carolina during the era of slavery The choice of these two sites mirrors the historical trajectory of the transatlantic slave trade which for centuries transplanted Kongolese captives to the Lowcountry through the ports of Charleston and Savannah Analyzing the historical exigencies of slavery and the slave trade that sent not only men and women but also cultural meanings signs symbols and patterns across the Atlantic Young argues that religion operated as a central form of resistance against slavery and the ideological underpinnings that supported it Through a series of comparative chapters on Christianity ritual medicine burial practices and transmigration Young details the manner in which Kongolese people along with their contemporaries and their progeny who were enslaved in the Americas utilized religious practices to resist the savagery of the slave trade and slavery itself When slaves acted outside accepted parameters in transmigration spirit possession ritual internment and conjure Young explains they attacked not only the condition of being a slave but also the systems of modernity and scientific rationalism that supported slavery In effect he argues slave spirituality played a crucial role in the resocialization of the slave body and behavior away from the oppressions and brutalities of the master class Young s work expands traditional scholarship on slavery to include both the extensive work done by African historians and current interdisciplinary debates in cultural studies anthropology and literature Drawing on a wide range of primary sources from both American and African archives including slave autobiography folktales and material culture Rituals of Resistance offers readers a nuanced understanding of the cultural and religious connections that linked blacks in Africa with their enslaved contemporaries in the Americas Moreover Young s groundbreaking work gestures toward broader themes and connections using the case of the Kongo and the Lowcountry to articulate the development of a much larger African Atlantic space that connected peoples cultures languages and lives on and across the ocean s waters
