South African Defence Force Application Forms 2015:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Private Military and Security Contractors Gary Schaub, Jr., Ryan Keltz, 2016-06-16 In *Private Military and Security Contractors*, PMSCs, a multinational team of scholars and experts address a developing phenomenon: controlling the use of privatized force by states in international politics. Robust analyses of the evolving multi-layered tapestry of formal and informal mechanisms of control address the microfoundations of the market, such as the social and role identities of contract employees, their acceptance by military personnel and potential tensions between them. The extent and willingness of key states—South Africa, the United States, Canada, the United Kingdom and Israel—to monitor and enforce discipline to structure their contractual relations with PMSCs on land and at sea is examined, as is the ability of the industry to regulate itself. Also discussed is the nascent international legal regime to reinforce state and industry efforts to encourage effective practices, punish inappropriate behavior and shape the market to minimize the hazards of loosening states' oligopolistic control over the means of legitimate organized violence. The volume presents a theoretically informed synthesis of micro and macro levels of analysis, offering new insights into the challenges of controlling the agents of organized violence used by states for scholars and practitioners alike.

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 *Researching the Military* focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various

chapters is reflexivity a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface By collecting diverse experiences of researchers from across the world this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena This book will be of much interest to students of military studies research methods sociology social anthropology and security studies in general

'Africa Forms the Key' Suryakanthie Chetty, 2021-01-04 This book examines the work of prominent South African geologist Alex Du Toit as a means of understanding the debate around continental drift both in segregation era South Africa and internationally It contextualises Du Toit's work within a particularly formative period of South African science from the paleoanthropological discoveries that sparked debates about the origins of humankind to Jan Smuts' own theory of holism Beyond South African scientific discoveries the book sets Du Toit's work against a backdrop of ideological struggles over space both domestically in terms of segregation and nationalism as well as internationally as South Africa sought to assert its position within the Commonwealth These debates were embodied by Du Toit's work on the theory of continental drift which put Africa and South Africa at the centre geologically and geographically The author also focuses on the divisions in geology caused by drift theory tracing the vigorous intellectual

debate and dissent indicative of the ideological milieu within which scientific thought is constructed It traces the history of continental drift from its inception in the nineteenth century and later work of Alfred Wegener which was both elaborated upon and substantiated by Du Toit The study further focuses on Du Toit's research on continental drift in South African and South America and the geological fossil and climatological evidence used to bolster this theory *Geopolitics and Development* Marcus Power, 2019-01-25 *Geopolitics and Development* examines the historical emergence of development as a form of governmentality from the end of empire to the Cold War and the War on Terror It illustrates the various ways in which the meanings and relations of development as a discourse an apparatus and an aspiration have been geopolitically imagined and enframed The book traces some of the multiple historical associations between development and diplomacy and seeks to underline the centrality of questions of territory security statehood and sovereignty to the pursuit of development along with its enrolment in various bordering practices In making a case for greater attention to the evolving nexus between geopolitics and development and with particular reference to Africa the book explores the historical and contemporary geopolitics of foreign aid the interconnections between development and counterinsurgency the role of the state and social movements in reimagining development the rise of re-emerging donors like China India and Brazil and the growing significance of South-South flows of investment trade and development cooperation Drawing on post-colonial and postdevelopment approaches and on some of the author's own original empirical research this is an essential critical and interdisciplinary analysis of the complex and dynamic political geographies of global development Primarily intended for scholars and post graduate students in development studies human geography African studies and international relations this book provides an engaging invaluable and up to date resource for making sense of the complex entanglement between geopolitics and development past and present

Military Assistance on Request and the Use of Force Erika De Wet, 2020-03-26 In countries such as Syria Iraq South Sudan and Yemen internationally recognized governments embroiled in protracted armed conflicts and with very little control over their territory have requested direct military assistance from other states These requests are often accepted by the other states despite the circumvention of the United Nations Security Council and extensive violation of international humanitarian law and human rights In this book Erika De Wet examines the authority entitled to extend a request for or consent to direct military assistance as well as the type of situations during which such assistance may be requested notably whether it may be requested during a civil war Ultimately De Wet addresses the question of if and to what extent the proliferation of military assistance on the request of a recognized government is changing the rules in international law applying to the use of force *Intra-Africa Migrations* Innocent Moyo, Jussi P. Laine, Christopher Changwe Nshimbi, 2021-02-21 This book discusses regional and continental integration in Africa by examining the management of migration across the continent It examines borders and securitisation of migration and the challenges and opportunities that arise out of reconfigured continental demographics The book offers insights on intra Africa

migrations and highlights how intra continental migration creates socio economic and cultural borders It explores how these borders beyond the physical boundaries of states including the Berlin Conference constructed borders create cultural divides challenges for economic integration and cross border security and irregular migration patterns While the movement of economic goods is valued for regional economic integration the mobility of people is seen as a threat This approach to migration contradicts the intentions of true integration and development and triggers negative responses such as xenophobia that cannot be addressed by simply managing the physical border and allowing free movement This book engages in a pivotal discussion of these issues which are hitherto missing in African border studies by demonstrating the ubiquity and overreaching influence of various kinds of borders on the African continent With multidisciplinary contributions that provide an in depth understanding of intra Africa migrations and strategies for enhanced migration management this book will be a useful resource for scholars and students studying geography politics security studies development studies African studies and sociology

since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general Peacekeeping in Africa Marco Jowell,2018-02-21 In recent decades African states have developed an impressive infrastructure for training their peacekeepers In addition peacekeeping peacebuilding and associated areas of conflict resolution have become significant areas of employment Marco Jowell has spent a decade working in peacekeeping training in East Africa initially as one of the foreign Technical Advisers at the Peace Support Operations PSO training centre in Kenya the International Peace Support Training Centre IPSTC and subsequently as a strategic adviser to the Rwanda Peace Academy Using first hand experience he considers how military forces from a variety of African states with great differences in history language and political systems and with militaries with different cultures and capabilities can conduct complicated multinational peacekeeping operations He shows how regional peacekeeping training centres provide an environment for African elites predominately military to interact with each other through shared training and experiences This process of interaction or socialisation improves skills but also encourages cohesion so that future African led missions will be managed by well trained officers who are comfortable and willing to work within a regional or Pan African framework Jowell shows that part of the aim of peacekeeping training centres is to foster a Pan African outward looking ideology or disposition as well as improving technical ability This book will be essential reading for all involved with African military and security studies and analysts of peacekeeping training and operations **Pathways for Irregular Forces in Southeast Asia** Atsushi Yasutomi,Rosalie Arcala Hall,Saya Kiba,2022-03-30 An exploration of the roles that pro and anti government militias private armed groups vigilantes and gangs play in local communities in the new democracies of Southeast Asia Scholars have typically characterized irregular forces as spoilers and infiltrators in post conflict peacebuilding processes The contributors to this book challenge this conventional understanding of irregular forces in Southeast Asia demonstrating that they often attract solid support from civilians and can be major contributors to the building of local security a process by which local residents in the absence of an effective police force develop partner or are at least included in the management of community crimes and other violence They analyze irregular forces dealings with political actors at the community level explaining why and how forces are incorporated in and collaborate with legitimate institutions without using violence against them Offering a new approach to dealing with irregular forces in Southeast Asia contributors explore new theoretical frameworks that are better suited for evaluating irregular forces relationship to different security providers and the political environments in the region Specifically they examine case studies from Indonesia Timor Leste the Philippines and Thailand A valuable resource for researchers students and practitioners in the

areas of conflict resolution peacebuilding and security governance especially those with a focus on Southeast Asia This book will also be of great interest to scholars of the sociology and anthropology of the region *The Military Balance 2022* The International Institute for Strategic Studies (IISS),2022-02-14 Published each year since 1959 The Military Balance is an indispensable reference to the capabilities of armed forces across the globe It is used by academia the media armed forces the private sector and government It is an open source assessment of the military forces and equipment inventories of 171 countries with accompanying defence economics and procurement data Alongside detailed country data The Military Balance assesses important defence issues by region as well as key global trends such as in defence technology and equipment modernisation This analysis is accompanied by full colour graphics including maps and illustrations With extensive explanatory notes and reference information The Military Balance is as straightforward to use as it is extensive The 2022 edition is accompanied by a fullcolour wall chart illustrating security dynamics in the Arctic *Peace and Conflict 2017* David Backer,Ravinder Bhavnani,Paul Huth,2017-11-08 An authoritative source of information on violent conflicts and peacebuilding processes around the world Peace and Conflict is an annual publication of the University of Maryland s Center for International Development and Conflict Management and the Graduate Institute of International and Development Studies Geneva The contents of the 2017 edition are divided into three sections Global Patterns and Trends provides an overview of recent advances in scholarly research on various aspects of conflict and peace as well as chapters on armed conflict violence against civilians characteristics of rebel and state forces sexual violence democracy and civil war terrorism human rights conditions and the results of the updated Peace Conflict Instability Ledger which ranks the status and progress of more than 160 countries based on their forecasted risk of future instability adverse regime change internal war state mass killing non state mass killing Special Feature spotlights work on the relationship between refugees and the diffusion of armed conflict Profiles surveys developments in instances of civil wars peacekeeping missions and international criminal justice proceedings that were active around the world during 2015 Frequent visualizations of data in full color large format tables graphs and maps bring the analysis to life and amplify crucial developments in real world events and the latest findings in research The contributors include many leading scholars in the field from the US and Europe *The United Nations Security Council and the Authorisation of Force* Marko Svicevic,2025-08-07 This book examines the United Nations Security Council s authorisation of the use of force considering the extensive body of UN Security Council resolutions across its now eighty years of existence As one of the established exceptions to the Article 2 4 UN Charter prohibition on the use of force UN Security Council authorisation of force remains a key focus for both States and scholars alike Despite the apparent consequences of authorisation authorising resolutions lack prescribed formats or mandatory content The UN Security Council has over time however developed a consistent practice of prior explicit authorisation The development of this practice is reflected in a number of essential characteristics within authorising resolutions of the UN Security Council These

include explicit determinations of a threat to international peace and security the invocation of Chapter VII or VIII of the UN Charter the use of specific authorising language the inclusion of time or functional limits on authorisation and the imposition of reporting obligations on those authorised to use force The book ultimately argues that prior explicit authorisation constitutes a well established practice rejecting the legality and admissibility of implicit and retroactive authorisation
