efficient for him/her I love to give students time to discuss why they chose certain methods to solve a problem. Each sheet includes a related extension/bonus question at the bottom. These questions can be used in a variety of ways. These bonus questions are perfect extension activities for students to discuss and complete at home with a family member. I love to see the extension work that students return. Many parents have commented that they appreciate the challenging nature of these questions. When these word problems (grade 2) are used for whole group instruction, it is common for some students to have completed tasks while others still need support. Early finishers can read the bonus question, flip their paper over, and work on this challenge question while the teacher provides individual and/or small group instruction as needed. In this way, these bonus questions help teachers differentiate during group lessons. Please note: This resource is included in the following bundle: 100 Addition Subtraction Word Problems within Twenty. Do your students need practice with word problems for grade 1 with 3 addends?
