

A Black man with short, dark, curly hair and a light beard is smiling broadly at the camera. He is wearing a dark-colored short-sleeved button-down shirt with a fine, light-colored geometric pattern. A gold chain with a rectangular pendant hangs around his neck. A black name tag is pinned to his left chest. He is also wearing a gold watch on his left wrist and a gold bracelet on his right wrist. The background is a blurred office setting with white shelves.

LeCroy, 2011-10-05 The Call to Social Work is a great supplement to courses such as introduction to social work and social welfare and social work practice. The text provides stories of real social workers with many different backgrounds and is designed to help students to better understand the profession. *Third Party Sex Work and Pimps in the Age of Anti-trafficking* Amber Horning, Anthony Marcus, 2017-01-03 This volume is a compilation of new original qualitative and ethnographic research on pimps and other third party facilitators of commercial sex from the developed and developing world. From African American pimps in the United States and Eastern European migrants in Germany to Brazilian cafet s and cafetinas, this volume features the lives and voices of the men and women who enable diverse and culturally distinct sex markets around the world. In scholarly, popular, and policy-making discourses, such individuals are typically viewed as larger than life hustlers, violent predators, and brutal exploiters. However, there is actually very little empirical research-based knowledge about how pimps and third party facilitators actually live, labor, and make meaning in their everyday lives. Nearly all previous knowledge derives from hearsay and post hoc reporting from ex-sex workers, customers, police, and government agents, neighbors, and self-aggrandizing fictionalized memoirs. This volume is the first published compilation of empirically researched data and analysis about pimps and third parties working in the sex trade across the globe. Situated in an age of highly punitive and ubiquitous global anti-trafficking law, it challenges highly charged public policy stereotypes that conflate pimping and sex trafficking in order to understand the lived experience of pimps and the men and women whose work they facilitate. *Chapters 1-5: The Practice of Generalist Social Work, Third Edition* Julie Birkenmaier, Marla Berg-Weger, Martha P. Dewees, 2014-01-21 This text for generalist practice courses is also available with a treasure trove of related materials for use in a two- or three-course practice sequence. The text helps translate the guiding theoretical perspectives of social justice, human rights, and critical social construction into purposeful social work practice. Six unique cases, specially written for this Series, provide a learning-by-doing framework unavailable from any other social work publisher. Companion readings and many other resources enable this text to be the centerpiece for three semesters of practice teaching. Go to www.routledgesw.com to learn more. This custom edition includes the first five chapters for instructors teaching the first semester of a three-semester generalist practice sequence and is also available in e-book editions in a full range of digital formats. The Changing Landscape of Work and Family in the American Middle Class Elizabeth Rudd, Lara Descartes, 2008-03-14 This collection explores the dynamics of the modern middle-class American family.

and its near constant state of transition The editors introduce the book by situating it within the context of work family and ethnographic research on middle class families in the United States Emerging and established scholars contributed chapters based on their original field research following each chapter with a personal reflection on doing field work The volume concludes with an original essay by Kathryn Dudley an anthropologist who has spent decades studying the intersections of work family and class in American culture As a whole the volume highlights how culture shapes family life amid shifting social and economic landscapes The authors working in the fields of anthropology and sociology observed daily life at workplaces and in homes interviewing people about their work their children and their ideas about what makes a good family They report on their fieldwork in essays rich with the detail of everyday life revealing the fascinating diversity of American middle class families through chapters about gay co father families African American stay at home mothers first time fathers rural refugees from corporate America well off white mothers Taiwanese immigrant churches the fetal ultrasound and more The Changing Landscape of Work and Family in the American Middle Class is an excellent text for classes in anthropology sociology American culture family studies work and family and gender studies **Precarious Work** Arne L.

Kalleberg, Steven P. Vallas, 2017-12-08 This volume presents original theory and research on precarious work in various parts of the world identifying its social political and economic origins its manifestations in the USA Europe Asia and the Global South and its consequences for personal and family life Love and Work Mieke Polderman, 2014-09-01 Is there interaction between love and work If so in what ways does it appear The main incentive for this research is the notable increase of American and Dutch people who wish to spend more and more of their time working and who feel useless and robbed of their identity when separated from their jobs It seems that work is considered more fulfilling and satisfying than love which can be undermined by failing relationships tension depression violence addiction crime or angry and unmanageable children Whereas Proust described love in a milieu where most of the work was done by servants and artists Freud was convinced that love and work were the two main pillars of society This view has been echoed by psychologists sociologists philosophers and novelists However a new phenomenon is that men and women share love and work Finding the right balance between the two is a hot topic in how to books newspaper and magazine articles but the underlying connections have received little if any scrutiny In fact it may well be a mission impossible since as the Frankfurt School asserted the capitalist powers in search of profit urge politicians to lure men women and children onto the work floor by telling them work is a duty that not only will provide disposable income but also happiness and fulfillment in life Hence people internalize this message without asking themselves why continuous consumption is more important than giving and receiving love which they crave but seldom find Although focusing on middle class people between the ages of twenty five and forty who are travelling the highway of life have paid jobs a relationship of at least three years and children this study should be of interest to everyone **Sharing the Work** Myra Strober, 2017-03-31 The tumultuous life and career of a woman who fought gender bias on multiple fronts in

theory and in practice for herself and for us all Myra Strober's *Sharing the Work* is the memoir of a woman who has learned that having it all is only possible by sharing it all from finding a partner who values your work as much as you do to fighting for family friendly policies You will learn that finding allies is crucial blending families after divorce is possible and that there is neither a good time nor a bad time to have children Both women and men will find a friend in these pages Gloria Steinem Myra Strober became a feminist on the Bay Bridge heading toward San Francisco It is 1970 She has just been told by the chairman of Berkeley's economics department that she can never get tenure Driving home afterward wondering if she got something out of the freezer for her family's dinner she realizes the truth she is being denied a regular faculty position because she is a mother Flooded with anger she also finds her life's work to study and fight sexism in the workplace in academia and at home Strober's generous memoir captures the spirit of a revolution lived fully from her Brooklyn childhood and her shock at age twelve when she's banished to the women's balcony at Shul to her groundbreaking Stanford seminar on women and work Strober's interest in women and work began when she saw her mother's frustration at the limitations of her position as a secretary Her consciousness of the unfairness of the usual distribution of household chores came when she unsuccessfully asked her husband for help with housework Later when a group of conservative white male professors sputtered at the idea of government subsidized child care Strober made the case for its economic benefits In the 1970s the term sexual harassment had not yet been coined Occupational segregation quantifying the value of work in the home and the cost of discrimination were new ideas Strober was a pioneer helping to create a new academic field and founding institutions to establish it But she wasn't alone she benefited from the women's movement institutional change and new federal regulations that banned sex discrimination She continues the work today and invites us to join her **Living the work**
