Soundings Water Elemental Elementals Volume 2:

Shifting Selves (Elements, Book 2) Mia Marshall, 2013-04-16 Aidan Brook's world was shattered when she uncovered long buried secrets about her past. Secrets that could cost her sanity or even her life. Now she craves peace and quiet but that's not an option when local children start vanishing. Soon Aidan is drawn deep into the shifter world, a place where elementals like herself are decidedly unwelcome. To track the missing children, these longtime enemies must work together without too many claw marks or too much fur flying. Throw in a stalled romance with an enigmatic shifter and Aidan's life is anything but peaceful. As Aidan and her friends zero in on the kidnapper, they discover Aidan isn't the only one with secrets or the only one who will stop at nothing to keep those secrets hidden. The Oxford Encyclopedia of Children's Literature: Aamu-Duan Jack Zipes, 2006 Children's literature first became a distinct body of writing and publishing in the eighteenth century. Until the seventeenth century, children were usually considered as smaller versions of adults. As the notion of childhood as a distinct part of life emerged, a distinct body of literature emerged as well, designed both to entertain and edify this new class of readers. But for much of its history, books written for children were not seen as worthy of scholarly attention. Recently, this has changed, with everyone from literary critics to psychologists to anthropologists to historians studying this incredibly rich outpouring. The Oxford Encyclopedia of Children's Literature is the first multi-volume set to document and interpret the books read by children in the English-speaking world. It includes brief biographies of every major author and illustrator and features essays on all genres of children's literature, individual works, and prominent trends and themes, as well as general essays on the traditions of children's literature in many countries in the world. Breakwater (the Elemental Series, Book 2) Shannon Mayer, 2015 My name is Larkspur and I am an Elemental. My people use the power of the earth to sustain life and defy our enemies. I should be at my father's side as a royal princess. But as a half-breed bastard child, that isn't going to happen. As an Ender, one of my father's Elite guards, it's my job to do as I'm told. When my older sister is sent as an ambassador to the realm of the water elementals, the Deep, I have no choice but to accompany her as her bodyguard. With the death of the water elemental's King, a deadly battle for the throne begins. A battle we are forced to choose sides in. There are only a few things I know for sure. The ocean may be beautiful, but lurking in its depths are monsters to fear. The water I tread is teeming with danger, and I am on my own. With no one to help and no one to trust, I have to find a way to keep my sister safe and stop a civil war. But the secrets within the Deep are far darker than any of us realized. Welcome, welcome to the Deep. **Water: Tales of Elemental Spirits**, 2003-05 Presents six short stories about the mythical creatures associated with the element of water.
