- 1 Which equation correctly represents the enthalpy change of atomisation of iodine?

- 2 What is the second electron affinity of oxygen?
Use the data below to determine your answer.

	ΔH kJ/mol
Enthalpy of formation of calcium oxide	-636
Lattice enthalpy of calcium oxide	-3401
Second ionisation energy of calcium	+1100
First ionisation energy of calcium	+590
Enthalpy of atomisation of calcium	+177
Enthalpy of atomisation of oxygen	+249
First electron affinity of oxygen	-141

A $+790$ kJ/mol

B -790 kJ/mol

The systemic element of the model focused on the self-correcting impact of ICT use on professional development whilst the personal element focused on self-efficacy as the central stratum for self-directed professional development. The study concluded by acknowledging the potent role that ICT is playing in the self-directed continuing professional development of teachers in Zimbabwe and recommended among other things the inclusion of A-level teachers in the development of localised online materials resources for their subjects. Education and Government Control in Zimbabwe Dickson A. Mungazi, 1990-01-19 This pioneering study argues that the bitter civil war that thrust Zimbabwe into international headlines from 1966 to 1979 had its roots in the reports issued by the colonial commissions of inquiry into education. As the author explains in his introduction these commissions and the reports they issued which reinforced separate educational systems for African and white students reached far beyond educational policy in their effects. Basing his work on original documents and materials which have not appeared in print before most of which were only recently declassified by the government of Zimbabwe the author shows the profound influence these reports had on government policy on government control of opportunity in general and on the relationships between and among institutions within the country. Following an introductory overview Mungazi turns to a discussion of the specific issues which the commissions were appointed to investigate. Separate chapters are then devoted to the circumstances surrounding the naming of commissions their findings and recommendations and the implications of implementing their recommendations on the character of colonial society itself. This chronological treatment enables the author to focus particularly on how the recommendations of the commissions constituted a sequence of developments that led inevitably to conflict. The final chapter draws some conclusions regarding the social environment that produced a major national conflict and discusses what might be learned from the tragic events that took place in Zimbabwe from 1966 to 1979.
