Reconsidering Context in Language Assessment Janna Fox, Natasha Artemeva, 2022-04-06 This volume reconsiders the problem of context in language testing and other modes of assessment from the perspective of transdisciplinarity Transdisciplinary assessment research brings together collaborators who draw on the strengths of their differing backgrounds and expertise in order to address high stakes complex socially relevant problems Traditional treatments of context in language assessment research have generally been informed by individualist cognitive theories within measurement and psychometrics The additive potential of alternative social theories including theories of genre situated learning distributed cognition and intercultural communication has largely been overlooked In this book the benefits of socio theoretical reconsiderations of context are discussed and further exemplified in transdisciplinary research studies that investigate the use of assessment in classroom and workplace settings The book offers a renewed view of context in arguments for the validity of assessment practices and will be of interest to assessment researchers practitioners and students in applied linguistics education educational psychology language testing and other related disciplines and fields

De-Stress at Work Simon L. Dolan, 2023-03-17 Burn out excessive hours office politics handling complaints isolated remote working complex and inefficient processes this book addresses the full complexities of chronic stress at work It explains the potential for emotional and physical illness resulting from work and importantly presents ways in which occupational health and wellbeing can be enhanced through strengthening chronic stress diagnosis and promoting resilience The latter is a win win for the worker for the organization and for society in general Drawing on 40 years of research in collaboration with some of the best known occupational stress gurus including Cary Cooper Susan Jackson the late Ron Burke and Arie Shirom Simon L Dolan translates abstract concepts of chronic stress into practical guidance for enhancing resilience in a VUCA world The ILO and many governments recognize stress as a principal cause of emerging physical and mental disease and one of the strongest determinants of high absenteeism low morale and low productivity While important advances have been made in the diagnosis of acute stress the field of chronic stress in the workplace remains less clear This book seeks to address this by presenting a wealth of diagnostic tools including The Stress Map The text is brought to life for the reader by short vignettes in the form of anecdotes and stories This book will be of particular interest to HR professionals consultants executive coaches therapists and others who wish to help employees and clients better manage their own and others stress and to build resilience that leads to a more productive and healthier workforce

Spatializing Social Media

Marco Bastos, 2021-08-19 Spatializing Social Media charts the theoretical and methodological challenges in analyzing and visualizing social media data mapped to geographic areas It introduces the reader to concepts theories and methods that sit at the crossroads between spatial and social network analysis to unpack the conceptual differences between online and face to face social networks and the nonlinear effects triggered by social activity that overlaps online and offline The book is

divided into four sections with the first accounting for the differences between space the geometrical arrangements that structure and enable forms of interaction and place the mechanisms through which social meanings are attached to physical locations The second section covers the rationale of social network analysis and the ontological differences stating that relationships more than individual and independent attributes are key to understanding of social behavior The third section covers a range of case studies that successfully mapped social media activity to geographically situated areas and considers the inflection of homophilous dependencies across online and offline social networks The fourth and last section of the book explores a range of networks and discusses methods for and approaches to plotting a social network graph onto a map including the purpose built R package Spatial Social Media The book takes a non mathematical approach to social networks and spatial statistics suitable for postgraduate students in sociology psychology and the social sciences **Psychological**

Aspects of Cannabis Use and Cannabis Use Disorder Daniel Feingold,Eva Hoch,Aviv M. Weinstein,Wayne Denis Hall,2022-01-05 Projects, Government, and Public Policy Stanisław Gasik,2022-11-25 Many governments have effectively organized public project implementation systems in their jurisdictions At the same time many other countries remain at a less advanced level of public project management Globally there is a need for project management knowledge to be transferred between governments However no systematic review of these practices has been developed to date Projects Government and Public Policy was written to fulfill this need and presents a review of project management practices in countries with developed project based capabilities This book uses its own rigorous model to present this review systematically This book s practical purpose is to give a structured overview of government level project management practices This knowledge can be used in the work of governments to improve the management of public projects and the implementation of public policies Many professionals working in public institutions understand project management concepts differently than project management professionals Therefore this book begins with a chapter that describes the differences between the conceptual basis of public administration and project management The body of this book has five parts Part I is mainly intended for those involved in government and public administration who want to acquire or increase knowledge about project management Part II provides an overview of the basic concepts from the theory of public administration public policies and development management Part III describes what makes public projects unique and the success factors specific to projects of this sector Knowledge about effective government project management practices is covered in Part IV The concluding Part V begins with a general overview of the maturity model concept Its main part covers the description of a maturity model showing ways to systematically improve the implementation of public projects This book is written for governments and government administrators including the most influential decision makers who craft policies to guide a country s development as well as how to implement projects This book is also intended for supporters and enthusiasts of project management in government and public administration by providing them with a description of the solutions used by project

management in public administration This book is intended too for all project management practitioners working for public projects project managers team members sponsors and middle level executives of project delivering private companies By knowing public administration concepts they can manage their projects better and use a common language with their clients
