A Conceptual History of Chinese -Isms Ivo Spira, 2015-05-12 In *A Conceptual History of Chinese Isms* Ivo Spira explores the linguistic and rhetorical development of Chinese isms as well as the key concept zh y ism itself He argues that the introduction of this concept from Japan in the 1890s inaugurated an Age of Isms in which it served as a conceptual focus for the stereotypical categorization of people and the utopian imagination of the future The book focuses on Chinese isms in the formative period 1895 1925 through a close reading of key primary sources covering linguistic conceptual and rhetorical aspects of their use in ideological reasoning Spira emphasizes the combination of internal traditional and external Western and Japanese factors in the emergence of Chinese isms [Web Personalization in Intelligent Environments](#) Giovanna Castellano, Anna Maria Fanelli, 2009-09-14 At first sight the concept of web personalization looks deceptively simple A web personalization system is a software component that collects information on visitors to a web site and leverages this knowledge to deliver them the right content tailoring presentation to the user s needs All over the world web designers and web content managers rely on web personalization solutions to improve the effectiveness and ability of their web based applications Still the scientific foundation of web personalization remains a controversial issue Practitioners know very well that when properly implemented personalization delivers a much better user experience but when it is poorly implemented personalization may backfire and even distract the user s attention away from some useful and costly to develop enriched content In other words tailoring content and varying it routinely may make a site more attractive but an unstable site look can have a negative impact on the overall message Everybody seems to agree that this is a real danger but there are specific questions that are much harder to answer convincingly **Algorithms and Computation** Leizhen Cai, Siu-Wing Cheng, Tak-Wah Lam, 2013-12-12 This book constitutes the refereed proceedings of the 24th International Symposium on Algorithms and Computation ISAAC 2013 held in Hong Kong China in December 2013 The 67 revised full papers presented together with 2 invited talks were carefully reviewed and selected from 177 submissions for inclusion in the book The focus of the volume is on the following topics computation geometry pattern matching computational complexity internet and social network algorithms graph theory and algorithms scheduling algorithms fixed parameter tractable algorithms algorithms and data structures algorithmic game theory approximation algorithms and network algorithms *From Testing to Assessment* Clifford Hill, Kate Parry, 2014-09-19 *From Testing to Assessment* English as an International Language provides a critical review of conventional and alternative approaches to the assessment of English literacy skills in various parts of the world It presents empirical studies conducted in three major settings in countries such as Japan and Brazil where English functions as the language of international commerce in multilingual countries such as Nigeria and Zimbabwe where English is the national language of education and government and in such countries as Canada the United Kingdom and the United States where English is the dominant language The book opens with a discussion of language assessment in relation

to debates about the nature of literacy it concludes with a discussion of policy implications which is grounded in literacy theory as well as in practical constraints such as available human and material resources

Zjc Literature in English

Texts: Tunzi the Faithful Shadow Michael Gascoigne,1988 **Teacher in Zimbabwe** ,1992 **Theoretical Physics Text and Exercise Books** Walter Greiner,Berndt Müller,2012-12-06 More than a generation of Gennan speaking students around the world have worked their way to an understanding and appreciation of the power and beauty of modern theoretical physics with mathematics the most fundamental of sciences using Walter Greiner s textbooks as their guide The idea of developing a coherent complete presentation of an entire field of science in a series of closely related textbooks is not a new one Many older physicists remember with real pleasure their sense of adventure and discovery as they worked their ways through the classic series by Sommerfeld by Planck and by Landau and Lifshitz From the students viewpoint there are a great many obvious advantages to be gained through use of consistent notation logical ordering of topics and coherence of presentation beyond this the complete coverage of the science provides a unique opportunity for the author to convey his personal enthusiasm and love for his subject The present five volume set Theoretical Physics is in fact only that part of the complete set of textbooks developed by Greiner and his students that presents the quantum theory I have long urged him to make the remaining volumes on classical mechanics and dynamics on electromagnetism on nuclear and particle physics and on special topics available to an English speaking audience as well and we can hope for these companion volumes covering all of theoretical physics some time in the future

African Research & Documentation ,1995 **Radiotelegraph & Radiotelephone Codes, Prowords and Abbreviations** John W Alcorn VK2JWA,2013-10-26 What started out as a minor Project in 1987 blew out like the national debt so with all this accumulated info it seemed worthwhile to produce the first book here now is the Latest Online Edition The sources and references have been many and varied and although the utmost care was taken the Lists are far from complete and may contain errors The original Codes etc were designed principally for marine use as this was the field in which radio was initially developed The majority retain this influence but many have been modified and modernized to cover land and air applications Technical terms have also varied as technology has changed however most abbreviations of the computer age have been omitted These are specialist terms of that mode not often encountered in telegraphy

Zen and Japanese Culture Daisetz T. Suzuki,2019-02-12 Zen and Japanese Culture is a classic that has influenced generations of readers and played a major role in shaping conceptions of Zen s influence on Japanese traditional arts In simple and poetic language Daisetz Suzuki describes Zen and its historical evolution He connects Zen to the philosophy of the samurai and subtly portrays the relationship between Zen and swordsmanship haiku tea ceremonies and the Japanese love of nature Suzuki uses anecdotes poetry and illustrations of silk screens calligraphy and architecture The book features an introduction by Richard Jaffe that acquaints readers with Suzuki s life and career and analyzes the book s reception in light of contemporary criticism especially by scholars of Japanese Buddhism Zen and

Japanese Culture is a valuable source for those wishing to understand Zen in the context of Japanese life and art and remains one of the leading works on the subject Zimbabwe National Bibliography ,1990 **Encountering the Book of Romans (Encountering Biblical Studies)** Douglas J. Moo,2014-07-08 In this updated edition of his successful textbook a leading evangelical New Testament scholar offers a guide to the book of Romans that is informed by current scholarship and written at an accessible level The new edition has been updated throughout and features a new interior design After addressing introductory matters and laying the groundwork for reading Romans Douglas Moo leads readers through the weighty argument of this significant book highlighting key themes clarifying difficult passages and exploring the continuing relevance of Romans As with other volumes in the well received Encountering Biblical Studies series this book is designed for the undergraduate classroom and includes pedagogical aids such as photos and sidebars A test bank for professors is available through Baker Academic s Textbook eSources **Zimbabwe Press Mirror** ,1999 **Zimbabwe Books in Print** ,1998

Forthcoming Books Rose Arny,1996-06 D. T. Suzuki on the Unconscious in Zen Art, Meditation, and Enlightenment Steve Odin,2025-07-01 A comprehensive study of D T Suzuki s Zen philosophy and philosophical psychology in relation to his Buddhist understanding of the cosmic Unconscious This book explores how the Japanese philosopher D T Suzuki 1870 1966 developed an integral synthesis of Eastern and Western sources to establish a modern philosophical psychology of the cosmic Unconscious which he in turn used as the basis to interpret every aspect of Zen art meditation and enlightenment Beyond Freud s personal unconscious and Jung s collective unconscious according to Suzuki is the cosmic Unconscious of Zen which as absolute nothingness is the fountain of inexhaustible creative potentialities and the source of all Zen inspired arts The book demonstrates that like the Kyoto School of modern Japanese philosophy Suzuki s Zen endeavors to overcome the existential problem of nihilism or relative nothingness by shifting to the openness of absolute nothingness wherein emptiness is fullness and all things are disclosed in the evanescent beauty of their suchness Suzuki however formulates his scheme in terms of a depth psychology where the cosmic Unconscious is the encompassing locus of absolute nothingness Ultimately the book argues that by integrating both Eastern and Western views of the unconscious psyche including the different schools of Zen and Mahayana Buddhism as well as American French and German theories of the unconscious Suzuki s Zen concept of the cosmic Unconscious constitutes a significant original contribution to philosophical psychology **Moto** ,1997 **Prima & secunda pars commentariorum super digesto novo** Alexander (de Imola),1539 **An Investigation of Secondary School Language Teachers' Conceptions of Literacy and how These Conceptions Relate to Literacy Instruction in Zimbabwe** Albert Natsa,1994 **Cultural Security in Contemporary China and Mongolia** Jarmila Ptácková,Ondrej Klimes,2025-10-01 Cultural Security in Contemporary China and Mongolia applies the term cultural security not exclusively to state or institution implemented processes but also considers the indigenous bottom up and inside out mechanisms of establishing and maintaining communal cultural security of an ethnic group Markers of cultural identity differ according to

an inside and outside perspective and can be re defined according to inner or outer circumstances Importance of these markers increases when a community feels endangered in their cultural existence or diminishes when perceived cultural identity is not questioned The dynamics shaping cultural security are illustrated in examples of ethnic communities in the People s Republic of China and in Mongolia
