Zimsec June Exams:

Facets of Power, 2023-01-10 The diamond fields of Chiadzwa among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007, a new case of blood diamonds had emerged in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds, violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement and rights abuses. *Facets of Power* is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed as well as resistance by those who have suffered at the hands of the mineral's secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources and mounting democratic challenges to elites whose power is sustained by preying on them. Pursuit of the Elusive Dream

Lawrence D Moyo, 2023-05-16 Anyone interested in the history of Zimbabwe will love this memoir by Lawrence D Moyo. It traces the tumultuous events of the First Chimurenga of 1896 through independence from Great Britain in 1980 until the present day. He vividly describes his childhood struggles as the son of a father who abuses his children as slave labourers. Lawrence progressively climbs the educational ladder until he emigrates to the UK with his family. Harping on the theme of hidden racism, among others, Lawrence then endures horrific racist treatment from criminally disobedient white and black students in schools he works at as an English teacher. Having become a highly respected educational specialist, he is now retired in the UK, retaining his connections with his family members and friends in Zimbabwe. **Facets of Power** Richard

Outpost ,2006 **Covid-19 and the Dialectics of Global Pandemics in Africa** Munyaradzi Mawere,Bernard

Chazovachii,2021-10-01 The prevalence of global pandemics has been timeless and universal In 1918 the Spanish Flue grounded Spain and her neighbours In 1997 2014 and 2020 the Ebola virus wreaked havoc in West Africa in the same manner that polio had ravaged the globe Since 2019 the Coronavirus has forced most economies onto a downward spiral Despite concerted global attempts at observing World Health Organization guidelines the Coronavirus has been changing peoples lives forcing most economies onto their knees endangering lives and livelihoods making a mockery of global medicine and causing the widespread despair and helplessness that has come to be known as the new normal Unlike the other pandemics the mayhem complexities and dialectics caused by Covid 19 have been matchless requiring a systematic study and necessitating a volume like this one The volume s 16 well researched chapters argue that despite Covid 19 s enormous lessons and predictions about even greater future pandemics humanity can ill afford to relent in its determination to conquer the pandemic in the same way that human resolve has defeated past pandemic As such the volume provides hope and direction to the global community on how best to deal with Covid 19 and pandemics of similar or even higher magnitude in the future **Beyond the Crises: Zimbabwes Prospects for Transformation** Tendai Murisa,Tendai

Chikweche,2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier These transformations have necessitated the call for the restructuring of Zimbabwean society polity and economy But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications Beyond the Crises Zimbabwes Prospects for Transformation is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions By focusing on different aspects of social and economic justice Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans **The Chartered**
