The Principles of Alternative Investments Management Ewelina Sokołowska, 2015-06-24 The purpose of this book is to present the principles of alternative investments in management The individual chapters provide a detailed analysis of various classes of alternative investments on the financial market Despite many different definitions of alternative investments it can be assumed that a classical approach to alternative investments includes hedge funds fund of funds FOF managed accounts structured products and private equity venture capital Alternative investment in keeping with this broad definition is the subject of consideration here The theoretical part of each chapter is meant to collect systematize and deepen readers understanding of a given investment category while the practical part of each focuses on an analysis of the current state of development of alternative investments on the global market and outlines the prospects of future market development This book will be a valuable tool for scholars practitioners and policy makers alike

Finance and Occupational Pensions Charles Sutcliffe, 2016-11-25 Occupational pensions are major participants in global financial markets with assets of well over 30 trillion representing more than 40% of the assets of institutional investors Some occupational pension funds control assets of over 400 billion and the largest 300 occupational pension funds each have average assets of over 50 billion The assets of UK pension funds are equivalent to UK GDP and US pension fund assets are 83% of US GDP These statistics highlight the importance of pension

funds as major players in financial markets and the need to understand the behaviour of these large institutional investors Occupational pensions also play an important but neglected role in corporate finance For example US company pension schemes account for over 60% of company market value and yet they are often ignored when analysing companies This book is based on the substantial body of evidence available from around the world on a topic that has become increasingly important and controversial in recent years Written for practitioners students and academics this book brings together and systematizes a very large international literature from financial economists actuaries practitioners professional organizations official documents and reports The underlying focus is the application of the principles of financial economics to occupational pensions including the work of Nobel laureates such as Merton Markowitz Modigliani Miller and Sharpe as well as Black This book will give readers an up to date understanding of occupational pensions the economic issues they face and some suggestions of how these issues can be tackled The first section explains the operation of defined benefit and defined contribution pensions along with some descriptive statistics The second section covers selected aspects of occupational pensions The focus of these first two sections is on the economic and financial aspects of pensions accompanied by some basic information on how they operate This is followed by three further sections that analyse the investment of pension funds the corporate finance implications of firms providing pensions for their employees and annuities

Mercados, Produtos e Valorimetria de Ativos Financeiros - 3a

Edição Abel L. Costa Fernandes, Paulo R. Mota, Carlos F. Alves, Manuel Duarte Rocha, 2018-03-01 Fruto da sua boa aceitação este manual chega agora a sua 3ª edição. Continua a ser um livro diferente da maioria das obras publicadas nas matérias que constituem o seu objecto. Não esquecendo os modelos teóricos com a devida e rigorosa formalização, debruça-se também sobre as características de um bom número de produtos financeiros muito importantes nos dias de hoje incluindo ETFs dando nota de casos reais para efeitos ilustrativos dirigidos a uma melhor compreensão dos mesmos. Além disso inclui matérias não habitualmente consideradas nestas obras mas que os autores consideram importantes para o melhor entendimento dos mercados financeiros tais como a construção e interpretação de índices de cotações e negociações e as ordens e bolsa algumas medidas de stress do mercado monetário entre outros. Os conceitos e instrumentos abordados são sempre acompanhados de exemplos numéricos elucidativos. E por isso um livro que interessa não só a estudantes de licenciatura e de mestrado que se tenham que debruçar sobre estes assuntos mas também a gestores financeiros e outros profissionais.

The British National Bibliography Arthur James Wells, 2006 *Structured Finance and Insurance* Christopher L. Culp, 2011-09-13 Praise for Structured Finance Insurance More and more each year the modern corporation must decide what risks to keep and what risks to shed to remain competitive and to maximize its value for the capital employed. Culp explains the theory and practice of risk transfer through either balance sheet mechanism such as structured finance derivative transactions or insurance. Equity is expensive and risk transfer is expensive. As understanding grows and as a result costs continue to fall ART will continue to replace equity as the means to cushion knowable risks. This book enhances our understanding of ART. Myron S. Scholes, Frank E. Buck, Professor of Finance Emeritus, Graduate School of Business, Stanford University. A must read for everyone offering structured finance as a business and arguably even more valuable to any one expected to pay for such service. Norbert Johanning, Managing Director, DaimlerChrysler Financial Services. Culp's latest book provides a comprehensive account of the most important financing and risk management innovations in both insurance and capital markets. And it does so by fitting these innovative solutions and products into a single unified theory of financial markets that integrates the once largely separate disciplines of insurance and risk management with the current theory and practice of corporate finance. Don Chew, Editor, Journal of Applied Corporate Finance, a Morgan Stanley publication. This exciting book is a comprehensive read on alternative insurance solutions available to corporations. It focuses on the real benefits, economical and practical, of alternatives such as captives, rent a captive and mutuals. An excellent introduction to the very complex field of alternative risk transfer (ART). Paul Wohrmann, PhD, Head of the Center of Excellence ART and member of the Executive Management of Global Corporate in Europe, Zurich Financial Services. Structured Finance and Insurance transcends silos to reach the Enterprise Mountaintop. Culp superbly details integrated captive multiple triggers and capital market products and provides the architectural blueprints for enterprise risk innovation. Paul Wagner, Director Risk Management, AGL Resources Inc. Veterinary Medical Education Jennifer L. Hodgson, Jacquelyn M.
