This book is approximately 86 000 words The Damned and the Dead Frank Ellis,2011-06-15 The confrontation between the Wehrmacht and the Red Army on the Eastern Front of World War II was defined by incalculable suffering destruction casualties and heroism While many historians have chronicled the epic nature of that arena of war it has largely been left to Russian novelists to fully express the intense human dimensions of that conflict Frank Ellis s groundbreaking study provides the first comprehensive survey of that impressive body of literature Canvassing a wide spectrum of works by Soviet and post Soviet writers many of whom were war veterans themselves Ellis uncovers themes both common to war literature in general and distinctive to the Soviet experience He recalls the earliest works in this genre by Emmanuil Kazakevich Grigorii Baklanov and IUrii Bondarev presents a long overdue assessment of Vasil Bykov s work which focuses on the partisan war in Bykov s native Belorussia and brings into sharp focus the powerful Stalingrad novels of Vasili Grossman Konstantin Simonov Viktor Nekrasov and Bondarev He also provides keen insights into the heroic portraits of Stalin in the fiction of Ivan Stadniuk and Vladimir Bogomolov and examines three important war novels published during the 1990s Viktor Astaf ev s *The Damned and the Dead* Georgii Vladimov s *The General and His Army* and Vladimir But s *Heads Tails* One of the many threads running throughout Ellis s study is the dilemma of the Red Army soldier condemned to serve a regime that was utterly paranoid regarding the allegiances of its own armies so much so that Soviet soldiers often felt as threatened by the Soviet government as they did by the German armies Many of these novels reinforce the now well known fact that Stalin devoted considerable resources to ferreting out soldiers whose actions or inactions suggested disloyalty to his repressive regime A few of them such as Grossman s *Life and Fate* became battlegrounds in their own right pitting Soviet writers against Soviet censors in a struggle over the public memory of the war Russia s memories of World War II are forever tied to the suffering of its people Ellis s rich and revealing work shows us why Christian Reading Companion for 50 Classics James P. due to the Covid 19 pandemic the normal order of everyday life of the rule of law of power itself was interrupted and hence the nomos of this earth was suspended Employing the term herd immunity from vaccination science and global lockdown policy as a guiding theme the book considers two central aspects of the pandemic These are the function of herding and collecting as a definition of ontology after Alain Badiou and the concept of immunity as a suspension of oppositional differences in the work of Roberto Esposito It then considers how herd immunity not only disrupts the nomos but also suspends its significance as a guiding principle of state sanctioned legal norms and perhaps permanently Providing critical readings of masking social distancing compliance vulnerability bubbles immunity breathing anti vaxxers nudge theory cocooning lockdown patient zero and the many other terms that became commonplace between 2020 and 2022 the book traces a suspension of legal and social norms a manipulation of our compliance using false science and a reconfiguring of the social nomos in light of the threats of the virus In a highly original mix of contemporary and post war continental philosophy biopolitical theory set theoretical mathematics extensional logic and the most up to date science in the area it argues that lockdown was not some global biopolitical power grab but actually a weakening of power of nomos This book will appeal to scholars and others in a range of disciplinary areas with interests in the legacy of Covid but especially those working in the areas of continental philosophy contemporary legal theory and biopolitics
