Taiwan in Africa Sabella Ogbobode Abidde, 2022-11-08 While China s role and place in Africa has garnered a lot of scholarly attention be it praise or condemnation not much has been written about Taiwan s role and place on the continent even though Taiwan was a major player and partner in Africa s quest for growth and development From the 1960s to 1971 more African countries had diplomatic relations with Taiwan as opposed to China But less than five decades after the United Nations General Assembly Resolution 2758 was passed there has been a reversal of fortune in terms of supremacy and diplomatic recognition with only one country Eswatini recognizing Taiwan as an independent country

Taiwan in Africa Seven Decades of Certainty and Uncertainties edited by Sabella Ogbobode Abidde addresses gaps in academic literature regarding Taiwan s engagement with states and societies on the continent This book examines international political economy international security the history of modern Africa and geopolitical pressures and conflict It addresses Taiwan s early engagement with the continent and the geopolitical and economic considerations that influenced African governments in their decision making vis vis their relationship with Taipei

Innovation, Regional Integration, and Development in Africa Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African

countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

Geography of Zimbabwe for Primary Schools R. E. Easterbrook, 1983 Seeds for African Peasants Esbern Friis-Hansen, 1995 **The State of Food Insecurity in Harare, Zimbabwe** Tawodzera, Godfrey, Zanamwe, Lazarus, 2016-10-17 Harare is at the epicentre of the economic meltdown and political crisis that has devastated Zimbabwe over the last decade and led to a mass exodus from the country Those who remained in Zimbabwe's largest city and capital endured unprecedented hardship as the formal economy collapsed unemployment soared and poverty deepened Household surveys conducted in Harare with official sanction between 2003 and 2009 appear to demonstrate that food insecurity was not a particularly serious problem a conclusion sharply at odds with reality In 2008 at the height of the crisis AFSUN therefore implemented its own baseline food security survey in Harare using a well tested and reliable methodology This paper presents and discusses the results of that survey and shows that Harare had become the most food insecure city in the SADC region by 2008 Levels of food insecurity were extraordinarily high as poor households struggled to find the income to purchase what little food was available in the shops and informal markets The paper demonstrates that participation in the informal food economy was the major response to the crisis providing poor households with a modicum of food and income Urban agriculture for home consumption also grew in importance as a crisis response While the political and economic situation in Zimbabwe has stabilised somewhat since 2008 the long term impact of many years of enforced food insecurity on the city population is incalculable This paper concludes with the recommendation that ongoing monitoring of the urban food

security situation in Harare is essential in order to begin to develop national and municipal policies that could ensure a food secure future for the city
