The International Handbook of Research in Medical Education is a review of current research findings and contemporary issues in health sciences education. The orientation is toward research evidence as a basis for informing policy and practice in education. Although most of the research findings have accrued from the study of medical education, the handbook will be useful to teachers and researchers in all health professions and others concerned with professional education. The handbook comprises 33 chapters organized into six sections: Research Traditions; Learning; The Educational Continuum; Instructional Strategies; Assessment; and Implementing the Curriculum. The research orientation of the handbook will make the book an invaluable resource to researchers and scholars and should help practitioners to identify research to place their educational decisions on a sound empirical footing.

THE FIELD OF RESEARCH IN MEDICAL EDUCATION

The discipline of medical education began in North America more than thirty years ago with the founding of the first office in medical education at Buffalo, New York, by George Miller in the early 1960s. Soon after, large offices were established in medical schools in Chicago, University of Illinois, Los Angeles, University of Southern California, and Lansing, Michigan State University. All these first-generation offices mounted master's level programs in medical education, and many of their graduates went on to found offices at other schools.

Remembering What's Important Charles A. Bonnici, 2011-06-16

In *Remembering What's Important: Priorities of School Leadership*, Charles A. Bonnici addresses several issues facing school leaders through strategies supported by real-life examples and anecdotes. The issues addressed include questions such as: What is the most urgent issue faced by a new school leader? How can this leader address the chaos of being both a teacher, trainer, and evaluator? What are the school leader's personal responsibilities for hiring, training, and retaining staff? How does the school leader create a positive learning ambience in a school? How can this leader address the issues created by the physical plant of the building itself? How can a principal treat the difficult waters of the social and political context of the outside world that impacts on the school? How can a school leader insure that the management systems created within a school and the gains in student achievement accomplished are maintained and improved upon after he or she leaves the school?

Textbook of Medical Biochemistry Dinesh Puri, 2010-10-20

The third edition of the book is thoroughly updated and presented in a new two-colour format. The book presents a detailed and authoritative exposition of the basic principles and applications of biochemistry.
