Getting Skills Right Enhancing Training Opportunities in SMEs in Korea OECD, 2020-06-16 This report assesses whether training workers in small and medium sized enterprises SMEs in Korea is adequate relevant and aligned to skills needs Inclusive Growth Review of Korea Creating Opportunities for All OECD, 2021-02-08 In recent years Korea has stepped up efforts to reduce inequalities in recognition that a fairer economic model is also the most sustainable one In order to support this new policy direction the OECD has carried out novel analysis of inclusive growth building on its Framework for Policy Action developed by the OECD to improve the prospects of the groups left behind North Korea's Foreign Policy Scott A. Snyder, Kyung-Ae Park, 2022-10-25 Since Kim Jong un s assumption of power in December 2011 North Korea has undergone expanded nuclear development political isolation and economic stagnation Kim s early prioritization of the byungjin policy simultaneous economic and military or nuclear development highlighted his goal of transforming North Korea s domestic economic circumstances and strengthening its position in the world as a nuclear state The central dilemma shaping Kim Jong un s

foreign policy throughout his first decade in power revolves around ensuring North Korea's prosperity and security while sustaining the political isolation and control necessary for regime survival. In order to evaluate North Korea's foreign policy under Kim, this volume will examine the impact of domestic factors that have influenced the formation and implementation of Kim's foreign policy, Kim's distinctive use of summitry and effectiveness of such meetings as an instrument by which to attain foreign policy goals, and the impact of international responses to North Korea's pursuit of nuclear capabilities on North Korea's foreign policy.

OECD Environmental Performance Reviews: Korea 2017 OECD, 2017-03-16 OECD Environmental Performance Reviews provide independent assessments of countries' progress towards their environmental policy objectives. OECD Economic Surveys: Korea 2016 OECD, 2016-05-16 This 2016 OECD Economic Survey of the Korea examines recent economic developments, policies, and prospects. The special chapters cover Raising productivity and Labour market reform.

Republic of Korea International Monetary Fund. Asia and Pacific Dept, 2018-02-13 This Selected Issues chapter outlines a strategy to facilitate this and navigate the more challenging monetary environment involving enhanced communication of policy interest rate intentions and inflation forecast targeting. The reduction in the inflation target by a percentage point to 2 percent in January 2016 weakened the nominal anchor. Monetary policy can play a role rebuilding the credibility of the anchor more rapidly through the adoption of inflation forecast targeting. This strengthening of the monetary policy framework involves enhancing communications. An effective credible monetary policy cannot address all macroeconomic challenges facing Korea. Rather, it can foster robust growth with low inflation, providing a stable and predictable environment that allows other policies to work more effectively. These other policies play a complementary role. Fiscal policy can reinforce the effectiveness of monetary policy as illustrated by model scenarios. Structural policies can also support monetary policy by, for example, boosting potential growth.

Target Markets

Andrea Berger, 2017-07-14 A UN arms embargo has been in place against North Korea for nearly a decade as part of a broader sanctions regime designed to deny it the goods and funds needed to fuel its nuclear weapons and ballistic missile programmes. Yet despite these sanctions, a host of state and non-state actors continue to buy arms material and services from Pyongyang and inject funds into the same coffers that drive North Korea's nuclear and missile development. While some of North Korea's military customers in the sanctions era since 2006 are well known, such as Iran, Syria, and Burma, Pyongyang's wider client base receives little international attention. North Korea has continued to enjoy access to other defence markets across Africa and the Middle East. The drivers of these clients' decisions to buy weapons and related goods from North Korea are rarely discussed. This gap in analysis is essential to fill. If tailored and effective approaches are to be developed to convince North Korea's customers to buy elsewhere, they must be based on a sound understanding of the considerations that motivated the client to turn to Pyongyang in the first place. *Target Markets* comprehensively analyses the available

information on these procurement decisions It concludes contrary to conventional wisdom that the reasons that customers buy weapons and related goods and services from North Korea vary often greatly This study also concludes that one of the greatest achievements of the UN sanctions regime to date has been to deny North Korea access to modern conventional weapons technology that it can learn to manufacture at home and sell on to its clients around the world Without more contemporary wares to tempt foreign buyers North Korea will likely continue to see its client list for weapons and related goods and services shrinking
