only as it influenced an undeveloped eager girl who had a decidedly religious side to her nature but who was too full of life and spirits to be very seriously interested in any abstract questions outside of her every day duties and fun I cannot trace back my notions to any definite teaching and at the time I did not formulate them but the impressions I retain of those days seem to me now to have had their rise in the general atmosphere that surrounded me It is very likely that my adult relatives and friends had no idea of creating such an atmosphere and if they were alive now would be very much surprised at some of my interpretations But the fact remains that the Quakerism of my young life has left the strong impressions I record and I want to give them as truthfully as I can as part of my own personal history and not at all as an authoritative exposition of Quaker views In tracing back the line of our ancestors we find that they came over from England during the seventeenth century in company with a great body of Quakers who unable to find in their own land that spirit of religious liberty which was a fundamental article of their faith sought an asylum in the new Western world hoping there to found a state where their children might enjoy that freedom to worship God according to the dictates of their own consciences which had been denied to themselves in the old world These Quakers had settled largely in the colonies founded by William Penn in and around Philadelphia on
