School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry based learning which signals a definite paradigm shift from the traditional teacher dominated to a learner centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work and professional development in teaching practical work. This book will be of great interest to academics, researchers and post graduate students in the fields of science education and educational policy.

Pedagogics, Curriculum Transformation, and the Future of Teachers' Colleges in Zimbabwe

Costain Tandi, Munyaradzi Mawere, Wilson Zivave, Rosina Mavunga, 2025-06-12 This pioneering volume explores Zimbabwe's evolving educational landscape and offers crucial insights into the future of teacher training. Authored by leading education experts, it examines the core concepts of curriculum innovation and modularization, highlighting their vital role in transforming teaching practices and improving student learning outcomes in Zimbabwean Teacher Colleges. By directly addressing the ongoing curriculum transformation, the book analyses its strengths, weaknesses, challenges, and opportunities, providing a visionary path for the future of teacher education in Zimbabwe. Drawing on rigorous research and practical examples, it underscores the need to adapt teaching methods to the evolving educational demands of a rapidly changing Zimbabwean society. Championing the power of modularization, this resource is an essential guide for all committed to building a more inclusive and transformative education system.

Regime and Education in Zimbabwe

Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe. It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers, poor salaries, student activism, minority languages and curriculum innovations. This volume argues that the regime has used education as a tool for repression. Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda. Consequently, this has resulted in a nation in crisis marked with high turnover, poor economy and mass exodus of teachers and learners. The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy.

Handbook of Research on Inequities in Online Education During Global Crises Kyei-Blankson, Lydia, Blankson, Joseph, Ntuli, Esther, 2021-05-07 In response to the COVID 19 pandemic, many educational institutions

implemented social distancing interventions such as initiating closure developing plans for employees to work remotely and transitioning teaching and learning from face to face classrooms to online environments The abrupt switch to online teaching and learning for the most part has been a massive change for administration faculty and students at traditional brick and mortar universities and colleges as concerns regarding the pedagogical soundness of this mode of delivery remain among some stakeholders Not only that but the switch has also revealed the inequities in the system when it comes to the types of students universities serve It is important as institutions move forward with online instruction that consideration be made about all students and what policies and strategies need to be put into place to help support and meet the needs of all constituents now or when unprecedented situations arise The only way this can be done is by documenting the experiences through the eyes of faculty who were at the frontline of providing instruction and advising services to students The Handbook of Research on Inequities in Online Education During Global Crises brings to light the struggles faculty and students faced as they were required to switch to online education during the global COVID 19 health crisis This crisis has revealed inequities in the educational system as well as the specific effects of inequities when it comes to learning online and the chapters in this book provide information to help institutions be better prepared for online education or remote learning in the future While highlighting topics such as new educational trends remote instruction diversity in education and teaching and learning in a pandemic this book is ideal for in service and preservice teachers administrators teacher educators practitioners stakeholders researchers academicians and students interested in the inequalities within the educational systems and the new policies and strategies put in place with online education to combat these issues and support the needs of all diverse student populations *Report of the Presidential Commission of Inquiry Into Education and Training Zimbabwe.*
