entertaining this series of essays on specific films books music and other cultural texts brings a fresh perspective to long studied topics Under Garrett Davis s careful observation cultural objects such as films and literature art and artifacts and icons and oddities occupy the terrain of where the West as region meets the Western genre One crucial through line in the collection is the relationship of regional western works to genre Western works and the ways those two categories cannot be cleanly distinguished most work about the West is tinted by the Western genre and Westerns depend on the region for their status and power Garrett Davis also seeks to answer the question What is a Western now To do so he brings the Western into dialogue with other frameworks of the imagined West such as Indigenous perspectives the borderlands and environmental thinking The book s mosaic of subject matter includes new perspectives on the classic musical film Oklahoma a consideration of Native activism at Standing Rock and surprises like Pee wee s Big Adventure and Dr Seuss s The Lorax The book is influenced by the borderlands theory of Gloria Anzald a and the work of the indie rock band Calexico as well as the author s own discipline of western cultural history Richly illustrated primarily from the collection of the Autry Museum of the American West Josh Garrett Davis s work is as visually interesting as it is enlightening asking readers to consider the American West in new ways
