Uva Essays 2013 2014:

Assault on the Small Screen Molly Ann Magestro, 2015-07-22 Over the last few decades television programs have attempted to depict some of the more troubling elements of society with a more conscientious approach. Issues that networks were once reluctant to broadcast such as sexual abuse, sexual assault and rape have become frequent plot points for many popular shows. Narratives that portray important social issues could potentially affect the ways individual viewers understand such incidents in the real world so it is important to pay close and critical attention to the stories about rape that are broadcast to mass audiences. In *Assault on the Small Screen: Representations of Sexual Violence on Prime Time Television Dramas* Molly Ann Magestro examines the ways in which police and legal dramas on network and cable channels portray rape narratives. In this discussion the author focuses on eight successful shows: NCIS, Criminal Minds, CSI, The Closer, Rizzoli, Isles, Dexter, Law and Order: Special Victims Unit, and The Good Wife. Each chapter offers a close reading and analysis of how one or more of the shows represent rape narratives and rape victims in ways that more or less address feminist understandings of rape and rape culture. The arguments in each chapter explore the specific narrative content of individual series rather than a single critical approach. Each of the eight shows considered within the book is the focus of its own argument as the representations of rape narratives on television are as complex as issues surrounding rape can be in the real world. In a time when rape narratives are frequently making headlines, taking the time to examine and understand the messages broadcast by a medium as ubiquitous as television serves an important role in developing an understanding of rape culture. A significant step toward this understanding, *Assault on the Small Screen* will be of interest to scholars of film and television, media studies, gender studies, criminology, and sociology.

A Very Seductive Body Politic Nicoletta Marini Maio, 2015-10-21 T00:00:00+02:00 This volume maps the multilayered narratives created in cinema on and around Silvio Berlusconi as a means of exploring the age of Berlusconi. The analysis crosses chronological and generic boundaries stretching back to the comedy *Italian Style* which foreshadows the symbolic meanings incarnated by Berlusconi before he actually entered the public stage. The book delineates a comprehensive cinematic corpus and focuses on a selection of narrative and documentary films from the proto-Berlusconi *everyman of La pi bella serata della mia vita* *The Most Wonderful Evening of My Life* 1972 by Ettore Scola to the Berlusconi pretext for political self-reflection of *Arance e martello* *Oranges and Hammer* 2014 by Diego Bianchi. The author argues that the Berlusconi in these films represents not only the historical persona but also a pervasive semiotic category in which the recent history of the country is inscribed and Italian society mirrors itself.

Justice Is an Option Robert Meister, 2021-04-19 More than ten years after the worst crisis since the Great Depression the financial sector is thriving But something is deeply wrong Taxpayers bore the burden of bailing out too big to fail banks but got nothing in return Inequality has soared and a populist backlash against elites has shaken the foundations of our political order Meanwhile financial capitalism seems more entrenched than ever What is the left to do *Justice Is an Option* uses those problems and the framework of finance that created them to reimagine historical justice Robert Meister returns to the spirit of Marx to diagnose our current age of finance Instead of closing our eyes to the political and economic realities of our era

we need to grapple with them head on Meister does just that asking whether the very tools of finance that have created our vastly unequal world could instead be made to serve justice and equality Meister here formulates nothing less than a democratic financial theory for the twenty first century one that is equally conversant in political philosophy Marxism and contemporary politics Justice Is an Option is a radical invigorating first page of a new and sorely needed leftist playbook

information available in the world in delicate ways adopt a wide range of epistemic attitudes and in that process constantly change the world itself Logical Informational Dynamics is about logical systems putting such activities at center stage focusing on the events by which we acquire information and change attitudes Its contributions show many current logics of information and change at work often in multi agent settings where social behavior is essential and often stressing Johan van Benthem s pioneering work in establishing this program However this is not a Festschrift but a rich tapestry for a field with a wealth of strands of its own The reader will see the state of the art in such topics as information update belief change preference learning over time and strategic interaction in games Moreover no tight boundary has been enforced and some chapters add more general mathematical or philosophical foundations or links to current trends in computer science The theme of this book lies at the interface of many disciplines Logic is the main methodology but the various chapters cross easily between mathematics computer science philosophy linguistics cognitive and social sciences while also ranging from pure theory to empirical work Accordingly the authors of this book represent a wide variety of original thinkers from different research communities And their interconnected themes challenge at the same time how we think of logic philosophy and computation Thus very much in line with van Benthem s work over many decades the volume shows how all these disciplines form a natural unity in the perspective of dynamic logicians broadly conceived exploring their new themes today And at the same time in doing so it offers a broader conception of logic with a certain grandeur moving its horizons beyond the traditional study of consequence relations

Reinventing the Good Life Jeannette Pols , 2023-12-04 Ever since Adam Smith s musings on the invisible hand became more famous than his work on moral sentiments social theorists have paid less attention to everyday ethics and aesthetics Smith s metaphor of the invisible hand posits that social outcomes emerge by dint of the behaviours of individuals rather than their intentions or virtues Modernist and scientific approaches to determining the common good or good forms of governance have increasingly relied on techniques of generalisation and rationalisation This shift has meant that we no longer comprehend why and how people display a deep concern for everyday life values in their social practices People continue to enact these values and live by them while academics lack the vocabulary and methods to grasp them By reconstructing the history of ideas about everyday life values and by analysing the role of such values in contemporary care practices for patients with chronic disease in the Netherlands Reinventing the Good Life explores new ways to study the values of everyday life particularly in situations where the achievement of a clear cut or uniform good is unlikely The book presents a practice based epistemology and methodology for studying everyday care practices and supporting their goodness This analytical approach ultimately aims to generate ideas that will allow us to relate in more
