Political Handbook of the World 2015 Tom Lansford, 2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year **The People in Question**

Jo Shaw, 2021-10-13 Questions of citizenship and the role of constitutions in determining its boundaries are under scrutiny in this judicious and accessible analysis from Jo Shaw **Global Anti-Money Laundering Regulation** Nkechikwu

Azinge-Egbiri, Nicholas Ryder, Ehi Eric Esoimeme, 2024-11-25 This book explores the politics of money laundering and terrorist financing ML TF regulation in several countries across Africa and the Small Island States Developed countries created the Financial Action Task Force FATF to combat ML TF globally Expectedly the FATF's standards mirror existing banking regulations within the G7 countries Yet the standards apply to all countries irrespective of the limited ML TF risks they pose to the global economy their weak pre conditions for effective regulation and their non involvement in the FATF's framing Still such countries mainly within the Global South have worked hard to amplify their compliance with the regime due to fears of the repercussions of their non compliance This collection demonstrates how the global ML TF regulation is treated as an implicitly superior legal regime where the Global South must comply irrespective of their perception of the FATF's legitimacy challenges It shows that beyond exogenous factors such as neo colonialism endogenous factors such as weak institutions and corruption undermine the compliance trajectory of the Global South Furthermore it analyses the unintended consequences of transplanting FATF standards into diverse legal and cultural contexts The volume contributes to our understanding of the challenges of transplantation from the Global North and how the Global South is steering within the constraints created by the FATF It advocates for a comprehensive understanding of the nuanced compliance challenges of developing countries It further proposes practical solutions to address them emphasizing the importance of risk based understanding accountability capacity building and coordination in achieving effective anti money laundering and counter terrorist financing measures The collection will be essential reading for researchers academics and policy makers working in financial crime regulation and international economic law *Spotlighting Human Rights in Southeast Asia* United States. Congress. House. Committee on Foreign Affairs, 2014 *The Palgrave Handbook of African Political Economy* Samuel Ojo Oloruntoba, Toyin Falola, 2020-06-23 This handbook constitutes a specialist single compendium that analyses African political

economy in its theoretical historical and policy dimensions It emphasizes the uniqueness of African political economy within a global capitalist system that is ever changing and complex Chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent Contributors also provoke new thinking on theories and policies to better position the continent s economy to be a critical global force The uniqueness of the handbook lies in linking theory and praxis with the past future and various dimensions of the political economy of Africa The Wealth of (Some) Nations Zak Cope,2019-03-20 In this provocative new study Zak Cope makes the case that capitalism is empirically inseparable from imperialism historically and today Using a rigorous political economic framework he lays bare the vast ongoing transfer of wealth from the poorest to the richest countries through the mechanisms of monopoly rent unequal exchange and colonial tribute The result is a polarised international class structure with a relatively rich Global North and an impoverished exploited Global South Cope makes the controversial claim that it is because of these conditions that workers in rich countries benefit from higher incomes and welfare systems with public health education pensions and social security As a result the internationalism of populations in the Global North is weakened and transnational solidarity is compromised The only way forward Cope argues is through a renewed anti imperialist politics rooted in a firm commitment to a radical labour internationalism **Country Trade Sourcebook** ,2007 Yearbook of International Organizations ,1967
