George Kararach,Raphael O. Otieno,2016 This volume provides a political economy analysis of leadership and economic management in crises in developing economies based on Zimbabwe s experience [Labour and Economic Change in](#)

[Southern Africa c.1900-2000](#) Rory Pillosof,Andrew Cohen,2021-06-03 This book explores the social and economic development of Zimbabwe Zambia and Malawi over the course of the twentieth century These three countries have long shared and interconnected pasts All three were drawn into the British Empire at a similar time and the formation of the ill fated Federation of Rhodesia and Nyasaland formally linked these countries together for a decade in the mid twentieth century This formal political relationship created dynamics that resulted in yet closer economic and social links After Federation the economic realities of industry transport and labour supplies meant that these three countries continued to be intricately interconnected Yet despite these connected pasts comparative work on the economic histories of Malawi Zambia and Zimbabwe and how these change over time is rare This book addresses the gap by providing the first comprehensive collection of labour and census data across the twentieth century for these three countries The different economic models and performances of these states offer good comparison allowing researchers to look at different models of development and how these played out over the long term The book provides data on population growth and change industrial and occupational structure and the various shifts in what the economically active population did It will be useful for historians economists development studies scholars and non governmental organisations working on twentieth century and contemporary southern Africa *Zimbabwe's International Relations* Julia Gallagher,2017-06-29 Zimbabwe is a state that

has undergone significant ruptures in its domestic and international politics in recent years This book explores how Zimbabwean citizens have under difficult circumstances reconstructed ideas of their state by imagining the wider world Unlike other work on international relations which tends to focus on the state level this book is based on the accounts of ordinary people Drawing on interviews with more than two hundred Zimbabweans collected over three years Gallagher explores how citizens draw on emotional responses to the international to find and construct different others While this unique and compelling read will appeal to those researching Zimbabwe Gallagher s wider conclusions will interest those studying and advancing the broader theoretical debates of international relations *'Progress' in Zimbabwe?* David

Moore,Norma Kriger,Brian Raftopoulos,2013-09-13 Zimbabwe s severe crisis and a possible way out of it with a transitional government and the new era for which it prepares the ground demands a coherent scholarly response Progress can be employed as an organising theme across many disciplinary approaches to Zimbabwe s societal devastation At wider levels too

the concept of progress is fitting It underpins modern liberal and radical perspectives of development pervading the social sciences and humanities Yet perceptions of progress are subject increasingly to intensive critical inquiry Their gruesome end is signified in the political projects of Robert Mugabe and ZANU PF John Gray s *Black Mass Apocalyptic Religion and the Death of Utopia* indicates this It is expected that participants will engage directly in debates about how the idea of progress has informed their disciplines from political science and history to labour and agrarian studies and then relate these arguments to the Zimbabwean case in general and their research in particular This book was published as a special issue of the *Journal of Contemporary African Studies* **Zimbabwe's Military: Examining its Veto Power in the Transition to Democracy, 2008-2013** Rupiya, Martin R.,2013-10-14

Political transition and democratisation challenges have been noted in African countries including Angola Burkina Faso Kenya Mali and the Democratic Republic of the Congo resulting in the African Union AU intervening on behalf of citizens using tried and tested mechanisms of imposing a power sharing agreement to preside over a transitional period during which there are key changes to the constitution and the political conduct of the incumbency and partisan institutions are weaned from seeking to perpetuate the status quo This book focuses on Zimbabwe s military and its perceived veto power in the transition to democratisation from 2008 until 2013 The objective was to analyse monitor and comment on the unique democratic transformational challenges faced by Zimbabwe s

Government of National Unity One of the book s key findings is that every time partisan forces carry out an operation in the name of a political party there is a direct correlation in which the same loses its national character This is the context of the challenge facing Zimbabwean forces when used for partisan gain and why the Southern African Development Community SADC in its last communique in Maputo on 15 June 2013 sought to compel a written undertaking from the generals that they would desist from playing a direct role in the politics of the country The AU had earlier expressed its deep regret when faced with the results of serious human rights abuses that were committed with impunity *Education in Southern Africa* Clive

Harber,2013-09-12 *Education in Southern Africa* is a comprehensive critical reference guide to education in the region With chapters written by an international team of leading regional education experts the book explores the education systems of each country in the region With chapters covering Botswana Lesotho Madagascar Mozambique Namibia South Africa Swaziland and Zimbabwe the book critically examines the development of education provision in each country as well as local and global contexts Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets this handbook will be an essential reference for researchers scholars international agencies and policy makers at all levels Kanyenze: Zimbabwe: The Link Between Politics and ,2023-03-20

In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far reaching analysis of the socio economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence Kanyenze describes the various phases of the socio economic development starting with

1980 when the people of Zimbabwe saw their hard won independence and new democracy as a promise for a **Regime, Religion and the Consolidation of Zanu-PFism in Zimbabwe** Bekithemba Dube, 2023-12-14 This collection focuses on the role of religious leaders and religious institutions in supporting or resisting the democratization process in Zimbabwe It scrutinizes the actions of religious leaders such as Andrew Wutawunashe and Jeremiah Mutendi who were prominent in the political scene and participated as enablers of the undemocratic regime The contributors to this volume employ a variety of methodological approaches to understand the operational dilemma of the second republic under Emmerson Dambudzo Mnangagwa commonly referred to as Zanu-PF It is an empirical study to determine the impact of religious leaders as regime enablers and assess the effects of such an approach in terms of social development democracy and social transformation as espoused in the rise of the second republic In order to balance the narrative the book highlights and offers critique of religious leaders and institutes who are the resisters of the regime It specifically explores the Zimbabwe Catholic Bishops Conference Evangelical Fellowship of Zimbabwe Zimbabwe Council of Churches Talent Chiwenga and Shingi Munyeza This is a critical study of decoloniality in a religious context that documents characters such as Shingi Mayeza Bishop Mutendi Mapostori who seldomly appear in scholarship despite their great impact either positive or negative on the lives of the people of Zimbabwe Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes **Zimbabwe: Mired in Transition** Masunungure, Eldred V., Shumba, Jabusile M., 2014-04-03 Three years after the advent of Zimbabwe's Inclusive Government in February 2009 the country still awaits the elections that people hope will lead to a more enduring political settlement Zimbabwe Mired in Transition reviews the experience of recent years assesses the progress that has been made What is the public mood and how has it changed What steps have been taken to reform the media How important is a new constitution Although the economy has stabilised to some

extent with the adoption of a multi currency regime industrial and agricultural production are depressed and investment inflows are limited what spaces exist for fiscal reform Are local authority structures and the state bureaucracy equipped to handle the tasks that will be asked of them In terms of two important areas the book extends its analysis further back than 2009 First is the issue of emigration Estimates of the number of Zimbabweans in the diaspora range from three to four million what impact is this having on national development and to what extent might the trend of migration be reversed The second concerns young people the chapter on which concludes We already have a lost generation those who were once called the born frees Unless positive changes are made we will still have another This collection of eleven essays examines in detail some of the pressing questions which Zimbabweans must ask as they chart a way forward *The European Union, the World Bank and the Policymaking of Aid* Eugenia Baroncelli, 2019-01-03 Based on the experience of the author an IPE scholar and former trade policy consultant at the World Bank WB the book offers an in depth exploration of the EU WB relations conceptualized as hybrid delegation Coupling cross time analyses of their interaction in the regions of the Middle East and North Africa Europe and Central Asia and Sub Saharan Africa with an original investigation on the coordination among the EU member states at the Executive Board of the International Bank for Reconstruction and Development over the voice and participation reform of 2008 2010 the book advances an innovative theoretical framework to assess the EU WB joint institutional and field policy performances Augmented PA models of delegation role theory and performance analyses are engaged and selectively recombined to investigate the nature evolution and impact of the interactions of the two organizations both in their everyday and constituent politics Hybrid delegation in motion is reconstructed against the background of post Washington Consensus and post Lisbon EU to unveil the changing division of labour between the two largest development multilaterals of the new global context The book will be of interest to scholars students and practitioners in European Politics Development International Relations International Political Economy and Global Economic Governance

Digital Public Relations and Marketing Communication Trends in Africa Anne W. Njathi, Brandi Watkins, 2024-06-07 The uptake of digital media platforms necessitates the need to understand how digital cultures of consumers and brands are unfolding Despite the increase in usage and adoption of the internet in Africa there is limited information about digital marketing trends on the continent This book is among the first to present an edited collection of chapters on digital and influencer marketing authored by many who are either from or have close ties to Africa This book showcases digital marketing trends in Africa that are burgeoning at the same speed as the uptake of technology in the continent With this in mind the contributors seek to interrogate digital marketing trends in two stages the status of digital marketing on the African continent including cases from Nigeria Egypt Uganda and Kenya and an analysis of the rise of influencer marketing including cases from Nigeria and Uganda This book will explore factors driving the increase in digital media platforms in Africa as well as an analysis of the implications of the growth in digital marketing using various theoretical and methodological

underpinnings to probe trends Digital Public Relations and Marketing Communication Trends in Africa provides significant implications for marketing scholars and researchers and will be relevant to those looking to understand the opportunities and challenges ahead

Uncovering African Agency Lucy Corkin, 2016-02-17 China's engagement in Africa is generally portrayed simply as African countries being exploited for their mineral wealth by a wealthy political and economic superpower Is this always the case Certain African countries have been able to use China's involvement in the region to grow their economies and solicit renewed interest from previously disengaged foreign powers by using their relationship with China to bolster their political capital In this thought provoking and original work Lucy Corkin demonstrates how Angola has been amongst the most successful of African nations in this role The concept of African agency covers a wide range of different countries with very different capabilities and experiences of engaging with China In each individual country there are a myriad of actors all with increasingly discernible agencies Uncovering African Agency Angola's Management of China's Credit Lines casts a fascinating new light on China's involvement with her largest African trading partner and through this shows how different African states and the governmental actors within them are able to exploit the relationship to their best advantage

Urban Informality in South Africa and Zimbabwe Innocent Moyo, Trynos Gumbo, 2021-01-09 This book adds to the research of urban informality in the Global South with a specific focus on South Africa and Zimbabwe It addresses the agency and the potential transformative capacity of the phenomenon of urban informality in connection with Southern African cities and towns It adopts a political economy approach to analyse the evolution of informality in cities and its implications for urban planning It brings to bear how the South African and Zimbabwean historical and or ideological and contemporary political and economic trajectories have impacted on the ever changing nature of urban informality both spatially and structurally and or compositionally thus resulting in unique urban materialities which are aspects that have scarcely been studied or discussed in the extant literature This book therefore seeks to close the academic gap by dealing with the dearth of literature on spatial re locational discourses of urban informality The work positions urban informality as a resilient force with potency in terms of political mobilisation and re shaping urban spaces Though these are fundamental issues they have received comparatively little attention especially in literature that focuses on the Southern African region Accordingly undergraduate and post graduate students as well as academics in the fields of Urban Geography Political Science Development Studies Sociology Town and Regional Planning among others will find the range of topics and depth of coverage in this book particularly valuable Similarly practitioners and activists on issues of urban informality and urban governance will find the book very useful

Peri-Urban Developments and Processes in Africa with Special Reference to Zimbabwe Innocent Chirisa, Elias Mazhindu, Elmond Bandaiko, 2016-05-23 This book focuses on peri urban development processes in Africa with special emphasis on Zimbabwe The debates included highlight a number of issues in the peri urban context such as access to water appropriate technologies and land management political economy in the peri

urban space peri urban agriculture and place marketing in peri urban development among others The debates raised by the authors in this book revolve around locating the peri urban space within the context of sustainability in which key issues are addressed The book essentially examines peri urban development processes from various angles in an effort to understand how peri urban areas develop function and how their residents survive Peri urban dwellers currently face numerous challenges including land tenure insecurity poor infrastructure and services land use conflicts stringent planning law and land use planning regulations This work seeks to address the knowledge gap on peri urban development processes in Africa and is also intended to inform urban policy practice in the African Cities and beyond Offering policy makers valuable insights on the peri urban space it provides guidance for decision making in the contexts of service delivery land management housing new town development and place marketing among others

The Sustainability Ethic in the Management of the Physical, Infrastructural and Natural Resources of Zimbabwe Chirisa, Innocent, 2019-05-27 Humanity has extensively exploited natural and physical resources since the Industrial Revolution in Europe A geological era now called the Anthropocene has been coined in environmental and developmental circles to mark the increased domination of humanity on Earth and its resources Today the ecological footprint on the fragile planet continues to increase Mass industrialisation like what China is doing and pushing for is one of the drivers for increased urbanisation that results in increased demand for land It is also the stimulus behind increased deforestation overfishing and pollution As the fragility of the Earth increases global bodies like the Intergovernmental Panel on Climate Change are pushing to reduce the Earth's temperature Human efforts to manage the problem cascade from a global to a regional to a national as well as to much localised scales Missing though are nuanced contributions at national and community levels which this book is an attempt to bridge The nagging sense of responsibility is what this book explores under the label of sustainability ethic As a case study the book examines the use of sustainability ethic in the management of the physical infrastructural and natural resources of Zimbabwe This ethic is built on pillars that include participation of people households in their pursuit for sustainable livelihoods appropriate technology tools and techniques for environmental protection It also hinges on stewardship and structures institutions policies and processes of governance and sustainability There are also the aspects of ethics laws and indigenous technical knowledge for sustainability capacity building and education plans and programmes for sustainability and population and demographic determinants processes and outcomes for sustainability The book is a timely contribution to an urgent global concern and climate change debate

State Capacity, Economic Control, and Authoritarian Elections Merete Seeberg, 2018-03-09 Although the phenomenon of authoritarian elections has been a focal point for the literature on authoritarian institutions for more than a decade our understanding of the effect of authoritarian elections is still limited Combining evidence from cross national studies with studies on selected cases relying on recent field work this book suggests a solution to the paradox of authoritarian elections Rather than focusing on authoritarian elections as a uniform phenomenon it focuses on the differing

conditions under which authoritarian elections occur It demonstrates that the capacities available to authoritarian rulers shape the effect of elections and high levels of state capacity and control over the economy increase the probability that authoritarian multi party elections will stabilize the regime Where these capacities are limited the regime is more likely to succumb in the face of elections The findings imply that although multi party competition and state strength may be important prerequisites for democracy they can under some circumstances obstruct democratization by preventing the demise of dictatorships This text will be of key interest to scholars students and practitioners of democratization and to those who study autocracy and electoral authoritarianism as well as comparative politics more broadly

Innovation, Regional Integration, and Development in Africa Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

The State of Food Insecurity in Harare, Zimbabwe Tawodzera, Godfrey, Zanamwe, Lazarus, 2016-10-17 Harare is at the epicentre of the economic meltdown and political crisis that has devastated Zimbabwe over the last decade and led to a mass exodus from the country Those who remained in Zimbabwe s largest city and capital endured unprecedented hardship as the formal economy collapsed unemployment soared and poverty deepened Household surveys conducted in Harare with official sanction between 2003 and 2009 appear to demonstrate that food insecurity was not a particularly serious problem a conclusion sharply at odds with reality In 2008 at the height of the crisis AFSUN therefore implemented its own baseline food

security survey in Harare using a well tested and reliable methodology This paper presents and discusses the results of that survey and shows that Harare had become the most food insecure city in the SADC region by 2008 Levels of food insecurity were extraordinarily high as poor households struggled to find the income to purchase what little food was available in the shops and informal markets The paper demonstrates that participation in the informal food economy was the major response to the crisis providing poor households with a modicum of food and income Urban agriculture for home consumption also grew in importance as a crisis response While the political and economic situation in Zimbabwe has stabilised somewhat since 2008 the long term impact of many years of enforced food insecurity on the city population is incalculable This paper concludes with the recommendation that ongoing monitoring of the urban food security situation in Harare is essential in order to begin to develop national and municipal policies that could ensure a food secure future for the city
