Zimsec November 2014 Marking Scheme:

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Why Mugabe Won Stephen Chan, Julia Gallagher, 2017-06-09 This book examines the key events, personalities and wider socio-political context that led to Mugabe's victory in the 2013 Zimbabwean elections.

Zimbabwe International Monetary Fund. African Dept., 2013-07-03 This staff report for Zimbabwe highlights the key macroeconomic challenges of taking steps to improve fiscal and external sustainability and increase financial sector stability. Zimbabwe has made good progress in restoring macroeconomic stability since the end of hyperinflation in 2009, but the economic rebound is waning and key challenges need to be tackled. Strong policies are needed to sustain the economic recovery, restore fiscal and external sustainability and increase financial stability. This would place the economy on a long-term sustained inclusive growth path. Implementation of indigenization and empowerment policies according to transparent rules with due respect to property rights remains essential to build investor confidence and attract needed foreign direct investment.

SADC Gender Protocol 2015 Barometer Morna, Colleen Lowe, Dube, Sifiso, 2016-02-22 In August 2008 Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub-regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time-bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol targets expire in 2015. Now that 2015 is here, we need to step back, assess and reposition. In June 2014, SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year, ministers added that they want the Protocol to be accompanied by a Monitoring, Evaluation and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen, resolve, reconsider, reposition and re-strategise for 2030.

Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world. Covering political, economic, social and cultural aspects, the Yearbook is also available online for subscribing institutions: www.statesmanyearbook.com. The Report: Abu Dhabi 2015 Oxford Business Group, 2016-05-09. Hydrocarbons revenues still form the bulk of Abu Dhabi's GDP, and while falling prices are a concern, the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030. The past 10 years have seen the non-oil sector expand strongly on the back of business-friendly government policies, as a result of which non-oil sector growth now outpaces that of the oil sector. Outside of hydrocarbons, construction and manufacturing represent the biggest GDP contributors in the emirate, with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth, leveraging the emirate's natural resources, growing downstream capabilities and strategic location. Elsewhere, Abu Dhabi's financial sector continues to assert itself, and the expected 2015 launch of Abu Dhabi Global Market, the UAE's second financial free zone, is expected to boost activity in the sector. Meanwhile, visitor numbers to Abu Dhabi continue to rise, with around 3.5m arrivals in 2014, up 25% on the previous year. This growth is expected to continue as major infrastructure upgrades continue apace. These include the expansion of Abu Dhabi International Airport and the development of the 1200 km wide Etihad rail project.

Sports Law in Zimbabwe Tinashe Madebwe, Jimcall Pfumorodze, Emma Chitsove, Thabo Fiona Khumalo, 2022-09-20. Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Zimbabwe deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law, and its own national and local sports organizations. Sports law, at a national or organizational level, thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws and encompasses organizational provisions, disciplinary rules and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries, are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations and policy makers access to sports law at this specific level. Lawyers representing parties with interests in Zimbabwe will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law.

New Leaders, New Dawns? Chris Brown,David Moore,Blair Rutherford,2022-06-17 In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions New Leaders New Dawns explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of

Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face New Leaders New Dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa

Discrimination and Access to Justice in Africa Wellman Kondowe,Paul Svongoro,2025-05-23 There are different forms of discrimination Among others people can be discriminated against on the basis of their ethnic grouping political affiliation race gender age and language This book focuses on linguistic discrimination in Africa acknowledging that language plays a key role in the delivery of justice and much of what transpires in justice systems deals with language use It argues that to achieve fairness the state has a responsibility to put in place accommodations aimed at reducing linguistic vulnerability The collection interrogates some of the issues that are common in Africa which is arguably one of the most linguistically diverse continents in the world bringing together a collection of case studies from Malawi South Africa Zimbabwe Tanzania Kenya and Zambia It presents practical insights from academics legal professionals and social scientists Divided into five thematic parts the first addresses communication and linguistic challenges faced by children in the legal system Theme 2 examines the position of witnesses with physical challenges The third theme focuses on language as a barrier in access to justice Theme 4 looks at the language of the court as a major barrier to the poor and the illiterate The fifth and final theme examines the position of women in sexual assault cases The collection will be of interest to academics researchers and policymakers working in the areas of law and language human rights law criminology linguistics and African Studies

Intellectual Property Policy, Law and Administration in Africa Caroline B. Ncube,2015-10-16 This book examines the harmonisation of Intellectual Property IP policy law and administration in Africa Two recent developments have brought this topic to the fore The first is the escalation of long standing efforts to establish a Pan African Intellectual Property Organisation PAIPO a continental initiative The second is the current sub regional attempt to operationalise the IP provisions of the Southern African Development Community SADC s Protocol on Trade articles 9b and 24 and its Protocol on Science Technology and Innovation article 2m Intellectual Property Policy Law and Administration in Africa discusses the viability of such initiatives with particular reference to the current socio economic status of Africa s nations With a view to contributing to future developments in Africa at both a continental and sub regional level the author considers this issue through the lens of advancing the public interest in IP Ncube argues that harmonisation initiatives ought to be crafted in a way that is

supportive of the development aspirations of African states. Consequently she urges due consideration of individual states unique conditions and aspirations in any harmonisation venture a necessity outlined in article 7 of the Agreement on Trade Related Aspects of Intellectual Property Rights. This book will be of great relevance to scholars and policy makers with an interest in IP law and African law in general. Mugabeism after Mugabe? Thomas Duri, Ngonidzashe Marongwe, 2019-10-22

Arguably one of the long waited political handover of power globally happened in November 2017 in Zimbabwe when the former and now late 37 year long serving and divisive President Robert Gabriel Mugabe was forced out of power by a combination of forces that were spearheaded by the militarys Operation Restore Legacy. Mugabes departure ushered in President Emmerson Dambudzo Mnangagwas reign. This transition has variously been characterised as marking the inauguration of the Second Republic or New Dispensation or as heralding a new Zimbabwe that is Open for Business. From the moment of the investiture of President Mnangagwas government anticipations of seismic changes to the order of doing business by both the incoming government and the larger Zimbabwean society in general were extremely high. There was an expectation that international cooperation with global partners especially in the West would be restored alongside the reinvigoration of a near comatose domestic economy. But did this ever happen? This volume interrogates the impact of the introduction of the Mnangagwa administration from November 2017. The book seeks to broadly dissect and troubleshoot issues of continuity and change from Mugabes reign into Mnangagwas Second Republic. In doing so the book attempts to respond to the grand question: To what extent has Mugabeism that was the hallmark of Mugabes reign continued or discontinued into the Second Republic? The volume which comes as a sequel to *The end of an era: Robert Mugabe and a conflicting legacy* is sure to generate interest and responses from students and academics in the fields of History, International Studies, Political Science, Sociology and Social anthropology as well as from practitioners in the human rights, transitional justice, conflict resolution, security studies and diplomatic fields. Just Enough Nitrogen Mark A. Sutton, Kate E. Mason, Albert Bleeker, W. Kevin Hicks, Cargele Masso, N. Raghuram, Stefan Reis, Mateete Bekunda, 2020-11-09

This volume provides a unique collection of contributions addressing both the too much and too little sides of the nitrogen story. Building on analyses started at the 6th International Nitrogen Conference Kampala, the book explores the idea of just enough nitrogen sufficient for sustainable food production but not so much as to lead to unsustainable pollution and climate problems. The range of nitrogen threats examined, solutions evaluated and science policy analyses presented here has provided the foundation to agree the Kampala Statement for Action on Nitrogen in Africa and Globally as reported in this volume. Humanity today faces unprecedented challenges: How to feed a growing population? How to reduce air pollution, water pollution and climate change? How to handle regional differences in an era of increasing globalization? These questions are at the heart of this edited volume which examines the multi dimensional nature of the global nitrogen challenge. While humans have massively altered the nitrogen cycle the consequences have become polarized. Some regions have too much nitrogen

associated with pollution and wasteful use of a valuable resource while other regions have too little nitrogen leading to constraints on food production and depletion of soil nutrient stocks The volume provides a unique collection of contributions addressing both the too much and too little sides of the nitrogen story Building on analyses started at the 6th International Nitrogen Conference Kampala the book explores the idea of just enough nitrogen sufficient for sustainable food production but not so much as to lead to unsustainable pollution and climate problems The range of nitrogen threats examined solutions evaluated and science policy analyses presented here has provided the foundation to agree the Kampala Statement for Action on Nitrogen in Africa and Globally as reported in this volume Together the contributions in this book are now informing actions by the International Nitrogen Initiative INI in working with the United Nations Environment Programme and others to establish the International Nitrogen Management System INMS A key outcome has been to catalyse development of the first Resolution on Sustainable Nitrogen Management as adopted by the fourth UN Environment Assembly UNEA EA 4 Res 14 The work is written for researchers and policy makers and all those interested in seeing how sustainable nitrogen management can contribute to meeting many of the UN Sustainable Development Goals [The Statesman's Yearbook 2017](#) Palgrave Macmillan,2017-02-28 Now in its 153rd edition The Statesman s Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions www.statesmansyearbook.com
