The person's hands are on their hips, and they are looking towards the sunset. The background shows a line of trees and a body of water under a hazy sky.

**Stories, Storytellers, and Storytelling** Tom Vine,Sarah Richards,2022-12-15 This book advances social scientific interest in a field long dominated by the humanities stories and storytelling Stories are a whole lot more than entertainment oral narratives novels films and immersive video games all form part of the sociocultural discourses which we are enmeshed in and use to co construct our beliefs about the world around us Young children use them to learn about the world beyond

their immediate sensory experience and even in an era of interactive electronic media the bedtime story remains a cherished part of most children's daily routine. Storytelling is thus the first abstract formal learning method we encounter as human beings. It is also probably transcultural, perhaps even an immanent part of the human condition. Narratives are at heart sequences of events and presuppose and reinforce particular cause and effect relationships. Inevitably they also construct unconscious biases, prejudices and discriminatory attitudes. Storying, a term we use in this book to encompass stories, storytelling is complex and this book seeks to make sense of it.

Photography, Truth and Reconciliation Melissa Miles, 2020-08-05. Photography, Truth and Reconciliation charts the connections between photography and a crucial issue in contemporary social history. The book examines the prevalence of photography in cultural responses to processes of truth and reconciliation and argues that photographs are a valuable means through which stories can be retold and historiography can be rethought. Five compelling case studies from Argentina, Canada, Australia, South Africa and Cambodia underscore the special role that this medium has played in facilitating processes of recovery and in reconstructing suppressed histories even when a documentary record of the events does not exist. The diverse practices addressed in this book, including artistic protest, institutional, archival, legal and personal photography, prompt a new consideration of photography's links to presence, place, time, spectatorship and justice. Collectively, these practices attest to photography's key role in transitional justice and in shaping historical understanding internationally. Important reading for students taking photography, visual culture, history and media studies courses. Photography, Truth and Reconciliation explores key historical and theoretical themes including photography and testimony, international discourses on human rights and justice and problematic notions of public and collective memory. *Witnessing Australian Stories* Kelly Jean Butler, 2017-07-28 This book is about how Australians have responded to stories about suffering and injustice in Australia presented in a range of public media including literature history films and television Those who have responded are both ordinary and prominent Australians politicians writers and scholars All have sought to come to terms with Australia's history by responding empathetically to stories of its marginalized citizens Drawing upon international scholarship on collective memory public history testimony and witnessing this book represents a cultural history of contemporary Australia It examines the forms of witnessing that dominated Australian public culture at the turn of the millennium Since the late 1980s witnessing has developed in Australia in response to the increasingly audible voices of indigenous peoples migrants and more recently asylum seekers As these voices became public they posed a challenge not only to scholars and politicians but also most importantly to ordinary citizens When former Prime Minister Kevin Rudd delivered his historic apology to Australia's indigenous peoples in February 2008 he performed an act of collective witnessing that affirmed the testimony and experiences of Aboriginal Australians The phenomenon of witnessing became crucial not only to the recognition and reparation of past injustices but to efforts to create a more cosmopolitan Australia in the present This is a vital addition to Transaction's critically acclaimed Memory and Narrative series
