How to Write about Economics and Public Policy Katerina Petchko, 2018-07-12 *How to Write about Economics and Public Policy* is designed to guide graduate students through conducting and writing about research on a wide range of topics in public policy and economics. This guidance is based upon the actual writing practices of professional researchers in these fields and it will appeal to practitioners and students in disciplinary areas such as international economics, macroeconomics, development economics, public finance, policy studies, policy analysis, and public administration. Supported by real examples from professional and student writers, the book helps students understand what is expected of writers in their field and guides them through choosing a topic for research to writing each section of the paper. This book would be equally effective as a classroom text or a self-study resource. Teaches students how to write about qualitative and quantitative research in public policy and economics in a way that is suitable for academic consumption and that can drive public policy debates. Uses the genre-based approach to writing to teach discipline-appropriate ways of framing problems, designing studies, and writing and structuring content. Includes authentic examples written by students and international researchers from various sub-disciplines of economics and public policy. Contains strategies and suggestions for textual analysis of research samples to give students an opportunity to practice key points explained in the book. Is based on a comprehensive analysis of a research corpus containing 400 research articles in various areas of public policy and economics.

Brand Loyalty in Bangladesh Dr. Md. Uzir Hossain Uzir, Profession Dr. Abu Bakar Abdul Hamid, Dr. Ts. Dr. Ahmad Shaharudin Abdul Latiff, Israaq Jerin, 2021-05-06 A brand is a valuable asset and loyalty to a particular brand is the source of revenue and profitability of the business. Brand loyalty is significant for the business growth and expansion of companies in the electronics sector. A populated country, Bangladesh, has a substantial expenditure on electronic appliances, and the demand for these household items increases over the period; however, customers are not always loyal to a particular brand. Marketing literature shows that customer satisfaction and brand confidence directly affect brand loyalty, and brand trust mediates their relationship. Due to the technological advance of social media technology, it has an essential role in the customer's decision to buy household appliances. The existing literature has not focused on this massive demand for electronic appliances, customer satisfaction, loyalty, trust, and social media's significant role in consumer buying behavior. The book shoed the investigation of the effect of customer satisfaction and brand trust of electronic home appliances on brand loyalty and the mediating role of brand trust in customer satisfaction and trust relationship. The study also examined the extent to which customers believe social media information influences them. The study gathered data from 523 Bangladeshi respondents from Dhaka by conducting a survey. The data were analyzed with SPSS and CB SEM AMOS for the hypothesis test. The findings revealed that customer satisfaction and brand trust significantly impact brand loyalty, and social media moderates those significant relationships. The

result of the study contributed to the expectancy disconfirmation theory trust commitment theory brand loyalty theory and theory of reasoned action by presenting empirically based insight into customer satisfaction brand trust and brand loyalty constructs in electronic home appliances in Bangladesh In addition the results provided a practical insight into marketing and brand management They suggested the practicing managers in developing product quality with customer preference building trust through maintaining brand image and creating awareness among the customers and considering the significance of social media and its usage The research used probabilistic sampling techniques both rural and urban customers only a single home appliance and PLS SEM statistical tool for analysis Future researchers could focus and include other variables such as price or advertising consider loyalty separately and use both urban and rural customers to have better predictions

Introduction to Business Ristau,Eggland,Burrow,Robert A Ristau,Dlabay,Steven A Eggland,James L Burrow,Anne S Daughtrey,1996-04-09 International HRM and Development in Emerging Market Multinationals Paresha Sinha,Parth Patel,Verma Prikshat,2021-12-21 Emerging multinational enterprises or EMNEs have made a huge impact on the international business stage by internationalising at a rapid rate And they have performed remarkably well in both developing and developed countries Accordingly there is a growing strand of literature on how EMNEs manage their international human resource IHRM practices in different international contexts However the majority of the literature on IHRM practices of EMNEs is limited to explaining what international management practices EMNEs implement in their foreign subsidiaries and how they implement them Too often EMNEs struggle to transfer their weak management practices across national borders as they have limited experience resources and capabilities when compared to MNEs from developed countries Developing a better understanding on the manner in which EMNEs adopt their international human resource management and development practices abroad is therefore paramount to fully understand their globalisation related behaviours This dedicated book will aim to provide a holistic picture and contemporary insights on IHRM in emerging multinational enterprises It will be of interest to researchers academics and students in the fields of business and management especially those with a particular interest in human resource management firm internationalisation and emerging markets
