Bodies of Truth Rita Kesselring, 2016-10-12 *Bodies of Truth* offers an intimate account of how apartheid victims deal with the long term effects of violence focusing on the intertwined themes of embodiment injury victimhood and memory In 2002 victims of apartheid era violence filed suit against multinational corporations accusing them of aiding and abetting the security forces of the apartheid regime While the litigation made its way through the U S courts thousands of victims of gross human rights violations have had to cope with painful memories of

violence They have also confronted an official discourse claiming that the Truth and Reconciliation Commission of the 1990s sufficiently addressed past injuries This book shows victims attempts to emancipate from their experiences by participating in legal actions but also by creating new forms of sociality among themselves and in relation to broader South African society Rita Kesselring s ethnography draws on long term research with members of the victim support group Khulumani and critical analysis of legal proceedings related to apartheid era injury Using juridical intervention as an entry point into the question of subjectivity Kesselring asks how victimhood is experienced in the everyday for the women and men living on the periphery of Cape Town and in other parts of the country She argues that the everyday practices of the survivors must be taken up by the state and broader society to allow for inclusive social change in a post conflict setting *Collaborative community partnerships across education settings* Mariëtte P. Fiona Moolla,2016-06-01 One of the first edited volumes to encompass transdisciplinary approaches to a number of cultural forms including fiction non fiction oral expression and digital media Environmental and animal studies are rapidly growing areas of interest across a number of disciplines Natures of Africa is one of the first edited volumes which encompasses transdisciplinary approaches to a number of cultural forms including fiction non fiction oral expression and digital media The volume features new research from East Africa and Zimbabwe as well as the ecocritical and eco activist powerhouses of Nigeria and South Africa The chapters engage one another conceptually and epistemologically without an enforced consensus of approach In their conversation with dominant ideas about nature and animals they reveal unexpected insights into forms of cultural expression of local

Baruch Hirson, 2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government *Year of Fire Year of Ash* is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid movement More than this the book overturns much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary *Year of Fire Year of Ash* provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson's book provides a timely reminder of the Soweto revolt's continued significance to struggles against oppression today *The Stock Exchange Official Intelligence for ...*, 1927 **Small Dictionaries and Curiosity**

John P. Considine, 2017 *Small Dictionaries and Curiosity* tells a story which has not been told before that of the first European wordlists of minority and unofficial languages and dialects from the end of the Middle Ages to the early nineteenth century These wordlists were collected by people who were curious about the unrecorded or little known languages they heard around them Between them they document more than 40 language varieties from a Basque Icelandic pidgin of the North Atlantic to the Kalmyk language of the lower Volga The book gives an account of about 90 of these dictionaries and wordlists some of them single page jottings and some of them full sized printed books paying attention to their content and their

physical form alike It explores the kinds of curiosity and imagination by which their makers were moved the lover of all languages hearing new voices in an inn the speaker of a dying language recording his linguistic memories the patriot deploying his lexicographical findings in the service of an emerging nation It offers an encounter with the diverse voices of the entirety of post medieval Europe turning away from the people of the courts and universities whose language was documented in big dictionaries to listen to people who did not speak the languages of power the people of remote places and dying communities the illiterate poor settled or homeless migrants from the edges of Europe and beyond
