1. Read the passage and answer the questions A and B

Coleridge' poem, a ballad, narrates the harrowing sea-voyage of an old mariner who at one point of his journey didn't have any water to drink because of a curse. Cursed or not, we know how important drinking water is in our life. We know we cannot survive without it. In fact two-thirds of our body is made up of water. Not for nothing is it said that the other name of water is life. Is there a crisis in our time with regard to access to clean drinking water? The United Nations on a meeting on the eve of the new millennium identified the drinking water problem as one of the challenges for the future. But do we need to worry about the problem as ours is a land of rivers and we have plenty of rainfall? Besides, we have a sea in our backyard too.

One of the sources of water in our country are the rivers. Rivers are everywhere in our life, literature, economy and culture. But are the rivers in good shape? Unfortunately, they are not. A few are already dead and several are going through the pangs of death. The river Buriganga is an example of a dying river. A report published in the Daily Sun describes what has happened to the river Buriganga and why. It's water is polluted and a perpetual stench fills the air around it. But that is not what it was like before.

The time of adolescence is a period of preparation for adulthood during which one experiences several key developments. Besides physical and sexual maturation, these experiences include movement toward social and economic independence, development of identity, the acquisition of skills needed to carry out adult relationships and roles and the capacity for abstract reasoning. While adolescence is a time, of tremendous growth and potential, it is also a time of considerable risks during which social contexts exert powerful influences. Many adolescents face pressure to use alcohol, cigarettes, or other drugs and to initiate sexual relationships putting themselves at high risk for intentional and unintentional injuries, unintended pregnancies and sexually transmitted infections (STIs) including the human immunodeficiency virus (HIV). An excellent combination of the picturesque natural beauty, sandy beaches, blue sky and the shimmering expanse of water of the Bay of Bengal and the evergreen forest makes Kuakata a much sought after tourist destination.

The name Kuakata takes its origin from the story of a 'Kua'-or well-dug on the se shore by the early Rakhaine settlers for collecting drinking water. The Rakhaines had landed on Kuakata coast after being expelled from Arakan by the Mughals. Following the first well, it became a tradition to dig wells in the neighborhood of Rakhaine homesteads for fresh water supply.
