The Washington Navy Yard Black And White:

The Washington Navy Yard (Black and White) Department of the Navy, Edward J. Marolda, 2014-12-15

During much of the 19th and 20th centuries the Washington Navy Yard was the most recognizable symbol of the United States Navy in the nation's capital. The shipyard built a number of the Navy's first warships and repaired, refitted, and provisioned most of the frigates, sloops, and other combatants of the fledgling naval service. The masts and rigging of the USS Constitution were a common sight on the banks of the Anacostia River. Booming cannon became a routine sound in southeast Washington during the mid-19th century as Commander John A. Dahlgren, father of American naval ordnance, test-fired new guns for the fleet. The Naval Gun Factory's fire and smoke-belching blast furnaces, foundries, and mills gave birth to many of the fleet's weapons, from small boat howitzers to the enormous 14-inch and 16-inch rifles that armed the naval railway batteries in World War I and the Iowa-class battleships in World War II. And the Cold War Rear Admiral David W. Taylor inaugurated a new era in ship development when he used scientific measurements in his Experimental Model Basin to test the properties of prototype hulls. Before and after World War I, the pioneers of naval aviation experimented in the Anacostia and navy yard facilities with various seaplane types, shipboard catapults, and other equipment that would soon revolutionize warfare at sea.

Before and after World War I, the pioneers of naval aviation experimented in the Anacostia and navy yard facilities with various seaplane types, shipboard catapults, and other equipment that would soon revolutionize warfare at sea. The Washington Navy Yard has been a witness to history to the evolution of the United States of America from a small republic whose ships were preyed upon by Barbary corsairs and whose capital was burned by an invading British army into a nation of enormous political, economic, and military power and global influence. The Civil War that so dramatically altered American society swirled around and through the Washington Navy Yard. American presidents, first ladies, foreign kings and queens, ambassadors from abroad, legendary naval leaders, national heroes and villains, and millions of citizens have all passed through Latrobe Gate during the

yard's 200 year existence The Washington Navy Yard has also been the workplace for tens of thousands of Americans a familiar landmark in the District of Columbia and a valued member of the Washington community Throughout the 19th and 20th centuries ship riggers hull caulkers iron and bronze smiths joiners millwrights machinists foundrymen boilermakers and tool and die makers skilled workmen and laborers naval officers bluejackets and marines have earned their livings within the walls of the navy yard Numerous Americans white and black male and female have spent their entire working lives at the yard building warships manufacturing guns testing vessel and aircraft models training sailors or administering the needs of American combatants steaming in the distant waters of the world Navy yard workers as many as 26 000 men and women at one point in 1944 contributed to the success of U S arms in the Spanish American War World Wars I and II the Cold War and Operation Desert Storm Yard workers most of them residents of the District Maryland and Virginia over the years have helped local authorities extinguish fires hold back flood waters rescue victims of natural disasters and care for needy members of the surrounding neighborhoods They have helped federal authorities put together national celebrations to mark the end of the country's wars repair the Capitol and other government buildings receive the sacred remains of unknown U S servicemen from overseas stage presidential inaugurations and welcome foreign dignitaries to American soil Above all they have loyally served the United States and the U S Navy This richly illustrated history was written in the bicentennial year to highlight the importance of the Washington Navy Yard and its employees to the nation the Navy and the District of Columbia It touches on the major activities of the facility and on some of the yard's past workers and significant visitors

Black Sailor, White Navy John Darrell Sherwood, 2007-11 John Darrell Sherwood has mined the archives of the U S Navy and conducted scores of interviews with Vietnam veterans both black and white and other military personnel to reveal the full extent of racial unrest in the Navy during the Vietnam War era as well as the Navy's attempts to control it During the second half of the Vietnam War the Navy witnessed some of the worst incidents of racial strife ever experienced by the American military Sherwood introduces us to fierce encounters on American warships and bases ranging from sit down strikes to major race riots in particular the incidents on the USS Kitty Hawk the USS Hassayampa and the USS Constellation Sherwood seeks out the cause of this racial turbulence and asks if the Navy's subsequent reforms led to any resolution

Building the Black City Joe William Trotter, 2024 Building the Black City shows how African Americans built and rebuilt thriving cities for themselves even as their unpaid and underpaid labor enriched the nation's economic political and cultural elites Covering an incredible range of cities from the North to the South the East to the West Joe William Trotter Jr traces the growth of Black cities and political power from the preindustrial era to the present Trotter defines the Black city as a complicated socioeconomic spiritual political and spatial process unfolding time and again as Black communities carved out urban space against the violent backdrop of recurring assaults on their civil and human rights including the right to the city As we illuminate the destructive depths of racial capitalism and how Black people have shaped American culture politics and

democracy Building the Black City reminds us that the case for reparations must also include a profound appreciation for the creativity and productivity of African Americans on their own behalf The Black Diamond ,1916 **Lessons from the Black Working Class** Lori Latrice Martin,Hayward Derrick Horton,Teresa A. Booker,2015-10-21 This book enables readers to better understand explain and predict the future of the nation s overall economic health through its examination of the black working class especially the experiences of black women and black working class residents outside of urban areas How have the experiences of black working class women and men residing in urban suburban and rural settings impacted U S labor relations and the broader American society This book asserts that a comprehensive and critical examination of the black working class can be used to forecast whether economic troubles are on the horizon It documents how the increasing incidence of attacks on unions the dwindling availability of working class jobs and the clamoring by the working class for a minimum wage hike is proof that the atmospheric pressure in America is rising and that efforts to prepare for the approaching financial storm require attention to the individuals and households who are often overlooked the black working class Presenting information of great importance to sociologists political scientists and economists the authors of this work explore the impact of the recent Great Recession on working class African Americans and argue that the intersections of race and class for this particular group uncover the state of equity and justice in America This book will also be of interest to public policymakers as well as students in graduate level courses in the areas of African American studies American society and labor labor relations labor and the Civil Rights Movement and studies on race class and gender Dry Goods Merchants Trade Journal ,1922 **The Black Side of the River** Jessica A. and legacy so essential to the American identity It s also a quest in our age of forever wars to understand whether the United States s interminable conflicts of the current era have a precedent in the Civil War and whether in a sense wars ever end at all or merely wax and wane
