Liars and Thieves opens as Carmellini is sent to post guard duty at a farmhouse in West Virginia's remote Allegheny Mountains where top government operatives are debriefing a star defector, the ultimate KGB insider, a man with records on every operation and every dirty trick the shadowy intelligence agency has ever run from Lenin to Putin. Carmellini arrives to find the guards shot dead and a ruthless team of commandos, American commandos killing everyone in sight then setting the house on fire. He escapes in a hail of bullets with what seems to be the sole survivor, a stunningly attractive translator who then steals his car, abandoning him after a deadly mountain car chase. But one other person survived the massacre. The man whose fractured memory holds the KGB's most embarrassing secrets, including something for which someone will kill to keep it quiet. Carmellini teams up with his mentor, Admiral Jake Grafton, and together they track down the amnesiac defector. From there the hunt is on as they become the target of a lethal squad of killers who can only be taking direction from someone very close to the president. From a bloody ambush at a posh Virginia estate to assassinations on the decaying streets of inner city Washington to a makeshift safe house at Grafton's Delaware summer home, no place is outside the ruthless conspiracy's reach. Carmellini and Grafton must learn to tell friend from foe as they fight their way through a poisonous wilderness of intrigue all the way to a presidential convention in New York City and to the surprising identity of someone standing on the verge of absolute power who has jeopardized the safety of the entire nation to prevent a dark secret from ever seeing the light of day.

One is a freighter carrying nuclear materials to Japan, the other a cruise ship heading for the Mediterranean. Neither will reach their destinations. Two factions, Japanese eco terrorists and Middle East extremists, have joined forces to infiltrate the ships, incapacitate the crew, and change course toward a common target: The United States of America. In Washington, Charlie Dean and a team of commandos are dispatched on a life or death mission to blow the hijackers' plot out of the water. Their plan: board the ship unnoticed, pose as ordinary passengers, and overtake the terrorists. But time is running out. The seized ships are crossing the Atlantic with the combined strength of a full-scale nuclear torpedo. And New York City is just on the horizon.

Deep Black: Arctic Gold Stephen Coonts, William H. Keith, 2009-02-03 The world's greatest threat lies just beneath the surface, seventh in the *Deep Black* technothriller series from the New York Times bestselling author. In the Arctic, two American intelligence operatives are kidnapped while investigating Russian submarines, a constant covert presence beneath the ice caps. In

Washington ex Marine Charlie Dean and his team at Desk Three trace the abduction back to the Russian mafiya who have their sights set on the massive reserves of oil that lie thousands of feet below the ocean's floor. While Dean is sent to the Arctic to rescue the hostages, the beautiful Lia DeFrancesca penetrates a heavily guarded dacha on the shores of the Black Sea. Here she learns the explosive truth about Russia and its Arctic oil, one that could cost Dean and his Deep Black team their lives and drive the world's superpowers to the brink of war. Praise for Stephen Coonts: Coonts knows how to write and build suspense, a natural storyteller. *The New York Times Book Review*. The master of the techno thriller. *Publishers Weekly*.

Also issued separately. *The Publishers Weekly*, 2006 **Flight of the Intruder** Stephen Coonts, 2006-06-27 A smash bestseller that spent over six months on the New York Times bestseller list. *Flight of the Intruder* became an instant classic. No one before or since ever captured the world of Navy carrier pilots with the gripping realism of Vietnam veteran Stephen Coonts, who lived the life he wrote about. More than a flying story, *Flight of the Intruder* is also one of the best novels ever written about the Vietnam experience. It's all here: the flying, the dying, the blood and bombs and bullets, and the sheer joy and terror of life at full throttle. Gripping. Smashing. *The Wall Street Journal*. Grazing the Vietnam treetops at night at just under the speed of sound. A 6 Intruder pilot Jake Grafton knows exactly how precarious life is. Landing on a heaving aircraft carrier dodging missiles locked on his fighter flying through clouds of flak, he knows each flight could be his last. Yet he straps himself into a cockpit every day. Extraordinary. Tom Clancy. Then a bullet kills his bombardier while they're hitting another suspected truck depot. Jake wonders what his friend died for and why. Hitting pointless targets selected by men piloting desks just doesn't make sense. Maybe it's time to do something worthwhile. Something that will make a difference. Superbly written. *Washington Times*. Jake and his new bombardier, ice-cold Tiger Cole, are going to pick their own target and hit the enemy where it hurts. But to get there and back in one piece is going to take a lot of nerve, even more skill, and an incredible amount of raw courage. Before it's over, they're going to fly into hell.
