INTER-ENG 2020 Liviu Moldovan, Adrian Gligor, 2021-05-31 These proceedings contain research papers that were accepted for presentation at the 14th International Conference Inter Eng 2020 Interdisciplinarity in Engineering which was held on 8-9 October 2020 in Târgu Mureș, Romania. It is a leading international professional and scientific forum for engineers and scientists to present research works, contributions and recent developments as well as current practices in engineering which is falling into a tradition of important scientific events occurring at Faculty of Engineering and Information Technology in the George Emil Palade University of Medicine, Pharmacy, Science and Technology of Târgu Mureș, Romania. The Inter Eng conference started from the observation that in the 21st century the era of high technology without new approaches in research we cannot speak of a harmonious society. The theme of the conference proposing a new approach related to Industry 4.0 was the development of a new generation of smart factories based on the manufacturing and assembly process digitalization related to advanced manufacturing technology, lean manufacturing, sustainable manufacturing, additive manufacturing and manufacturing tools and equipment. The conference slogan was "Europe's future is digital, a broad vision of the Industry 4.0 concept beyond direct manufacturing in the company".
