Zivilprozessordnung Mit Famfg Gvg Und Anderen Nebengesetzen:

Enforceability of Multi-Tiered Dispute Resolution Clauses Ewelina Kajkowska, 2017-03-23 This book analyses the contractual mechanisms requiring parties to exhaust a selected amicable dispute resolution procedure before proceedings in court or arbitration are initiated It briefly explains the phenomenon of integrated dispute resolution outlines ADR methods commonly used in multi tiered clauses and presents the overview of standard clauses published by various ADR providers and professional bodies The core of the analysis is devoted to the enforceability of multi tiered clauses under the legal systems of England and Wales Germany France and Switzerland It is essential reading for practitioners and academics working in this area *The Legal, Real and Converged Interest in Declaratory Relief* Beata Gessel-Kalinowska vel Kalisz, 2019-05-16 Worldwide in both litigation and arbitration the term declaration refers to both what is sought by the parties and what is granted by the judicial authority In the latter case it can be construed as a remedy known as declaratory relief where the plaintiff seeks an authoritative judicial statement of the legal relationship Although of enormous significance in dispute resolution declaratory relief has not been analysed in detail until this deeply informed study The book s main focus is on declaratory relief relating to disputes resolved within the framework of international commercial arbitration and litigation Focusing on the notion of legal interest which the author views as a serious limitation of access to justice the book sets out to redefine the term in order to respond to the needs of modern legal dealing Issues and topics such as the following are thoroughly considered the concept of legal interest as a prerequisite to granting a declaration circumstances under which relief based on a declaratory judgment may be granted determination of a plaintiff s legal interest in having a legal relationship established by a judicial ruling powers of the court or tribunal in various jurisdictions emphasizing the contrast between legal interest in Germanic law and real interest in English law combining a declaration with a coercive measure role of the arbitration agreement and applicable arbitration law and how arbitration can neutralize the strict notion of legal interest converged interest Case law including numerous previously unpublished arbitration awards is fully taken into account The final chapter elaborates a new interpretation of the declaratory relief concept encompassing civil substantive and procedural law enriched by theory of justice comparative analysis and statistical analysis Apart from the foregoing analysis by the Author the publication is supplemented with an annex which presents expert reports by local practitioners on the relevant legal characteristics in Germanic civil law jurisdictions Austria Germany Poland and Switzerland Given that recent legal scholarship has been increasingly insistent that judicial practice should evolve towards broader use of declarations particularly where interpretation of contractual stipulations is necessary this book holds a crucial place in current theory and practice in both litigation and arbitration contexts With its challenging redefinition of the legal interest concept it promises to play an important role in formulation of relief in dispute resolution particularly in international commercial arbitration Lawyers and arbitrators will benefit from awareness of how other tribunals decide and how awards

can be formulated and arbitration institutions as well as academics in the field will welcome this deeply informative analysis

Rechtsbehelfe gegen Verzögerungen in ZPO- und FamFG-Verfahren Lukas Boczek, 2023 Legal proceedings need time On the other hand the duration of proceedings can have an impact on their outcome and major consequences for the parties Nevertheless German procedural law provides parties with little recourse to speed up proceedings in which undue delays have occurred For proceedings that have an impact on the litigants family life this violates article 13 of the ECHR the European Court of Human Rights decided in its Kuppinger II judgment As a consequence legal remedies for the expedition of proceedings have been introduced into the German Act on Proceedings in Family Matters and in Matters of Non contentious Jurisdiction This dissertation examines whether the new remedies fulfil the requirements of the ECHR and whether the Basic Law and the Convention require similar remedies in civil proceedings other family proceedings and in proceedings in matters of non contentious jurisdiction

Wilful Misconduct in International Transport Law Duygu Damar, 2011-07-17 The main rationale of the conventions on international transport law is to limit the liability of the carrier However an aspect common to these conventions is that in cases of wilful misconduct the carrier is liable without any financial limitation Wilful misconduct denoting a high degree of fault is an established term in English law The Convention for the Unification of Certain Rules relating to International Carriage by Air Warsaw Convention of 1929 was the first international convention on transport law where the term was employed A definition of wilful misconduct which can be found in later conventions regarding carriage of goods and passengers as well was implemented in the Hague Protocol of 1955 amending the Warsaw Convention However the question as to exactly which degree of fault constitutes wilful misconduct has to date remained controversial and unanswered This work seeks to answer this question To this end the historical background of the term together with its function and role in marine insurance law case law and international transport law are examined from a comparative perspective

Insolvency in Commercial Arbitration Fabian van den Ven, 2023-08-31 The settling of disputes in international trade and in large and technically complex construction projects can hardly be imagined without the institution that is arbitration Another thing we can be sure about is that insolvency will also remain a part of the lifecycle of business entities within the currently existing economic system Whereas insolvency proceedings are heavily regulated with little leeway for the parties the central tenet of arbitration is the autonomy of the parties Hence this book aims to thoroughly investigate the many legal issues arising in arbitral proceedings when insolvency and arbitration clash This interaction is increasingly frequent today Providing much needed practical guidance derived from a broad and deep theoretical discussion the book covers such aspects as the following the effect of insolvency on the arbitration agreement the arbitration procedure including a potential mandatory stay of proceedings the arbitrator's contract and the arbitral award the position of insolvency and arbitration within a legal order the arbitrability of insolvency related issues and claims the possibility of determining claims in insolvency via arbitration the determining of applicable law and conflict of laws rules in particular when insolvency is

opened in a different jurisdiction than that of the arbitration and insolvency in arbitration within the application of the European Insolvency Regulation After a chapter on the relevant background theories the two main chapters of the book focus first on general issues that can arise in a domestic situation and second on problems particular to international cases of insolvency in arbitration The primary domestic perspective is the German one with abundant additional detail to fully embrace the international relevance of the discussion The author concludes with a number of considerations informed by practitioner feedback discussions throughout the work and as many arbitration case law examples as possible for tribunals dealing with insolvency in arbitration Based on a systematic application of arbitration and insolvency theory the book provides an all encompassing and holistic discussion from before an arbitration is started to after the award has been enforced In this way the book provides a one stop shop for practitioners both lawyers and arbitrators helping tribunals to navigate the treacherous waters of insolvency in arbitration

§ 278a ZPO als Schnittstelle zwischen

Gerichtsverfahren und außergerichtlicher Mediation Clemens Bushart, 2019-04-11 Der Schlüssel zu einer sachgerechten und effektiven Konfliktbearbeitung liegt in der Wahl eines adäquaten Konfliktbeilegungsverfahrens Richter können einen wichtigen Impuls zur Wahl des am besten geeigneten Verfahrens geben indem sie gem 278a ZPO eine außergerichtliche Mediation oder eine andere Verfahrensalternative anregen Der Autor analysiert sowohl den Regelungsgehalt des 278a ZPO als auch Funktion und Potenzial der Vorschrift als Schnittstelle zwischen Gerichtsverfahren und außergerichtlicher Mediation Ausgehend von dem Befund dass Richter den Parteien nur selten einen Wechsel in die außergerichtliche Mediation vorschlagen untersucht er zudem empirisch die Gründe für die zurückhaltende Normanwendung des 278a ZPO und erarbeitet hierauf aufbauend Empfehlungen zur Optimierung der Verfahrensschnittstelle

Reason and Fairness Ulrike Müßig, 2019-07-08 Throughout Europe the exercise of justice rests on judicial independence by impartiality In Reason and Fairness Ulrike Müßig reveals the combination of ordinary judicial competences with procedural rationality together with the complementarity of procedural and substantive justice as the foundation for the rule of law in court constitution far earlier than the advent of liberal constitutionalism The ECHR fair trial guarantee reads as the historically grown consensus of the functional judicial independence Both before historical and contemporary courts justice is done and seen to be done by means of judgements whose legal requirements combine the equation of fair and legal with that of legal and rational This legal determinability of the judge's fair attitude amounts to the specific rational European idea of justice

Niemann, 2020 The liberal professions are subject to an ever changing legal basis and thus constantly undergo minor or
major amendments A fundamental innovation in the current law governing the liberal professions of tax consultants is the
authorization to work as in house tax consultants Since 2008 the Tax Consultancy Act has made possible to pursue the
profession of in house tax advisor while lawyers were allowed to work in house for decades already with the last amendment
of the legal regulations from 2016 This paper deals with the various legal and practical implications of the interactions
between the freelance activity as a tax consultant and the activity of in house tax consultants in an employment relationship
A detailed comparison of the legal basis for tax consultants with that of in house lawyers is of special interest in light of the
current ambiguous legal situation Special focus is a thorough analysis of the legal question whether or not an in house tax
adviser can be exempted from the obligatory pension insurance *Grenzüberschreitende kommunale Zusammenarbeit*
Daniel Storbeck, 2016 Municipal and regional cross border cooperation has already been common practice for a long time
This is shown by numerous existing Euroregions along the German border The particular feature of this kind of cooperation
is the participation of local and regional authorities of different states which are separated by a national border The judicial
challenge is to legally overcome the national boundary in order to transform a mere partnership into an effective cooperation
This treatise outlines the existing instruments to implement such cooperation for German municipal authorities within their
sphere of jurisdiction Several questions are discussed Are local authorities entitled to enter a transnational contract and if so
to what extent What possibilities are offered by the German Constitution and existing umbrella agreements and what is the

relevance of the achievement of the European Regulation on a European Grouping of Territorial Cooperation Furthermore the important issue of transnational joint performance of exercising state authority as well as aspects of cross border economic activities of local authorities are discussed
