Rethinking Educational Transformation in Zimbabwe Shizha, Edward,2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of independence the education system in Zimbabwe has taken a tumble that needs both examining and rectifying

This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980. The book is targeted at academics, scholars, college and university students, policy makers and other stakeholders and advocates a multi-pronged approach that must involve all stakeholders if educational retransformation, reconstruction and restoration are to be achieved. The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe.

Ancient and Indigenous Wisdom Traditions in African and Euro-Asian Contexts Ehaab Abdou, Theodore Zervas, 2024-08-01. This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures, histories and wisdom traditions. With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures, it includes unique contributions from scholars studying these questions in various contexts. The book offers a range of important studies from key African and Euro-Asian contexts including Afghanistan, Albania, Greece, Iran, South Africa, Sweden, Türkiye and Zimbabwe. The various chapter contributions address and discuss nuances of each of the contexts under study. The contributions also help highlight some key commonalities across these contexts, including how dominant discourses and various forces have historically shaped and continue to shape and reproduce such omissions, misrepresentations and marginalization. In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures, the book charts a path forward towards more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond. It will appeal to scholars, researchers, undergraduate and graduate students with interests in Indigenous education, curriculum studies, citizenship education, history of education, religion and educational policy.

How to study for distinctions Cosmas Mtsikwa, 2020-12-21. Thousands upon thousands fail in their examinations either by attaining average or poor grades. This compellingly written book is of practical relevance to students who are at O level, A level or even University and Tertiary education institutions to aid them to study and attain the attainable distinctions. The young author of this book advocates implementation of the ten principles which address the common and rare mistakes which lead many to the bottomless pit of U's or ultimate failure. It is apparent that the most educated fill the highly paying and honorable positions in the market place. This book gives you the secret that is to be the distinction or one who stands shoulders above the rest. By being that you will attain distinctions and honorable positions will be your reward. Thus enjoy your interaction with this simply yet comprehensively written book.

Reconceptualising Multilingualism on African Radio Limukani Mathe, Gilbert Motsathebe, 2025-01-31. This book redefines multilingualism via the concept of radio in Africa. Africa presents unique challenges of lingual diversity which the media still struggles to accommodate, particularly when it comes to indigenous languages. Contributors argue that the linguistic realities of African radio reflect ethnic co-existence and fluidity.

of identity in pre colonial colonial and post colonial contexts They argue that communities consist of several majorized and minoritized indigenous languages which if closely analysed reflect a commonality of multilingualism The book also suggests practical measures through which linguistic co existence could be achieved and explores cases that redefine reconceptualize and reframe multilingualism on African radio

STEM Education in Poverty Brantina Chirinda, Gladys Sunzuma, Perkins Muredzi, 2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world s ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today s world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore
