

The Impossible Victory: Vietnam

From 1864 to 1972, the most intense and most powerful nation in the history of the world made a continuous military effort, with everything short of atomic bombs, to defeat a nationless revolutionary government in a deep, peasant country—and failed. When the United States fought in Vietnam, it was organized modern technology versus organized human beings, and the human beings won.

In the course of that war, they developed in the United States the greatest military apparatus that nation had ever experienced, a superb, most skill played a critical part in bringing the war to an end.

It was another startling fact of the clash.

In the fall of 1945 Japan, defeated, was forced to leave Indochina, the former French colony it had occupied at the start of the war. In the meantime, a revolutionary movement had grown there, determined to end colonial control and to achieve a new life for the peasants of Indochina. Led by a Communist named Ho Chi Minh, the revolutionists fought against the Japanese, and when they were given some token independence in August in late 1945, with a million people in the streets, and issued a Declaration of Independence. It borrowed from the Declaration of the Rights of Man and the Citizen, in the French Revolution, and from the American Declaration of Independence, and began: "All men are created equal. They are endowed by their Creator with certain inalienable rights, among them are Life, Liberty, and the pursuit of Happiness." Just as the Americans in 1776 had listed these guarantees against the English King, the Vietnamese listed their complaints against French rule.

They have suffered enormous pain. . . . They have made more pains than joyous. They have sacrificed their old parents, they have dreamed nightmares in vision of blood. They have suffered public humiliations. . . . They have suffered as if our five heads, our bodies, our hearts, and our ten millionths.

They have sacrificed themselves as possible men and women and people, including our parents, in a state of extreme poverty.

From the end of last year, in the beginning of this year . . . must

Against the Vietnam War Mary Susannah Robbins, 2007-05-22 For some it was a movement for peace For others it was a war against the war In the eyes of certain participants the movement was cultural and social at its core a matter of changing society Still others defined their protests as political and sought out the economic root causes of the war What many would agree upon was that it was a time when a remarkable generation came of age and a great nation was shaken to its very foundations The protest movement in opposition to the Vietnam War was a complex amalgam of political social economic and cultural motivations factors and events Against the Vietnam War brings together the different facets of that movement and its various shades of opinion Here the participants themselves offer statements and reflections on their activism the era and the consequences of a war that spanned three decades and changed the United States of America The keynote is on individual experience in a time when almost every event had national and international significance A foreword by Staughton Lynd considers the events of the Vietnam War in the context of the present war in Iraq **Rethinking**

Dale Walton, 2002 Dale Walton's book offers a unique and comprehensive analysis that considers US strategic decisionmaking at a number of levels and shows how US errors created the military and political conditions that made North Vietnamese victory possible If the United States political military effort had not negated its main advantages indeed even if it had avoided only a small number of its many strategic errors the outcome of the Indochina conflict would most likely have been very different the author argues **BOOK JACKET** Victory at Any Cost Cecil B. Questions and Answers about the Vietnam War, 1967 Major Problems in the History of the Vietnam War Robert J. McMahon, 1990 Designed to encourage critical thinking about history the Major Problems in American History series introduces students to both primary sources and analytical essays on important topics in U S history Major Problems in the History of the Vietnam War incorporates a spate of new research and a number of recently declassified documents concerning the Vietnam War *Vietnam* Howard Zinn, 2012-11 Zinn's compelling case against the Vietnam War now with a new introduction Of the many books that challenged the Vietnam War Howard Zinn's stands out as one of the best and most influential It helped spark national debate on the war It includes a powerful speech written by Zinn that President Johnson should have given to lay out the case for ending the war No Sure Victory Gregory A. Daddis, 2011-06-01 In No Sure

Victory Army officer and historian Gregory Daddis looks deep into the Army's techniques for measuring military success in Vietnam and presents a much more complicated and disturbing account of the American misadventure in Indochina. Daddis shows how the US Army adopted a massive and eventually unmanageable system of measurements and formulas to track the progress of military operations that ranged from pacification efforts to search and destroy missions. Concentrating more on data collection and less on data analysis, these indiscriminate attempts to gauge success may actually have hindered the army's ability to evaluate the true outcome of the fight at hand, a roadblock that Daddis believes significantly contributed to the many failures that American forces suffered in Vietnam. Filled with incisive analysis and rich historical detail, *No Sure Victory* is not only a valuable case study in unconventional warfare but a cautionary tale that offers important perspectives on how to measure performance in current and future armed conflict. **The Vietnam Victory Option** Norborne T. N. Robinson, 1993

The Vietnam Years John Musgrave, Micheal Clodfelter, 1986-01-01 **The Wrong War** Jeffrey Record, 1998 Was the US military prevented from achieving victory in Vietnam by poor decisions made by civilian leaders, a hostile media, and the antiwar movement, or was it doomed to failure from the start? Twenty-five years after the last US troops left Vietnam, the most divisive US armed conflict since the War of 1812 remains an open wound, not only because 58,000 Americans were killed and billions of dollars wasted, but also because it was an ignominious, unprecedented defeat. In this iconoclastic new study, Vietnam veteran and scholar Jeffrey Record looks past the consensual myths of responsibility to offer the most trenchant, balanced, and compelling analysis ever published of the causes for America's first defeat. Sure to spark widespread discussion and argument among veterans, academics, policy makers, military professionals, and interested citizens, this landmark contribution breaks new ground by candidly examining the strategic failures of the military's leadership, long portrayed as innocent victims, and exploring whether a different policy could have avoided defeat. With a rare blend of relevant personal experience and impeccable scholarship, Record establishes four root causes for the US defeat in a logical, easy-to-follow argument that explodes earlier professional assessments and popular appraisals: Vietnam, noble cause, international crime, or strategic mistake. Record's surprising and sometimes incendiary answers to these and other questions critical to the future success of the civilian-run military will ensure that the armed forces' accountability in Vietnam is no longer overlooked.
