Buddhist Ethics Jay L. Garfield, 2022 *Buddhist Ethics* presents an outline of Buddhist ethical thought It is not a defense of Buddhist approaches to ethics as opposed to any other nor is it a critique of the Western tradition Garfield presents a broad overview of a range of Buddhist approaches to the question of moral philosophy He draws on a variety of thinkers reflecting the great diversity of this 2500 year old tradition in philosophy but also the principles that tie them together In particular he engages with the literature that argues that Buddhist ethics is best understood as a species of virtue ethics and with those who argue that it is best understood as consequentialist Garfield argues that while there are important points of contact with these Western frameworks Buddhist ethics is distinctive and is a kind of moral phenomenology that is concerned with the ways in which we experience ourselves as agents and others as moral fellows With this framework Garfield explores the connections between Buddhist ethics and recent work in moral particularism such as that of Jonathan Dancy as well as the British and Scottish sentimental tradition represented by Hume and Smith

Cuevas,2008-04-02 In *Travels in the Netherworld* Bryan J Cuevas examines a fascinating but little known genre of Tibetan narrative literature about the d lok ordinary men and women who claim to have died traveled through hell and then returned from the afterlife These narratives enjoy audiences ranging from the most sophisticated monastic scholars to pious townsfolk villagers and nomads Their accounts emphasize the universal Buddhist principles of impermanence and worldly suffering the fluctuations of karma and the feasibility of obtaining a favorable rebirth through virtue and merit Providing a clear detailed analysis of four vivid return from death tales including the stories of a Tibetan housewife a lama a young noble woman and a Buddhist monk Cuevas argues that these narratives express ideas about death and the afterlife that held wide currency among all classes of faithful Buddhists in Tibet Relying on a diversity of traditional Tibetan sources Buddhist canonical scriptures scholastic textbooks ritual and meditation manuals and medical treatises in addition to the d lok works themselves Cuevas surveys a broad range of popular Tibetan Buddhist ideas about death and dying He explores beliefs about the vulnerability of the soul and its journey beyond death karmic retribution and the terrors of hell the nature of demons and demonic possession ghosts and reanimated corpses Cuevas argues that these extraordinary accounts exhibit flexibility between social and religious categories that are conventionally polarized and concludes that contrary to the accepted wisdom such rigid divisions as elite and folk monastic and lay religion are not sufficiently representative of traditional Tibetan Buddhism on the ground This study offers innovative perspectives on popular religion in Tibet and fills a gap in an important field of Tibetan literature The Mindful Child Susan Kaiser Greenland,2010-05-04

The Unity of Mystical Traditions Randall Studstill, 2018-08-14 This book argues that mystical doctrines and practices initiate parallel transformative processes in the consciousness of mystics This thesis is supported through a comparative analysis of Tibetan Buddhist Dzogchen rdzogs chen and the medieval German mysticism of Eckhart Suso and Tauler These traditions are interpreted using a system cybernetic model of consciousness This model provides a theoretical framework for assessing the cognitive effects of mystical doctrines and practices and showing how different doctrines and practices may nevertheless initiate common transformative processes This systems approach contributes to current philosophical discourse on mysticism by 1 making possible a precise analysis of the cognitive effects of mystical doctrines and practices and 2 reconciling mystical heterogeneity with the essential unity of mystical traditions
