Rantung,2023-01-24 This is an open access book The Unima International Conference on Social Sciences and Humanity UNICSSH 2022 was conducted on October 11th 13th 2022 at The Grand Kawanua International City Manado North Sulawesi Indonesia In 2022 Universitas Negeri Manado will host the Indonesian National Education Convention KONASPI X Konaspi is a routine activity of the PPTKN which is held once every four years The fourth industrial revolution 4.0 is marked by technological advances and supported by artificial intelligence that creates opportunities and challenges for the education system University and vocational school graduates are facing a world

transformed by technology which in turn is transforming the workplace from task based to human centered characteristics. Certain skills such as critical thinking, emotional intelligence, problem solving, cognitive flexibility and knowledge production are required. To answer this demand, the education system must put revolutionary innovation on its agenda. Scholars, researchers and practitioners are invited to share ideas, research results and best practices about education science and technology now and in the future at an international conference held by Universitas Negeri Manado as part of the Indonesian National Education Convention KONASPI. As part of KONASPI X activities, Universitas Negeri Manado is holding the 2022 International Conference on Education, Social Science and Humanities ICESSHum. The topics in this international conference are Education, Law, Politics and Social Sciences, Economics, Public Administration and Humanities. Through these themes, it is expected to involve many professionals who have indirect roles in related fields. To enrich this event, the committee invites all national and international participants, including academics, researchers, professionals and other relevant stakeholders, to send research papers or review papers to be presented at the conference.

Comparative Perspectives on Inquiry-Based Science Education Bevins, Stuart, Lehané, Louise, Booth, Josephine, 2019-03-15. The core practice of professional scientists is inquiry, often referred to as research. If educators are to prepare students for a role in the professional scientific and technological community, exposing them to inquiry based learning is essential. Despite this, inquiry based teaching and learning (IBTL) remains relatively rare, possibly due to barriers that teachers face in deploying it or to a lack of belief in the teaching community that inquiry based learning is effective. *Comparative Perspectives on Inquiry Based Science Education* examines stories and experiences from members of an international science education project that delivered learning resources based around guided inquiry for students to a wide range of schools in 12 different countries in order to identify key themes that can provide useful insights for student learning, teacher support and policy formulation at

the continental level The book provides case studies across these 12 different settings that enable readers to compare and contrast both practice and policy issues with their own contexts while accessing a cutting edge model of professional development It is designed for educators instructional designers administrators principals researchers policymakers practitioners and students seeking current and relevant research on international education and education strategies for science courses
