story's retelling offers readers an exciting reexamination of just how powerful a united working class can be. The Great Lawrence Textile Strike of 1912, the Bread and Roses Strike, was a public protest by 20,000 to 25,000 immigrant workers from several countries prompted by a wage cut. Backed by skillful neighborhood organizing supported by hundreds of acts of solidarity and unified by a commitment to respect every striker's nationality and language, the walkout spread across the city's densely packed tenements. Defying the assumptions of mill owners and conservative trade unionists alike that largely female and ethnically diverse workers could not be organized, the women activists, as one mill boss described them, were full of lots of cunning and also lots of bad temper. They're everywhere and it's getting worse all the time. Events in Lawrence between January 11 and March 25, 1912, changed labor history. In this volume, the authors tackle the strike story through new lenses and dispel assumptions that the citywide walkout was a spontaneous one led by outside agitators. They also discuss the importance of grasping the significance of events like the 1912 strike and engaging in the process of community remembrance. This book appeals to a wide constituency. Most directly, it is of great relevance to historians of labor, industrialization, immigration, and the development of cities, as well as researchers studying social movements. The story of the Bread and Roses Strike resonates strongly with social justice supporters, the women's movement, advocates for children's well-being, and anti-poverty organizations. Social studies and college-level teachers will find it a rich resource. Graduate-level students will find inspiration for further research. The Bread and Roses strike has excellent name recognition and has always had a considerable international audience.

The Archive Project: Archival Research in the Social Sciences builds on these questions, exploring key methodological ideas and debates and engaging in detail with a wide range of archival projects and practices in order to put to use important theoretical ideas that shed light on the methods involved. Offering an overview of the current state of the field and written by four authors with extensive experience in conducting research in and creating archives around the world, it demonstrates the different ways in which archival methodology, practice, and theory can be employed. It also shows how the ideas and approaches detailed in the book can be put into practice by other researchers working on different kinds of archives and collections. The volume engages with crucial questions including: What is an archive and how does it come into existence? Why do archival research and how is it done? How can sense be made of the scale and scope of

collections and archives What are the best ways to analyse the traces of the past that remain What are helpful criteria for evaluating the knowledge claims produced by archival research What is the importance of community archives How has the digital turn changed the way in which archival research is carried out What role is played by the questions that researchers bring into an archive How do we deal with unexpected encounters in the archive A rigorous and accessible examination of the methods and choices that shape research on the ground and the ways in which theory practice and methodology inform one another this book will appeal to scholars across the social sciences and humanities with interests in archival and documentary research

The Factory Girls Christine Seifert, 2024-05-07

The twentieth century ushered in a new world filled with a dazzling array of consumer goods. Even the poorest immigrant girls could afford a blouse or two. But these same immigrant teens toiled away in factories in appalling working conditions. Their hard work and sacrifice lined the pockets of greedy factory owners who were almost exclusively white men. The tragic Triangle Waist Factory fire in 1911 resulted in the deaths of over a hundred young people, mostly immigrant girls who were locked in the factory. Told from the perspective of six young women who lived the story, this book reminds us why what we buy and how we vote really matter.
