**Ian McEwan** Irena Książopolska, 2024-04-30 This book offers a discussion of seven canonical novels by Ian McEwan The Cement Garden The Comfort of Strangers The Child in Time The Innocent Black Dogs Atonement On Chesil Beach introducing radical new readings which are offered not as ultimate and conclusive solutions of the textual puzzles but as possibilities to engage with the text creatively to enrich the critical consensus and restore interpretative freedom to the readers This project formulates a strategy of inclusive reading an approach to the text that does not seek to reduce it to a

single interpretation and yet is comprehensively informed through the analysis of the primary text critical discussion authorial comments and the context of the composition Each reading demonstrates the metafictional structure of the texts indicating that McEwan s works may be treated as invitations to roam within their worlds examining the multiple frames of their structure and the meanings generated thereby All the chapters attend to submerged repressed or deliberately masked voices The Cement Garden is seen as a multi layered dream with a shifting hierarchy of dreamers The Comfort of Strangers is viewed as an inverted metafiction with insubstantial characters corrupting more complex heroes The Child in Time is read as Stephen s book written for his dead daughter The Innocent as a memory narrative of Leonard who refuses to notice Maria s role as a spy In Black Dogs the over exposure of unreliability is studied as a screen for personal trauma in the analysis of Atonement Briony s claim to authorship is questioned and Cecilia is suggested as an alternative narrative agent Finally examining On Chesil Beach both characters voices are reconstructed in search of the superior narrative power which in the end is seen to be elusive as the text seeks to undermine the hierarchy of voices

**Sweet tooth** Jeff Lemire,2012 The Novel and the New Ethics Dorothy J. Hale,2020-11-24 For a generation of contemporary Anglo American novelists the question Why write has been answered with a renewed will to believe in the ethical value of literature Dissatisfied with postmodernist parody and pastiche a broad array of novelist critics including J M Coetzee Toni Morrison Zadie Smith Gish Jen Ian McEwan and Jonathan Franzen champion the novel as the literary genre most qualified to illuminate individual

ethical action and decision making within complex and diverse social worlds Key to this contemporary vision of the novel's ethical power is the task of knowing and being responsible to people different from oneself and so thoroughly have contemporary novelists devoted themselves to the ethics of otherness that this ethics frequently sets the terms for plot characterization and theme In *The Novel and the New Ethics* literary critic Dorothy J Hale investigates how the contemporary emphasis on literature's social relevance sparks a new ethical description of the novel's social value that is in fact rooted in the modernist notion of narrative form This new ethics of the contemporary moment has its origin in the new idea of novelistic form that Henry James inaugurated and which was consolidated through the modernist narrative experiments and was developed over the course of the twentieth century In Hale's reading the art of the novel becomes defined with increasing explicitness as an aesthetics of alterity made visible as a formalist ethics In fact it is this commitment to otherness as a narrative act which has conferred on the genre an artistic intensity and richness that extends to the novel's every word

**Multiple Narratives, Versions and Truth in the Contemporary Novel** Nicholas Frangipane, 2019-10-22 Multiple Narratives Versions and Truth in the Contemporary Novel considers the shifting perception of truth in fiction Nicholas Frangipane examines the narrative technique of telling multiple versions of the same sets of events presenting both true and false versions of the events within a fictional work This book looks closely at these Reflexive Double Narratives in order to understand the way many contemporary writers have attempted to work past postmodernism without forgetting its lessons Frangipane explores how writers like Ian McEwan Yann Martel and Alice Munro have departed from the radical experimentation of their predecessors and instead make sincere attempts to find ways that fictional writing can reveal enduring truths and in so doing redefine the meaning of truth itself and signal the emergence of post postmodernism

*Sweet Tooth Vol. 4: Endangered Species* Jeff Lemire, 2012-01-31 Following on the heels of *The Nobody* his Vertigo graphic novel debut writer artist Jeff Lemire pens his very first ongoing series SWEET TOOTH A cross between Bambi and Cormac McCarthy's *The Road* SWEET TOOTH tells the story of Gus a rare new breed of human animal hybrid children has been raised in isolation following an inexplicable pandemic that struck a decade earlier Now with the dWHO oath of his father he's left to fend for himself until he meets a hulking drifter named Jepperd who promises to help him Jepperd and Gus set out on a post apocalyptic journey into the devastated American landscape to find the Preserve a refuge for hybrids Gus reluctantly joins Jepperd on a missing persons hunt but the tension between the two continues to grow Meanwhile Singh and Johnny come face to face with a deadly new threat and Lucy and the girls meet Walter Fish an enigmatic survivor who may have more to offer than meets the eye Will this lead to a new sanctuary for them or something far more dangerous

**Contemporary Fiction, Celebrity Culture, and the Market for Modernism** Carey Mickalites, 2022-01-13 Arguing that contemporary celebrity authors like Zadie Smith Ian McEwan Martin Amis Kazuo Ishiguro Salman Rushdie Eimear McBride and Anna Burns position their work and public personae within a received modernist canon to claim and monetize

its cultural capital in the lucrative market for literary fiction this book also shows how the corporate conditions of marketing and branding have redefined older models of literary influence and innovation It contributes to a growing body of criticism focused on contemporary literature as a field in which the formal and stylistic experimentation that came to define a canon of early 20th century modernism has been renewed contested and revised Other critics have celebrated these renewals variously arguing that contemporary literature picks up on modernism s unfinished aesthetic revolutions in ways that have expanded the imaginative possibilities for fiction and revived questions of literary autonomy in the wake of postmodern nihilism While this is a compelling thesis and one that rightly questions an artificial and problematic periodization that still lingers in academic criticism those approaches generally fail to address the material conditions that structure literary production and the generation of cultural capital whether in the historical development of modernism or its contemporary permutations This book addresses this absence by proposing a materialist history of modernism s afterlives
